

WORLD MESSAGE WARNS OF ARMS

[Continued from First Page.]

Peace Congress, at its second session to-day decided to appoint a committee to inquire into the strength of the forces to be maintained by the Allies and associated powers on the western front during the period of the armistice.

The committee will be composed of Marshal Foch, General Tasker Bliss, General Diaz, Winston Spencer Churchill, the British minister of war and M. Loucheur, French minister of reconstruction.

The military branch of the council adjourned at noon until 10.30 o'clock tomorrow morning. The council of the five great powers continued in session after the withdrawal of the special military representatives.

The council took a recess at 12.30 o'clock until three o'clock.

Paris, Jan. 24.—The question of whether the Panama Canal should be internationalized under the league of nations would depend entirely upon the attitude of the United States government, according to the belief expressed to-night by Lord Robert Cecil who has submitted to the peace congress a draft of the British view of the structure of the league. He spoke at a conference of journalists.

The second session of the Peace Congress, to be held to-morrow, will, like the first, be open to the press. The first subject on the order of business, as was announced yesterday by the Supreme Council, will be international legislation on labor.

Views Crystallized. America's views has been crystallized and is believed to harmonize in many respects with those held by the British delegates. It is believed to be based upon full recognition of the principles of international protection of labor by governmental agencies thus offsetting what is regarded as a dangerous tendency toward class control of governments.

Labor Problems. Of interest to the southwestern section of the United States, as well as Mexico, is the demand for freedom to work in any country on terms of equality with native labor. Other provisions are said to relate to child and female labor, the prohibition of night work for minors, a basic eight-hour day, and the prohibition of international trade in products made by minors.

Lord Robert held that the Panama Canal is not on the same basis as some other waterways, since it is the property of the United States, and must be for that country to say how it shall be controlled.

Equal Rights For All. In speaking of the admission of neutrals into the league on the same basis as other nations, Lord Robert said he felt that there should be no classification but that all sovereign independent states should have equal rights. In the general discussion which followed this remark he said it would be a disaster if no South American nations were included in the organization.

He said that no definite proposals had yet been made regarding limitation of armaments. In his opinion, there must be limitation, but there cannot be total disarmament since every country must maintain certain defensive forces.

House in Central Location. Improvements. Give particulars in the office address. BOX X 1010. Care of Telegraph.

AMERICAN SOLDIERS IN NORTHERN RUSSIA

One of the first pictures received here showing American soldiers in Northern Russia. The photograph of the Yanks was made out of the Smolny Barracks at Archangel, where the American Red Cross is caring for their needs. Lieutenant Wesley Wright, of Chicago, is shown on the left.

TRAIN ROBBERS OUT IN KANSAS MOST POLITE

Apologizes For Actions While Searching For \$400; Bids Conductor Good Night

Kansas City.—There was nothing of the old rough frontier style about the unmasked negro robber who held up twenty persons in the chair car of the Chicago Great Western Railway train near Leavenworth.

The Sunday morning robber, however, chose the chair car. Entering at the Kansas side station he sat down near the front of the car and apparently went to sleep. As the train slowed down at South Leavenworth the negro rose and quickly drew two revolvers.

All Done Quietly. "Stand up, please and hold up your hands," he said in a quiet voice. The sleepy passengers complied promptly. Soon all were standing with upraised hands. There were several women in the car and these also complied.

Quickly he went down the car after dropping one revolver into the side pocket of his overcoat and the other into the pocket of his trousers. He gathered all the loose change and money from the pockets and pocket-books of the twenty passengers.

LYNCH WILL ASK LOAN OF \$50,000

[Continued from First Page.]

Whether he is contemplating the construction of sheet asphalt highways in Cameron street, from Calder to Maclay streets; Herr, from Cameron to Fourteenth streets; or the new bridge around the new Thomas A. Edison Junior High School building at Nineteenth and Chestnut streets.

City councilmen are discussing the possibility of calling a special election for the bridge at Walnut street, to be held in pending now, and some of the commissioners said it is a question whether it will become a law in time to call the election for the same date that a Senator will be selected to succeed Lieutenant Governor Edward E. Beidleman.

SAYS NATION HAS PLENTY OF FLOUR

Foodstuffs Plentiful on Philadelphia Markets; Prices Dropping

Philadelphia, Jan. 24.—Contrary to reports from flourmen, there is no liability of a flour shortage, according to W. C. Smith, head of the Flour Division of the Federal Food Administration. "There is plenty of flour in the country," he said, but it may not all be in the hands of millmen and dealers.

Market tendencies yesterday continued to show a slight shading in retail prices. Eggs and poultry were reported in greater demand, with the shipments of the former increasing faster than the growing demand.

Workingmen employed in the several state factories in France, especially in the powder mills, had founded co-operative societies before the war, but as a rule the staff was content to belong to societies which already existed in their vicinity.

Deposed King of Portugal, Who May Regain Throne and Princess He Wed While in Exile

Cable reports tell of what seems to be a well-organized effort to restore King Manuel to the throne of Portugal. Some dispatches say that his representatives issued a manifesto discouraging the leaders of the royalist party, others that he left England for Portugal. While in exile in England he married Princess Victoria Augusta of Hohenzollern. The woman who will be queen of Portugal if the revolution is successful is seen here with the deposed King.

All-Metal Hun Airplane, With Folding Wings Found by Canadians

That all-metal airplanes were being used by German aviators was discovered by Canadian troops as they advanced into Germany after the signing of the armistice. This photograph shows a Hun plane, the folding wings of which were of tin. The framework was of iron and steel.

Prince Regent of Serbia Forming New Cabinet

Called her diplomatic and consular representatives in Russia, and breaking off relations with Soviet, and informed the Bolshevik representative at Sweden, M. Vorovsky, that he would not be further allowed to enjoy the diplomatic courier privilege.

PRINCE ALEXANDER

Since the resignation of Nikola P. Pachitch, the Serbian Premier, which was recently reported, Prince Regent Alexander is busily engaged in forming a new Cabinet.

TROTSKY CAPTIVE OF THE ESTHONIANS

Early in December Sweden received an official representative of the Russian Soviet in Switzerland.

This May Happen To You

Harrisburg, Pa., Jan. 18, 1919.

Dear Sir: It gives me great pleasure to add my testimony to that of many others in this vicinity who have had occasion to make claims under accident policies carried in the General Accident.

The accident which caused my disability occurred on June 30, 1917, since which time you have paid me twenty-seven hundred and ninety-six dollars. The final payment was made today and I wish to state that during this time I have received the most courteous and kindly treatment from the representatives of the "General."

Very truly yours, C. E. HOOVER, Fort Hunter, Pa.

Mr. Hoover was disabled almost two years ago by being hit by a motorcycle, resulting in a fractured limb. The General Accident policies insure full coverage and prompt payments.

ISAAC MILLER, General Agent, Kunkel Building

Why Go Away With Printing?

It would be folly to send to a distant city for water when it is here in abundance; it would be unwise to suffer delay and inconvenience in an effort to procure any commodity that is yours by the simple reaching out and taking hold.

From a slightly differing viewpoint it is also true that you invite delay and disappointment, with the saving in money-value by going out of town with your printing.

It has been proven so often that wise business men save postage, telegraph or telephone tolls and are able to keep in personal touch with their order.

MARKETS

By Associated Press

New York, Jan. 24.—Attention of the dividend rate on Bethlehem Steel common shares, although on a changed basis, was a bullish factor at the opening of to-day's stock market.

The usual reaction in oils, extending to two points in the more popular issues, caused the list to waver after the opening, other stocks receding more moderately. Toward noon, however, oils gathered fresh strength.

Table listing various market items and their prices, including American Sugar, American Cane, Am Car and Foundry, Ameri Smelting, Anaconda, Atchison, Baldwin Locomotive, Baltimore and Ohio, Bethlehem Steel (B), California Petroleum, Chesapeake and Ohio, Col Fuel and Iron, Corn, Crucible Steel, Distilling Securities, Erie, General Motors, Goodrich, Great Northern, etc.
