

# SHAFER, AMERICAN FLYER, ARRIVES ON FRENCH STEAMSHIP

### Dauphin Boy Passenger on Vessel From Which Cromwell Sisters Leaped to Death Short Way From Pier in France; Expected Home Shortly

New York, Jan. 29.—Sergeant Walter Shaffer, of Dauphin, Pa., who was downed while flying over the German lines and made prisoner, arrived here yesterday on the steamship La Lorraine. It is expected that he will start for his home soon.

Other passengers on the ship were: Adjutant E. B. Paichild, who said he traveled from the Philippines to join the unit, and Corporal L. L. Byers, of Philadelphia. Byers was also made prisoner after being downed while flying over the German lines.

Byers said he was placed in solitary confinement for three weeks when he refused to answer questions. Later he was taken to a Baden prison camp where there were 2,300 other Americans. Both Byers and Shaffer made unsuccessful attempts to escape and were transferred to Belgium, being released when the armistice was signed.

**Confirm Twins' Suicide**

All doubt as to whether the Misses Dorothy and Mavis Cromwell, New York society girls and twin sisters, jumped overboard from the French liner La Lorraine was removed today on the arrival of that steamship here from Europe.

The officers of the ship confirmed the reports that the young women had left notes in their stateroom saying they intended to commit suicide.

Just before their act they were seen walking nervously up and down the second cabin deck. One of them jumped, the other following immediately afterward. Owing to the stormy weather, it was impossible to stop the ship and attempt rescue.

The State Commission of Public Safety and Defence, as the "War Board" is officially known, held its first meeting late yesterday under the presidency of Governor Sproul and after arranging for legislation for continuance of its activities under the title of the State Welfare Commission, rescinding the action of November 1917, which had placed the War Service Bureau under the appointment of Dr. Martin G. Brumbaugh as director.

The meeting was held in the office of Governor Sproul with Lieutenant Governor Beidleman, Auditor General Snyder and Adjutant General Beary in attendance. Lieutenant Governor Beidleman, Lewis S. Sadler, State Highway Commissioner, and Col. Lewis E. Beiler, who had been prominently identified with the activities of the Commission and the State Council of National Defence, were also present. Mr. Beidleman became secretary under the law and the commission selected Mr. McClain, who had been supervising the work for the commission for the last two years without any salary and also acting as treasurer, as executive director at \$5,000 a year. He will continue as treasurer. On February 1 the commission will have in cash \$2,000,000 as the balance of the \$20,000,000 appropriation voted almost two years ago. Harry S. McDevitt, secretary to the Governor, was elected assistant secretary at \$200 a month. William H. Ball, who had been secretary to Dr. Brumbaugh and also secretary to the chairman during his term, retired January 21.

The action of the commission in rescinding the proceeding establishing the War Service Bureau also carried with it the appropriation of \$30,000. It was announced after the meeting that the commission will create its own War History Commission, created by the Pennsylvania Historical Commission, of which Governor Sproul has been chairman, and the State Council of Defence which had made it an appropriation. This commission, whose director is Prof. Albert E. McKinley, of the University of Pennsylvania, has been authorized to make appropriations to it from time to time.

The motion to rescind the action of November creating the bureau was made by Lieutenant Governor Beidleman with a second by Auditor General Snyder, who also held the proxy of State Treasurer Kephart. Governor Sproul did not vote. Attorney General Schaffer, who was present during part of the meeting, advised regarding proposed legislation. It is proposed to include bills in the General Assembly for better covering activities of the commission during the period of readjustment on a peace basis. This will be under the heading of Americanization and Home Defence Police will be two of the features of work to be undertaken, while close attention will be given to the employment. Pending enactment of this legislation, which Mr. Schaffer will prepare at once, the commission will continue its work under Mr. McClain.

It is planned to make the Home Defence Police an active body and commissions issued for one year will be reissued under the name of the Pennsylvania Reserve Militia was commended and Adjutant General Beary left last night for Washington to confer with War Department officials regarding the Militia will be continued until a new National Guard is formed.

The Women's Council of defence will be continued under a new name and the details of the activities were left to Mr. McClain. Agricultural matters were deferred until a later meeting.

In the matter of the eighteen employment agencies which the State is operating at a cost of \$9,400 a month, steps will be taken by Mr. McClain to have the United States authorities, who have been co-operating with the state, restore the previous status of the state agencies. The State Council of National Defence will continue to act with a modified view, its scope having been reduced and expenses cut down by Mr. McClain recently. It is the plan to form a state-wide executive committee to act with the State Welfare Commission, when created and to have local bodies to co-operate in various sections.

The Food Administration, whose work and expenses were cut down last month, was assigned three offices in Philadelphia until the middle of February.

A plan to reduce floor space used in the Philadelphia offices was discussed and Mr. McClain will carry it out.

### Prince of Wales a "Dear" Says Chicago Telephone Girl After They Danced

The Prince of Wales is a "dear," we have that on the word of Miss Millicent Martin, formerly a Chicago telephone operator who still is with the A. E. F. Signal Corps. "He's a likable every-day chap," she said after she had danced with his heir to the British throne at the officers' club at Coblenz soon after the American army of occupation had taken possession of this border city.

### THIS WOMAN'S TEST GETS QUICK RESULTS

Mrs. R. Robinson, 1521 Diamond St., Philadelphia, says it is worth while now to give after the experience she went through. "I was in such bad shape I could hardly walk from the giddiness and nervousness I suffered. The food I ate made so much gas that it seemed to burst my brain and I became fully run down and my whole system seemed to need renovating, and when I read about Tanlac helping cases like mine in a few weeks I started using Tanlac. The first bottle brought me relief. I eat and sleep beautifully now."

The genuine Tanlac, which bears the name J. I. Gore Co., on outside carton, is now sold by George A. Gorras, Gorras Drug Store, Chas. F. Kramer, W. F. Stevens, and other leading druggists. Tanlac, the celebrated vegetable tonic, stomachic and health builder, is also sold in neighboring cities and towns. Ask for it.

### GIRL REWARDED

SALT LAKE CITY, Utah.—A good many food production medals have been won and worn with honor, but few have been more worthy than that of the one awarded to Ethel Lingberg. Ethel is fifteen years old and lives in Salt Lake County.

In the last season, besides attending high school, Ethel ploughed fifty acres and harrowed and leveled it for wheat, alfalfa and beets, and in season helped her father cut down the alfalfa. She also assisted with irrigation, in her father's absence, turning the water on and off alone. She canned 650 quarts of fruits and vegetables and dried many pounds of beanmeal. She was baking the bread for the family.

One hundred chickens grew to maturity during the summer under her care. In her spare moments she has knitted socks for soldiers. When she finishes high school Ethel plans to attend a college, where she will study agriculture and home economics.

### Hair Often Ruined By Washing With Soap

Soap should be used very carefully. If you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is just ordinary multistep cocoanut oil which is pure and greaseless, and better than the most expensive soap anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves no scalp soil, and the hair fine and soft, bright, lustrous, fluffy and easy to manage.

You can get multistep cocoanut oil at any pharmacy. It's very cheap, and a few ounces will supply every member of the family for months.
