Police Search For Men Who Shot Highspirer Man; \$500 Reward Is Offered

Details of local and state police today are endeavoring to trace the two colored men who last evening entered the wholesale liquor store of R. W. Lerch, of Highspire, and shot Lerch after endeavoring to hold up and rob him. The shooting and attempted robbery occurred about 7 o'clock last evening. As Lerch was preparing to close his store for the day and was counting his money, two heavily-built colored men, about five feet six inches in height, entered the store and ordered a quart of whisky. As Lerch again started to count his money while the two men were arguing as to who should pay for the liquor, they leveled revolvers and ordered him to throw up his hands. When Lerch refused, one of them shot, the bullet striking Lerch in the neck. Quickly grasping a heavy hammer lying nearby on a counter, Lerch hurled it at the negroes and struck one of them in the face. Both wheeled about and hastily made their exit.

Captain George F. Lumb, of the State Police, and local police were at once notified. State Police searched the Locust Grove camp in the evening, but no colored men answering the descriptions of Lerch's assailants were located. Lerch has offered a reward of \$500 for the apprehension of the would-be robbers.

This is the second shooting that has occurred at Highspire within a week. Last Sunday night a Mexican was shot through the breast following an argument with a group of colored men.

WIRE CONTROL UNDER NEW BILL END DECEMBER 31

Post Office Committee of the House Reports Favorably on Measure

Washington, Jan. 29.—Government control of telephone and telegraph properties would end next December 31 under a resolution ordered favorably reported yesterday by the House Post Office Committee by a vote of ten to eight. Chairman Moon announced that he would present the measure in the House to-day and ask for a vote to give it right of way.

The resolution made no mention of cable properties and that phase of the situation was not discussed at the meeting of the committee. Members later expressed varying opinions as to the effect of the legislation on Federal control of those properties which was assumed by Presidential proclamation last November under the authority given in the original wire control resolution passed by Congress last July 18.

Chairman Moon said the new legislation would not affect the original law in so far as it applied to cable properties, control of which would have to be relinquished with the issuing of a proclamation by the President announcing the signing of the treaty of peace and its ratification.

On the final vote as announced by the committee, three Democrats joined with seven Republicans to end the period of control on December 31, and seven Democrats and one Prohibitionist opposed it, as they desired extension for a longer period. The vote follows:

Republicans—Steensoren, Minnesota; Madden, Illinois; Griest, Pennsylvania; Copley, Illinois; Paige, Massachusetts; Woodyard, West Virginia; Ramsayer, Iowa—7. Democrats—Bell, of Georgia; Holland, Virginia; Black, Texas—3. Total—10.

Agents: Democrats—Moon, Tennessee; Sterling, Pennsylvania; Oliver, New York; Rouse, Kentucky; Blackmon, Alabama; Beakes, Michigan, and Ayers, Kansas—7. Prohibitionist—Randall, California—1. Total—8.

Will Keep Sick Soldiers Until Well Enough to Take Old Jobs

Washington, Jan. 29.—Surgeon General Ireland announced yesterday that the War Department's policy to retain wounded and sick soldiers at military hospitals only long enough to restore their health to a degree which would permit them to return to their former occupations. It was not the purpose to treat the men indefinitely, he said, and thus expose them to "hospitalitis."

The Surgeon General at the same time made public the conditions under which soldiers would be discharged from treatment. Men to be retained under military control include those suffering from acute diseases, or unhealed lesions, from communicable diseases, from disabilities which can be corrected within the term of enlistment of the patient, and those "suffering from chronic or permanent disabilities which are susceptible for improvement or fit them for the industrial opportunities of the training course provided by the federal board for vocational training."

Soldiers who have been blinded or their eyesight much impaired will, under the regulations, be retained until they are able to care for themselves.
