

HARRISBURG TELEGRAPH

A NEWSPAPER FOR THE HOME

Published evenings except Sunday by THE TELEGRAPH PRINTING CO.

Members of the Associated Press—The Associated Press is exclusively entitled to the use for republication of all news articles credited to it or not otherwise credited in this paper and also the local news published herein.

Member American Newspaper Publishers Association, the Audit Bureau of Circulation and Pennsylvania Associated Dailies.

Eastern Office, Story, Brooks & Finley, 111 1/2 Avenue Building, New York City.

Entered at the Post Office in Harrisburg, Pa., as second class matter.

Human improvement is from within outward.—Froude.

WEDNESDAY, JANUARY 29, 1919

SOLDIER INSURANCE

THE life insurance underwriters of Harrisburg are to be commended for their prompt action in defense of soldiers' insurance.

TRACKWORKERS

TRACKWORKERS of the Pennsylvania railroad threaten to strike unless certain demands are met by the railroad administration.

ONLY ONE LANGUAGE

THE Legislature should pass without delay the four bills presented in the House Monday night by Mr. Bolard, of Crawford, providing for the repeal of the law requiring the publication of certain state and legal advertising in the foreign language press.

STANDARD RAILROADS

IT should not have required the testimony of an expert to have convinced the railroad administration of the folly of attempting the standardization of railroad rolling stock the country over.

light passenger locomotive which satisfactorily hauls the Bingleville accommodation would be entirely out of place attempting to pull one of the suburban expresses out of Philadelphia or New York.

A SHAKEUP NEEDED

JUST what is back of the present in a teapot that is at present stirring the police department is not apparent. Certainly it does appear as though the acceptance of thirty cents reward nearly a year ago by a patrolman for a service rendered would appear to be small ground for dismissal in the light of other offenses of both omission and commission that even a surface investigation of the department would bring to light.

The recent vice raid is an example. It is a suspicious circumstance, to say the least, that the Federal agents were able to fill a whole courtroom with offenders on one evening in a city where the local police had failed to find even one place of ill repute.

And in support of the suspicion that all of the police and city detectives could not have been ignorant of these deplorable conditions, it is recalled that the police of the city declined to make the arrests when the information was offered to them by Federal investigators.

And then the question arises, if some of the officers were aware of conditions and did not act, and the heads of the department refused to clean up after the Government had offered its assistance, what is back of their unwillingness to do their duty? Were they simply criminally negligent, or had they a monetary interest in the protection of the speakies and brothels?

THE WAIL OF THE LOST

[From the New York Sun.] These ringing words are from a speech delivered by the attorney for a brewers association:

MORE SURRENDER

PROMINENT Democratic newspaper publishes a long news dispatch from Buenos Aires saying that the United States is losing trade in South America.

NO PEACE FOR HANK

HENRY FORD's coldest of the election of Truman H. Newberry to the Senate shows that Henry does not yet appreciate the fact that the people of Michigan prefer a first-class fighting man to a pacifist.

Washington's Mysteries

How are the successors to McAdoo and Gregory going to live in Washington? One of the most interesting mysteries is how they will manage to get the boys out of the trenches by Christmas.

Politics in Pennsylvania

By the Ex-Committeeman

One of the features of the 1919 session of the Legislature which appears to be attracting comment among the members and people who follow general assemblies, is that the session is so well on.

The committees have all been named and announced and less growing than usual is heard. The presiding officers of the two houses seem to have handled that feature of some good men and the results justify the return to the old method and people look back on the session of 1918 when the House confided the work to a committee with considerable relief.

The decision but the usually trouble liquor legislation to the front has a good bit to do with this situation and the calls of the Governor will have been heard.

The Walker bill to put non-partisan judicial election law off the books was affirmatively reported by the House yesterday afternoon.

The fact that the state department has been working under a salary law from about 1879, and that men of value have gone to other departments or other occupations because of the "poor pay" seems to have impressed legislators, judging from comments heard.

Chief Justice J. Hay Brown among visitors to the Capitol yesterday conferred with a number of officials. Chief Justice W. H. Keller was also a visitor.

James H. Yeager, former member of the Pennsylvania House and later United States marshal, was in Harrisburg yesterday.

Another House visitor was Representative William Conner, now registrar of wills of Allegheny.

The House roads committee got started yesterday. "We are going to work with the Governor and highway commissioner in road matters," said Chairman George W. Williams.

"Tuesday must be a black day in Dr. Brumbaugh's life. He lost two jobs in one week, both on Tuesday," remarked a man at the Capitol last night.

LABOR NOTES

American shipyards built 1882 vessels of 2,721,281 gross tons during 1918.

The engineers' trades, which include machinists in England has declared for a 46-hour week.

Lincoln's Spirit Hardened

Gene Debs throws out the hint that he is another Lincoln. But it does not matter. The great liberator was probably so accustomed to such things by this time that he has quit turning over in his grave.—From the Toledo Blade.

Filipinos Show Capacity

The Filipinos arise to remark that they, too, would like full freedom, but are willing to wait our convenience.

Over 25,000 people employed in the salmon canning industry in the State of Washington.

The salaries of women school teachers in Pennsylvania increased 23 per cent during the last year.

WONDER WHAT A TEN MONTHS OLD BABY THINKS ABOUT

Government's Brave Undertaking

[From the Philadelphia Ledger] If Governor Sprout shall succeed in the undertaking to which he is said to have thus early applied himself, namely, the placing of State Public Service Commission came to him.

James H. Yeager, former member of the Pennsylvania House and later United States marshal, was in Harrisburg yesterday.

Another House visitor was Representative William Conner, now registrar of wills of Allegheny.

The House roads committee got started yesterday. "We are going to work with the Governor and highway commissioner in road matters," said Chairman George W. Williams.

"Tuesday must be a black day in Dr. Brumbaugh's life. He lost two jobs in one week, both on Tuesday," remarked a man at the Capitol last night.

RUSSIAN PROTESTS

[From the Philadelphia Press.] For whom do they speak, these Russian leaders who object to the Peace Conference's proposal that the Bolsheviki, along with all other Russian factions, should attend the meeting at Princes' Island.

It should be clear to every Russian leader from President Wilson's frank statement of principles on Thursday that the influence or power will be employed to the advantage of no separate faction in that unfortunate land.

HIS DREAMS

I wonder when the Kaiser rests Upon his carven bed, With quilts of silk and elderdown About him softly spread, And night and silence round him weave.

DO YOU KNOW

That Harrisburg's course in Capitol Park improvements is being watched with interest by municipalities?

The "Pocketbook Theory" Made the Nation Dry

THIRTY years ago a young professor from out of the West went to the University of Kansas as a member of the teaching staff. He waited long enough to get his bearings and then made his bow to a Kansas City audience as a lecturer.

RETURNING TO NORMAL

[From the Phila. Inquirer.] Governor Coolidge, of Massachusetts, is one of those who believe that the way to get back to normal is to start by going right back and stop talking about it.

EDITORIAL COMMENT

WASHINGTON'S POSITION

"Europe has a set of primary interests, which to have none, or very remote relation. Hence she must be engaged in frequent controversies, the causes of which are essentially foreign to our concerns.

Evening Chat

The unusually mild weather has prevailed during January has been the direct means of increasing Harrisburg's coal supply by many tons not only through the shipment from stocks which have not been hard hit by orders and the lack of demand here, but because the river coal fleet has been able to operate.
