

*"The Live Store"*

*"Always Reliable"*

# "TOMORROW"

Conditions regarding the clothing situation are not so "rosy" as you might think and before prices are lowered for good quality fabrics, it's possible there may be a slight increase over the present cost. Strange as all this seems it's only too true. Merchandise costs more today than it did a year ago, yet in spite of all the advice we have received not to reduce our prices this season we are going to Begin, as usual, our SEMI-ANNUAL

# MARK-DOWN SALE

*Where Everything in Our Entire Stock Is Marked Down Except Collars, Manhattan Shirts and Interwoven Hose*

All manufacturers tell us prices of Men's Clothing for Spring and Fall of 1919 will be no less than the prices which prevailed during the past season. Wool is needed badly in every European country, not only for the various peoples who have been subjected to great sacrifices at home, but as well for returning soldiers—Several Million Men in America, soldiers and sailors who are being released from active duty, must be provided with civilian clothes. These demands you will readily see are factors to be reckoned with: Prices are determined by laws of supply and demand, and will, therefore, remain at their present levels for some time to come.

## Our Mammoth Stocks Are At Your Disposal At Extremely Low Prices, You Can Save Money

We have plenty of merchandise which we own at very much less than it could be bought for at prevailing market prices. Don't be backward, you can have all you want at these prices—We are not considering the cost—this is our final "clean up" and we want to dispose of every dollar's worth of Fall and Winter goods so we can get ready for Spring Shipments.
