Founded 1851

Published evenings except Sunday by THE TELEGRAPH PRINTING CO.

Executive Board

E. J. STACKPOLE President and Editor-in-Chief

F. R. OYSTER, Business Manager

GUS. M. STEINMETZ, Managing Editor

A. R. MICHENER, Circulation Manager

Member American Newspaper Publishers Association

Member Eastern Office of Newspaper Publishers Association

Entered at the Post Office in Harrisburg, Pa., as second class matter.

By carrier, ten cents a week; by mail, \$2.00 a year in advance.

Live, there are many round

Needing thy care;

Pray, there is One at hand

Helping thy prayer;

Fight for the love of God,

Not for renown;

Not in thine own.

Strive, but in His great strength.

—Couten.

TUESDAY, FEBRUARY 4, 1919

SENATOR HALE'S SPEECH

SENATOR HALE speaking before the Senate yesterday expressed a doubt as to the popularity of President Wilson's peace program in the United States.

There are by-ways in European politics that nobody but a European understands. The President is learning more about these now than he ever dreamed of before.

"SLACKER" MARRIAGES STRANGELY enough, it is from Salt Lake City that we get a sane analysis of how it happens that the larger number of divorce cases in court at this time involve young men within the draft age.

The wreckage of the matrimonial craft of the first days of war came as a heavy blow to the coming generations.

All this is pitifully true. Yet we can scarcely sympathize with the young women who married young men to keep them out of the Army.

Wages are very high in Odessa, Russia, and amount to virtually a confiscation of capital.

the full approval of the American people. He is more autocratic than any of the erstwhile autocrats of Europe.

THE TIME IS RIPE

THE decision of Governor Sproul to press for early commencement of the big Capitol Park development plan ought to be the signal for Harrisburg and Dauphin county to get busy on the joint city and county project.

The financial situation of both city and county is favorable to the necessary loan, but much preliminary work must be done before the project can be taken to the voters.

The sale of the old courthouse site would more than purchase such a plot as would be needed on the park zone.

EXCELLENT SELECTIONS

GOVERNOR WILLIAM C. SPROUL not only demonstrated his keen interest in the official historical activities of the State, but his recognition of ability last evening in his reappointment of Dr. Thomas Lynch Montgomery to be State Librarian and chief of the State Museum and his selection of William Perrine, the gifted editor of the Philadelphia Evening Bulletin, to be the gubernatorial successor on the State Historical Commission.

Dr. Montgomery was named for his fifth term of four years as head of the institution which has risen to the front ranks of State libraries and which through its museum has become an exceedingly valuable adjunct to the educational system of the State.

In naming William Price, the Pittsburgh philanthropist, to the State Board of Public Charities, and reappointing Thomas J. Lynch as State Water Supply Commissioner the Governor has chosen men of signal ability and value to the Commonwealth to be with him.

"SLACKER" MARRIAGES

STRANGELY enough, it is from Salt Lake City that we get a sane analysis of how it happens that the larger number of divorce cases in court at this time involve young men within the draft age.

The wreckage of the matrimonial craft of the first days of war came as a heavy blow to the coming generations.

All this is pitifully true. Yet we can scarcely sympathize with the young women who married young men to keep them out of the Army.

Wages are very high in Odessa, Russia, and amount to virtually a confiscation of capital.

Politics in Pennsylvania

By the Ex-Committeeman

Passage of the resolution ratifying the prohibition amendment on second reading in the House last night was one of the most interesting things that happened there.

There was a rallying of liquor forces in the House, many of the old timers being on hand and there was much discussion of the plans for today and many claims to say nothing of the unkind remarks about men who had censured the demand of the people of Pennsylvania that their state let into the parade.

The Senate last night arranged for the memorial to the late Senator James P. McNichol, long one of the dominating figures of Pennsylvania politics.

Ex-Representative J. Ren Wylie of Allegheny county, the House to see former comrades.

Ex-Senator John M. Jamison, prominently mentioned for congressional nomination for congress in the Westmoreland district, was a member of the Senate in 1909 and 1911, and is well known.

Legislation is now pending in Congress to trade or give all this away. While public attention was absorbed by the war, measures to dispose of these resources quietly passed both the House and Senate.

The numerous amendments to the "border" act in the telephone case injunction which was presented to the Dauphin county court today.

"And There Is No Peace" The god of love, the god of strife—Twin brethren, they, and lords of all; And, at the trumpet call of life, They answer to one battle cry.

LABOR NOTES In Japan stonemasons earn about \$1.30 a day, while bricklayers and carpenters are paid \$1.20 a day.

The total membership of over-1,200 unions in England is put at nearly 4,500,000.

The Spanish government is considering the nationalization of important industries in that country.

AIN'T IT A GRAND AND GLORIOUS FEELIN'?

WHEN YOU SIT ALL ALONE IN THE FOYER OF A SWELL HOTEL IN A STRANGE CITY.

WHEN—SUDDENLY—YOUR NAME IS CALLED—YOU ARE BEING—PAGED!

LETTERS TO THE EDITOR

Our Natural Resources

The end of fighting in France opens many a question at home. During the war the hearts and minds of the men and women of America were overseas, but with the coming peace, the eyes turned to home affairs.

The people of the United States own natural resources of enormous value—lands that contain more than six hundred million barrels of oil, four hundred and fifty billion tons of coal, two million acres of phosphate lands, and more than fifty million undeveloped water horsepower.

Legislation is now pending in Congress to trade or give all this away. While public attention was absorbed by the war, measures to dispose of these resources quietly passed both the House and Senate.

Canada, he asserts, made the turnover with a minimum of friction and disturbance. The rush of returned soldiers, he says, merely supplied a labor force which for a long time has been seriously needed, but was absent.

By BRIGGS

AND YOU'RE FEELING LONESOME AND BLUE AND GOT NO ONE TO GO OUT WITH.

OH—BOY!! AIN'T IT A GR-R-R-RAND AND GLOR-R-IOUS FEELIN'?

General Wood's Work

FROM HARVEY'S WEEKLY

GENERAL LEONARD WOOD has inaugurated a line of work at Camp Funston which will be of far-reaching value to the large force of men under his command as well as to the country at large.

time to spend in improving themselves in general study. The illiterate but by no means negligible percentage, have full opportunity for instruction in the elementary school branches which, outside of the army, many of them would feel more or less humiliated in asking for and accepting.

ABSORBED THE SOLDIERS

(From the Pittsburgh Dispatch)

One of Canada's most prominent bankers at present in New York ventures the opinion that the United States will find the reconstruction difficulties less serious in the realization than in contemplation.

Canada, he asserts, made the turnover with a minimum of friction and disturbance. The rush of returned soldiers, he says, merely supplied a labor force which for a long time has been seriously needed, but was absent.

THE AIRPLANE

Stallion, paced by the lightning, saddled of cloud, With head-wind spur meshed in his plunging planks.

LABOR NOTES

In Japan stonemasons earn about \$1.30 a day, while bricklayers and carpenters are paid \$1.20 a day.

Evening Chat

Are Harrisburg people superstitious? Well, it might be said that some of them are.

Speaking about groundhogs and the weather some people have been calling up the Bureau of Meteorology and asking for information.

Speaking of influenza Dr. J. M. J. Raunick, who handled the epidemic of things during the epidemic, is making a series of studies of the cases that were reported to him.
