BETTER SERVICE DRIVE TO AVOID EXPRESS LOSSES

American Express Company Will Emphasize Importance of Starting Packages Right

Plans to bring about a marked improvement in the express service throughout the country were announced to-day by J. C. McNeice, local representative of the American Railway Express Company. A "Better Service" campaign will start Monday in every city and town in the country. The chief purpose of the campaign is to check the waste of time, effort and money that result from lost or damaged shipments.

Tuesday, the second day of the "Better Service—Better Marking" campaign, the agents at all important points will call together the employees and urge upon them the importance of active co-operation in the campaign, first by improving the conditions inside the ranks and then by securing the cooperation of the shipping public with whom they come in contact. Similar meetings will be called every Tuesday of the campaign.

"Better Service—Better Marking" speeches will be made by the local express heads, and better service campaign committees will be appointed to outline the objects sought, to the vehicle men, platform men, office and claim bureau employees, messengers in the cars and the agents at smaller points.

Experience has shown that a package that is started right seldom goes wrong. A determined effort will be made to eradicate what is known as the "no-mark evil."

"Starting right" means simply that a package is securely wrapped and packed, that it can stand up for itself and is plainly and properly marked, not only with the name and address of the consignee, but with the name of the shipper.

The slogans of the campaign will be carried throughout the city by posters on express wagons, placards in windows and by pamphlets and other forms of printed matter.

WITH THE BOWLERS ACADEMY LEAGUE STANDING

Table with columns for Captains, Sergeants, Privates, Corporals, Pershings, Majors, and various names with scores.

Physician Explains Who Should Take Nuxated Iron

Practical Advice on How to Help Build Up Great Strength, Energy and Endurance

Commenting on the use of Nuxated Iron as a tonic, strength and blood builder by over three million people annually, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital, New York, and the Westchester County Hospital, said: "Lack of iron in the blood not only makes a man physically and mentally weak, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles without ever realizing the real and true cause of their trouble. Without iron in your blood your food merely passes through the body something like corn through an old mill with rollers so wide apart that the mill can't grind."

For want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable and all run down while at 40 or 60 with plenty of iron in your blood you may still be young in feeling, full of life, your whole system brimming over with vim and energy. But in my opinion you can't make strong, vigorous, successful, sturdy iron men, and healthy, rosy-cheeked women by feeding them on metallic iron. The old forms of metal-
