MORE SALARY FOR NEXT GOVERNOR

It Would Be Made \$18,000 Under a Bill Introduced in the Senate

Senator Sprout's successor will receive \$18,000 or \$8,000 more than his predecessors, if a bill introduced in the Senate last evening by Senator Crow, Fayette, becomes a law. The bill which provides for the reorganization of the entire executive office, raises the salary of the private secretary to the Governor, to \$7,500, and provides for a chief clerk at \$4,000, in addition to a number of smaller places.

The fight was opened in the upper chamber, when Senator J. S. The Law and Order Committee will consider the measure.

The House of Representatives was asked to concur with the Senate last evening, in a joint resolution to increase the appropriation for the Inaugural parade, from \$50,000 to \$55,000. When the House adjourned, however, no action had been taken on the measure.

Other bills introduced to the Senate last evening, included one by Senator Salus, Philadelphia, validating divorces granted on the ground of hopeless insanity of the respondent, under the provision of the Act of April 18, 1905; one by Senator Craig, Beaver, to confer upon the several courts of common pleas of the Commonwealth, jurisdiction of a court of equity in all cases of dower and partition and prescribing the method of procedure; another by Senator Miller, Clearfield, to regulate the fees to be charged by justices of the peace, alderman, and magistrates in the Commonwealth, while

O'NEIL SAYS OUR STATE DID JOB

Declares Pennsylvania Made a "Dry" Nation Possible

J. Denny O'Neil, ex-highway commissioner and a "dry" crusader for years, last night issued a statement on the "dry" amendment, saying Pennsylvania made it possible.

"Pennsylvania has played the biggest part in the movement to make a dry nation. Few persons seem to know that if it had not been for Pennsylvania that we would not have an amendment to the National constitution obliterating liquor from the country. Pennsylvania is furnished more votes in Congress to submit the amendment than any other state in the Union, because without 18 congressmen from this state the resolution submitting the amendment would not have passed. We played a wonderful part speaking from a state standpoint, and I have little time or patience for those who go about speaking in a belittling sense of so wonderful a Commonwealth.

"In France it was the 28th Division that held the line and stopped the Hun on his onward rush toward Paris and in the dry fight it was Pennsylvania that held the line and stopped liquor in its onward rush to our children.

"In their effort to keep this state wet the liquor forces spent money and fought like demons and while we kept them continually engaged here where they dumped their money and resources to fight other sections of the Nation—the south and west—controlled in the dry column.

"The fight is over and the amendment approved, Pennsylvania, it is hoped, will join the ratification ranks to-morrow. It means saving of money to taxpayers in general—we shall need less policemen, less officers and officials, less judges of the courts, less jail room, fewer asylums for the insane—in fact, it is the dawn of a real constructive era. Its economic feature of this question is too great for short discussion. Millions will be saved."

Reds Control Greater Part of Eastern Ukraine

London, Feb. 4.—Bolshevik forces now are masters of almost the whole of eastern Ukraine, including the important centers of Kharkov, Poltava, Ekaterinoslav and the Konez mining region, according to a Hel-singfors dispatch to the Mail. It is reported that a Soviet government has been established at Kharkov, the president being M. Rakovsky, one of the signatories to the Brest-Litovsk treaty with Germany.

Mifflin County Prisoners Supported Themselves

Lewistown, Feb. 4.—Mifflin county prisoners worked a total of 1056 days during 1918, earning their board, fifty cents per day, and enough money to buy shoes, clothing and tobacco for themselves and families. Sheriff M. A. Davis declares their health and habits were improved beyond an estimation of dollars and cents by their open air work.

Barber Gives Recipe For Gray Hair

Mr. A. E. O'Brien, who has been a barber in New York City for many years, made the following statement: "Gray hair and faded hair can be immediately made black, brown or light brown, whichever shade you desire, by the use of the following recipe that you can make at home: 'Mered's' is a small box of Orlex powder at any drug store. It costs very little and no extras to buy. Dissolve it in four ounces of distilled or rain water and comb it through the hair. Directions for mixing and use and gold bond guarantee come in each box. One box will last you for months.

It is perfectly safe, it does not rub off, is not sticky or gummy and leaves the hair fluffy. It will make a gray haired person look twenty years younger."

Half of French Army Lost

1,500,000 killed in battle and an equal number seriously wounded is the enormous sacrifice of France in the world war. This constituted about half of the men she put into the field—a larger ratio of her 36,000,000 population than any other nation gave. America owes France a large debt of gratitude for this heroic outpouring of her life's blood that liberty might live, and also to the peasants of France who discovered a perfect remedy for stomach, liver and intestinal ailments which is reported to have relieved incalculable suffering, prevented many surgical operations and saved thousands of lives. Geo. H. Mayr, a leading Chicago chemist, imports the ingredients and sells this remedy in America under the name of Mayr's Wonderful Remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the internal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Geo. H. C. Kennedy, Clark's Drug Store.

This Sale, the greatest in our history, offers values of exceptional worth for every furniture requirement of the home. The great outstanding feature is the quality of the furniture for the prices we are asking. We make it our policy to buy only from such reputable manufacturers whose word is their bond. When they quote us a price we know that no other buyer can buy it for less. When these manufacturers guarantee the quality we can depend on it being shipped according to sample sent us. In every respect they endeavor to keep faith with us. It is a pleasure to do business with such people who make good anything that may not be up to specifications. Such is the reputation of Bowman's Furniture Department among the thousands of people in Harrisburg and vicinity who have furnished their homes at this store. They know that the price they pay is as low if not lower than similar quality can be purchased elsewhere. They know that no one can buy furniture at this store any cheaper than they can. They know that what we guarantee it to be, it is. They know that if anything should possibly be in any way different from what it was represented, we will make it good without question.

They evidently believe as we do, that it is a pleasure to deal with a firm whose goods are as represented. Their repeated orders from year to year is evidence of their confidence in our furniture quality and methods of doing business. The continued growth of this department, until it is the equal of any in its display of fine furniture dependably made is further evidence that they recommend us to their friends.
