The paste is made by mixing some water with a little powdered delatone. This is applied to the hairs and after 2 or 3 minutes removed and the skin washed, when it will be left clear and hairless. Be sure you buy real delatone.

Why People Buy Used Cars
They buy them because they want a car with all the latest improvements—a good car in appearance and performance—and yet they do not want to pay the price of such a car new.
But great care has to be taken in buying a used car. You want to know the truth about what you are buying.
We always tell the truth about each used car—and a car is not sold until it has been overhauled and put into first-class shape throughout.
We handle many used cars because they pave the way for more new car sales. We sell them so that the man who buys of us sends his friends here and comes again when he wants another car.

WALKER'S BILLS STIR COMMENT IN THE SENATE

Radical Changes Made in Addition to Compulsory Registration Requirement

Much comment has been caused in the Legislature by the bills presented yesterday by Mr. Walker, Philadelphia, for changes in the election laws. It is intimated that more are coming and that the Philadelphia intends to make things lively. The bills will likely appear on the floor of the House soon.

By one bill every qualified elector in the state would be compelled to register and vote at every general and municipal election and at every party primary or non-partisan primary. Failure to comply with the act is made punishable by a fine not exceeding \$25, in default of which the defendant must undergo imprisonment not exceeding ten days.

An elector may be excused from voting or registering on account of illness, disability or unavoidable absence on the registration and election days. Illness or disability however must be established by the affidavit of a registered physician, and an absent elector must file an affidavit giving his reasons. All affidavits must be filed with the county commissioners within 30 days of the last day for registration, or within 30 days of any election.

If the county commissioners have reason to believe that any affidavit is false or does not constitute a sufficient excuse, they must lay the matter before the district attorney who is directed to prosecute the offender. The county commissioners, within 60 days after the last registration day, or within 60 days after any election, to give the district attorney a list of names and residences of all persons who failed to register or vote and who failed to file affidavits and they are to be prosecuted.

Employers in cities, boroughs and towns, must grant employees one hour, and those in townships must grant employees two hours, in which to register and the same time to file affidavits. Failure to comply with the act is made punishable by a fine not exceeding \$25, in default of which the defendant must undergo imprisonment not exceeding ten days.

Another bill by Walker would require persons wishing to pre-empt the name of an independent party for the purpose of nominating petitions to file an affidavit with the prothonotary of the proper county, before the primary election, setting forth the name they desire to use. Under the present law party names may be pre-empted after the primary and before the election.

Senator Phipps, Venango, presented a bill amending the corrupt practices act to provide that if a candidate or political committee receives no contributions, nor makes any disbursements, the candidate and treasurer of the committee, need file no account or affidavit.
