

U. S. TO DEPORT ALIENS WHO FOMENTED STRIKES; 54 ARE HEAVILY GUARDED

Most of Men Held Are Bolsheviki Who Are to Be Sent Back to Russia For Disloyalty to Government

ONE EFFORT MADE TO RELEASE PRISONERS IS FRUSTRATED ON TRAIN BY OFFICERS

New York, Feb. 10.—The fifty-four industrial workers of the world who are on their way to New York, from the west to be deported by the government, will be detained at Ellis Island, the immigration station, until arrangements for sailing can be made.

Fifty-four members of the Industrial Workers of the World passed through Chicago last night in a special train under a heavy guard on the way to an Atlantic port, where it is said they will be deported at once by the immigration authorities.

Forty of the prisoners came direct from Seattle, where it is alleged they took part in fomenting the general strike which has paralyzed the industries of that city for several days.

Three leaders of the Seattle strike, one Spokane agitator, an I. W. W. leader from Denver and five alien convicts arrested in Chicago were among the prisoners gathered into the Federal net.

The majority of the men were alien labor agitators picked up by officials of the United States Immigration Service during a year of secret campaigning in industrial centers of the Pacific coast.

The proceedings against United States enemies of this type is simple, an official with the train said. "Just two hours before the Seattle strike was called we gathered forty agitators into the cars with everything cleared away between them and the middle of the Atlantic ocean.

Go by Wilson's Order "When evidence was compiled against this particular crowd each case was brought to a Federal hearing and all court findings sent to Washington where they were reviewed by Secretary of Labor Wilson.

The majority of the prisoners will be sent back to Russian provinces. They are principally Norwegians, Swedes and Finns, according to guards on the train.

The only attempt at a mob delivery of the prisoners was frustrated by the foresight of the Federal officials. Before the train reached Butte, Mont., officers were warned that the I. W. W. leaders in that city and Helena had learned of the deportation and were planning to deliver their comrades.

Several hundred men gathered at the railroad station in Butte when the original train reached that point, according to reports which reached the officials. They were allowed to search the train and when they found the prisoners were not on board left without making trouble.

Only one of the prisoners made serious objection when told of the intention of the Government to deport him. He swore out a writ of habeas corpus against a deputy which was quashed by a Federal court at Spokane. One woman, the wife of a Finnish agitator, arrested in Spokane, was in the party.

The five prisoners taken into the party were alien convicts, who were sentenced to deportation some time ago.

Beary, who is to go to the National Capital on militia matters. The State Arsenal has cannon from almost every war, including one presented to the state by Lafayette which bears his arms and a large number of Civil War pieces, as well as captured Spanish cannon.

PEACE DELEGATES FIND NO BARRIER AT WORLD'S TABLE

Stirring Developments Expected if Commission on Credentials Gets Down to Probing Passwords

NO INQUIRY LIKELY UNTIL ALL REPRESENTATIVES ARE PRESENT

Paris, Feb. 10.—If the peace conference commission on credentials ever begins to function some stirring developments, are expected to follow.

The commission has not met thus far even to organize, the conference having gotten along entirely without the right of any of the delegates to their seats being challenged, which is probably without precedent in the history of such international gatherings.

To Await All Delegates The usual course at these assemblies is for the delegates to exchange their credentials as soon as they gather, any one of them being privileged to object to the credentials of another if he finds the grounds to do so, it was stated, however, that the committee on credentials of the present conference would conduct any necessary investigation of the sufficiency of the papers brought by each delegate, and that it would await the arrival of all the delegates before undertaking the work.

Documents Not Examined The delegates have been coming along in single file ever since the opening of the conference, and it has not been thought proper to begin the examination of the documents. Rumors, however, have been current recently that there was another reason for the delay—the apprehension of the directing force of the conference that objections would be immediately lodged against the presence of some persons who have already occupied seats in the conference and who, it is declared, are not proper representatives of their governments or are accredited by organizations that have no existence as governments.

Forego Inquiry as to Delegates Leading members of the conference express confidence that these persons have a proper status in the body, have sanctioned their presence and have even admitted some of them to membership in the principal commissions, and it is understood that the conference leaders do not desire to have an issue raised now in this connection that might result in bad feeling and interfere with the smooth progress of the peace-making work.

Small Commissions Ready Such headway has been made by some of the lesser commissions of the peace conference with the plans before them that it is expected these commissions will be ready to report a number of important projects to the conference for its action almost immediately after the report of the commission on the Society of Nations is disposed of.

The conference itself while it appears likely to drop into a more leisurely pace after the departure of President Wilson and Premier Orlando of Italy and in the absence of Premier Lloyd George of Great Britain, who has already left Paris, plans to undertake the discussion of some of these topics. Interesting debates are expected to follow.
