\$18,000 OFF BILL

First Action of Rather Drastic
Character—House Sus-
tains Him

The bill is now a law and about \$750,000 will be available to meet deficits and make up for slashes of the appropriation bill of 1917.

The Governor disapproved \$2,000 in the sanitary engineering item of the Health Department to use in event of return of men from military service.

Foch Fears Huns
Are Forgetting They
Have Been Beaten

London, Feb. 11.—British newspapers of all shades of opinion are devoting serious attention to the attitude adopted by the German government toward the armistice conditions.

The Daily News' Paris correspondent sends a dispatch from an "authoritative source" on the subject in which he says his informant told him that he had the best reason to believe that Germany is not continuing to demobilize.

"She has now concentrated more than eighteen divisions under Von Hindenburg on the western front," the correspondent quotes his informant as saying.

The correspondent says he has been informed by a competent British authority that Marshal Foch "made a declaration of a somewhat serious character at a meeting of the Supreme War Council."

"He feels," this authority is quoted as saying, "that the Germans are beginning to forget that they are beaten. They are apt to forget that we are in a state of war. They have been slow in handing over transport and other things. They are causing a great deal of difficulty."

PRESENTED WITH FLOWERS
