PRICE CUTTING

Must be Done to Kindle Inter- About 300,000 Tons Will Be est Among the Buyers

New York, Feb. 12.—Further cutting of prices is now being admitted by producers as necessary to kindle the interest of buyers. The conclusion reached is that lack of important inquiry in the past nine weeks of open market conditions is in part to put to sea during the next five weeks, according to Edward H. Flural weeks.

Secretary of Comerce could before then develop understandings looking to establishing prices likely to attract depends largely on securing official sanction and the broad cooperation of the manufacturers and

Steel ingot production for January, as estimated by the American Tron and Steel Institute, was 3,082,427 tons, or 90,000 tons more than December.

Some test of market ideas will be made on February 18, when bids will be received against a navy inquiry for 16,000 tons of material, mostly plates and shapes. Surprise is shown over a request from the part for 20,000 kers of wire nails.
