THE VOICE OF LINCOLN

The hosts of heaven caught the echo, Down the sweep of centuries shall its tones resound! Through aftermath of war there comes the call: MALICE TOWARD NONE, AND CHARITY FOR ALL!

America is counting every grave in Flanders fields where lie her silent brave! Deep in her anguished heart she hears again: "RESOLVE THESE DEAD SHALL NOT HAVE DIED IN VAIN!"

For all mankind she lifts the flaming torch Drenched with the spray of slaughter's wild deluge, While loudly peals, like some majestic chime, "INVOLVE THE FAVOR OF ALL MIGHTY GOD!"

The years, unfolding, bear stupendous weight of many burdens but, to compensate, the voice of Lincoln calls in tones we know: "LET COME WHAT WILL, KEEP FAITH WITH FRIEND AND FOE!"

Alkali in Soap Bad For the Hair

Soap should be used very carefully, if you want to keep your hair looking its best. Most soaps and preparing shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is just ordinary malfined coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can buy. One or two teaspoonfuls will clean the hair and scalp thoroughly. Simply wash the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.
