It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin. Gently massage Musterole in with the finger-tips. Gorgas

Gorgas will open a new store in the Penn-Harris hotel Monday, February 17.

It will occupy the corner storeroom, Third and Walnut streets, and will be furnished and equipped in accordance with the most advanced ideas in furniture and fixtures for drug stores.

The counters, shelving and furniture have been designed along artistic lines and were built to harmonize with the architectural style of the interior.

A very fine soda fountain, modern in every particular, has also been specially built to blend with the general decorative plan of the store.

Last, but not least, the new store has been thoroughly stocked with fresh medicines and fine new merchandise.

This beautiful new store was suggested and will be conducted with but one particular purpose in view and that purpose is to make the Gorgas service broader and more efficient than cver.

For more than thirty-five years Gorgas service has kept pace with the remarkable growth and development of Harrisburg.

Twenty-five years ago, when we moved from Market Square to our present location, 16 North Third street, old furniture and fixtures and old ideas and methods were discarded.

We opened one of the finest and most modern stores in the country - relegated commonplace commercialism to a secondary place and made SERVICE the appealing factor to the public.

We have never spared pains nor expense to give the people of Harrisburg the service and accommodation that are to be expected from a modern, progressive drug store.

For years our store at 16 North Third street, has been open all day and all night, for the accommodation of the public.

On occasions when most of the other drug stores are closed we are open.

During epidemics Gorgas' store and the Gorgas organization are on duty every minute, day and night, to render every service possible. This was especially notable during the recent prevalence of the influenza.

Gorgas particularly aims to have just what you want when you call for it and aims to have it exactly right.

When it was suggested that a drug store in the Pennsylvania station would be a great convenience to thousands of people coming and going from the city, Gorgas put one there. A visit any time will prove the service it is rendering.

FORGE SHOP SUSPENDS WORK FOR TEN DAYS

Work For TEN DAYS Lack of work and the necessity for repairs were given as the reasons for the suspension of work in the No. 1 Forge Shop of the local steel plant. The suspension will probably last for ten days, and means the laying off of about 150 men. No. 2 Forge Shop was closed down permanently some time ago. No. 1 Forge had been working of curtailed time for a number of weeks. With the exception of the rolling mills, in which a little curtail-ing has been done, no other part of the plant has been suspended.

Harrisburg, Pa.

When the new Penn-Harris hotel became a certainty. the thought came to us that such a magnificent hostelry - the dream of Harrisburg for years - now a crowning reality - ought to have a first-class pharmacy attached.

It seemed to us such a fine hotel ought to have an upto-date drug store in the building on general principles and more especially as a convenience to thousands of guests who will come and who will judge Harrisburg.

The more we thought about it the more we thought about Gorgas service.

In opening this new store we believe we again demonstrate that we are fully in accord with the civic spirit of the community and that we have the enterprise to give to Harrisburg a drug store service creditable alike to the city and ourselves.

When the doors open, come in and see us.

Gorgas cordiality will greet you.
