Easy to Buy A Home

MANY renters have the false notion that to buy a property a large amount of money is needed. Nothing could be farther from the truth. Two or three Liberty Bonds and a good personal reputation might easily be made the basis for a home purchase, and the remainder carried on note or mortgage or both.

NEWS OF THE LEGISLATURE

HOUSE TACKLES BIG CALENDAR

Members Heed Speaker's Admonition to Push the Sessions Work

The House of Representatives got down to real work last night and cleaned up the largest calendar ever known in the middle of February. The session lasted almost two hours and Speaker's urgent urgings to work produced results.

The House passed by a vote of 179 to 11 the bill increasing fees of jurors to \$4 and witnesses to \$2. A bill increasing salaries of stipstaves was also passed, 16 votes being cast in opposition. Both bills went to the Senate.

A resolution was adopted requesting the Secretary of War to permit soldiers to keep their uniforms when they return to civil life. It was presented by Mr. Alexander, Delaware.

The Act introduced by Mr. Neary of Philadelphia providing for the regulation of the sale and possession of firearms of a size which may be concealed upon the person, passed second reading. This bill is similar to one introduced by Neary at the last session but which failed to get out of committee.

For New Department A bill to abolish the State Board of Moving Picture Censors and create in its place a State Bureau of Amusement, under a commissioner at \$5,000 a year, was presented by Mr. Bucher, Philadelphia.

Over 100 bills were introduced and a number reported out by committees. A second reading calendar of over forty bills was disposed of. Bills recommended were Alexander's judges salary, regulating sales of food and holding reading requirements of advertisements in German.

Works like magic, she now declares. Mrs. H. Fitzgerald, 2651 South Watts street, Philadelphia, whose husband is a ship painter at the New York Shipbuilding plant in South Camden, N. J., says: "I suffered from stomach trouble, a general breakdown and nervousness. I had been bedfast. I had to drag around a chair to do all my work and would keel over if I didn't do that. I heard about Tonalil, and had a presentiment it would help me. Since the first bottle of Tonalil, and I've taken four or five, I've constantly built up strength. It acted like Tonalil. I got my appetite. The genuine J. I. Gore Co. Tonalil is now sold here at the Gorgas Drug Store."

PARTY RAIDING WILL BE CHECKED

COUNTIES RUSH TO HELP STATE

Delegations Offer to Match State Dollar For Dollar on Roads

The manner in which counties throughout the state are offering to go "fifty fifty" with the state in the construction of highways is one of the impressive things about the Capitol. The numerous delegations which have been coming here, accompanied by legislators and county officials, have been informed of the primary road idea and they have promptly agreed when they found that the state could not do all they asked to join in the expenses.

Commissioners W. H. Jack and Charles Truby of Armstrong county told Commissioner Sadler that their county must have more improved road; and they said that in addition to the "primary road" construction planned by the state they propose to float a bond issue for as large a sum as possible and build roads themselves. The highway commissioner promised co-operation on a 50-50 basis insofar as possible under the state aid plan.

Senator Herron of Washington county and the three assemblymen from that county discussed the Burgetstown-Hickory road, declaring that it will open the northwest section of Washington county. The proposed construction would connect two already built sections and render unnecessary a 43 mile rail journey from Burgetstown to Washington. In the neighborhood of 21 miles of road are being built by townships in that section.

W. M. Parker, of Oil City, headed a Venango county delegation which got assurances from the highway commissioner that bids will be asked for at once on the construction of a section of the highway connecting Oil City and Franklin. The state also agreed to proceed at an early date with work on the Franklin-Harrisville road and the road from Salina to Shipperville. Construction on the Cranberry-Franklin section, it was amicably decided, will be delayed for some time.

Tried For Larceny James Clayton, aged 18, of New York, was arrested by military police who fired two shots at him as they pursued him, and was given a hearing in police court this afternoon on the charge of stealing a pair of shoes. The shoes were stolen from the store of Morris Hurst, Aberdeen and Strawberry streets, it is said.

HOUSING COMMITTEE ORGANIZED YESTERDAY The Chamber of Commerce housing committee, of which J. Horace McFarland, is chairman, met yesterday and organized for a year of active work. Various types of houses and housing development projects will be studied by the committee members to see what they are adaptable to Harrisburg's needs.
