Williamsport Once More

Defeated Central Girls

If any artful person reads this who can put a Gypsy curse where it belongs, he or she should respond to protect Central High maids from further rude treatment at the hands of Williamsport. Four times in two years is the record of defeat, and, though Florence Frank and Virginia Watts made superhuman efforts in this last disaster, enough cogs slipped to give the foe a 24-15 advangtage. The girls say a jinx is on them.

The game was a disappointment to the Blue and Gray tossers, for they were keen for avenging the three former defeats they underwent at the hands of the Billtown ladies. However, they will have to wait till next year.

The Central girls have but four remaining games this season. Next Friday they will meet the Susquehanna girls at Selinsgrove and the week following Sunbury High School. The lest two games will be with Camp Hill High School, one at Chestnut street and the other across the river.

The following is the lineup and summary of Saturdays' game at Williamsport.

HIGH COST OF MINING

Discussing the cost of mining anthracite coal, R. V. Norris, an engineer with the U.S. Fuel Administration, declares that from 30 to 36 per cent of the companies engaged in this industry were to-day operating at a loss.

On the basis of the present wage scale any marked drop in coal prices is not only improbable but impossible.

To lessen the cost of mining would involve a readjustment of miners' wages - and the miners threaten to strike if their pay is affected.
