\$300,000 LOSS IN POTATO CROP

Reports From York County Show High Percentage Due to Disease Last Season

Dover, Pa., Feb. 27 .- Owing to the prevalence of potato disease in York county, attention to which was sharply drawn during the recent farmers' institutes, held under the auspices of the Department of Agri-culture, the York County-Farm Bureau has taken steps to improve conditions. Meetings, at which the subject will be discussed, will be at various towns throughout

It is estimated that the loss in this county last year by reason of the disease has been 200,000 bushels, d at more than \$300,000. Just high a percentage of loss this shown by the estimate of the crop of the county, 998,946 els, figures given out at one of the county institutes.

First 50 Still In Daily Service

CTEWART'S are built to give long, continuous service — at all times, under all onditions. There are thousands of Stewart trucks — there is but one Stewart quality. And yet the first cost of a Stewart is from \$200 to \$300 below the average price of trucks of equal capacity.

Simplified Stewart design eliminates 600 to 700 parts and increases strength. The method of application puts more than 90 per cent of Stewart power at the rear wheels. It reduces gasoline consumption and brings tire expense to the mini-

Automatic lubrication protects against one of the most frequent sources of truck trouble and premature destruction. The Stewart has fewer grease cups and places to oil.

Adjustments on the Stewarts do not need to be tinkered or tampered with. Its service is not delayed because it "needs tuning up." It is a 24-hour-a-day truck;
