SUPREME COUNCIL CONSIDERS FEEDING CENTRAL EUROPE

Lack of Food Reported to Be Spreading Revolutionary Menace in Bohemia, Jugo-Slavia, Austria and Germany

Paris, March 7.—The Supreme War Council is to-day considering the military terms and the feeding of Bohemia, Jugo-Slavia, Austria and Germany. This question of feeding is regarded as increasingly important, as reports reaching the British and American delegations indicate that lack of food is spreading the revolutionary menace throughout Central Europe.

Aside from the actual military and naval terms under consideration, an important question has arisen as to whether these terms will be temporary, as incident to the close of the war, or permanent, holding Germany in subjection for an indefinite period. This last proposal has taken a very definite form as a means for curbing Germany for all time, so that she cannot repeat the experience after Napoleon's forced her, only to overthrow Napoleon later.

Lemons Bring Out The Hidden Beauty

Make this lotion for very little cost and just use for yourself.

An attractive skin wins admiration. In social life and in business the girl or woman whose face and hands show evidence of constant care enjoys a tremendous advantage over those who do not realize the value of a healthy skin and a spotless complexion.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter-pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months.

Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothener and beautifier. Just try it! Get three ounces of orchard white at any pharmacy and make up a quarter-pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin.

RUNS AMUCK IN THEATER CROWD; CAUSES PANIC

Long-Haired Man Says He Is President of the Buffalo Bolsheviks

New York, March 7.—Theater-going crowds in Forty-eighth street fled in panic last night when a long-haired person, who said he was Enrico Fabatino, "president of the Buffalo Bolsheviks," ran amuck with a revolver. Apparently it made no difference to him who his bullets hit for he fired in all directions.

Daily Health Talks

URIC ACID IN THE SYSTEM By Lee H. Smith, M. D.

Uric acid is now generally recognized as the cause of more diseases than was heretofore believed. When the kidneys are out of order uric acid accumulates within the body in superabundance. The disordered kidneys do not filter the poisons out of the blood, as they ought to do, and so the poisons remain in the blood and float around until they find a place to lodge, in form of urate salts. The thing to remember is that you may have rheumatism in any part of the body—you may have pains anywhere—your back may ache and your head may be dizzy—but the trouble is not where the pain appears. The trouble is in the kidneys, and what is the first thing to do? You must get that excess uric acid out of your system, which can be done by taking Anuric Tablets, the splendid remedy which Dr. Pierce, of Buffalo, N. Y., has put on sale in the drug stores at a low price. Anuric Tablets (made double strength), when taken into the system as medicine, have the peculiar power of dissolving the uric acid deposited there. Drop a bit of sugar salt into hot water, and it will disappear. In precisely the same way do these Anuric Tablets dissolve uric acid. Of course, after ridding the system of uric acid, it may return again unless you eat the right foods and live the right kind of life, but Dr. Pierce will advise you fully on proper food and correct living. You write and ask him. He makes no charge for such advice. Take Anuric Tablets to-day, by all means, and get that uric acid out of your system. Don't, don't, don't put the matter off.

TRAINMAN'S WORK GREATLY EASED

Clark Utt, 2121 South Sixty-seventh street, Philadelphia, is enthusiastic over the manner in which his labor as a trainman has been made easier. "I suffered from stomach trouble," says Mr. Utt, "and my hands and feet were swollen and red. Tanlac was recommended to me and it has regulated my stomach and has taken the swelling away. I recommend Tanlac because it has helped me in all my trouble and has removed the pain with which I suffered." The genuine J. I. Gore Co. Tanlac is now sold here at the Gorgas drug store.

Will the Senate Defeat the League of Nations?

So violent and sweeping is the criticism of President Wilson's League of Nations program that has flared up in the United States Senate that some editorial observers are asking whether it is possible that this covenant against war will be wrecked at last by the nation that has been regarded as its special sponsor.

The Evening Sun, New York, dismisses it as a "project of transcendental fatuity." As Senator Borah sees it "this is the first step in internationalism and in the sterilizing of nationalism," while to join the League insists Senator Reed, would be to "surrender by the pen what Washington gained by the sword." On the other hand "we want a League of Nations to prevent war, and we ought to be able to get it," thinks the Minneapolis Tribune, and the Philadelphia Public Ledger accuses some of our Senators of flaunting "sarcrows" to frighten America away from the league and declares that "to cast coal-oil on the flames of smoldering Europe just now is neither senatorial nor sane."

The People Who Read "The Digest"

The best test of any periodical is the class of its readers. Character in a magazine or newspaper attracts men and women of standing and judgment as inevitably as a flower draws the bee and for the same reason. It suits their taste. Glance around you in the train, on the street-cars, in hotel lobbies, wherever your fellow humans congregate, and note the people who read THE LITERARY DIGEST. They are the best type. They buy "The Digest" because they know it is accurate, impartial, wholesome, comprehensive, and up-to-date, because they can take it home to their children with confidence, and because it covers the world's news as no other periodical does. Are you with them?

Gunzenhauser's Bread The Most Economical Food

- A woman was supplying her market basket the other day and in conversation with an acquaintance made the remark that Gunzenhauser's bread was very good and that her family ate it, but that she considered it expensive bread.
- It naturally would seem a bit odd for a woman to say that Gunzenhauser's bread was expensive bread.
- At first thought you might wonder whether the woman meant that Gunzenhauser's bread cost her more than other bread or whether the loaf was smaller. When told that Gunzenhauser's bread was the same price as any other bread and that the loaf was just as large and was full weight, the woman remarked that she knew the price was the same and the bread was full weight, but explained this peculiar situation by saying that her family ate so much Gunzenhauser's bread that her bread bill was higher.
- This is something for you to consider. Good bread is nourishing and is a great deal less expensive at 10 cents a pound loaf than meat is at 85 cents a pound.
- When you and your family eat Gunzenhauser's bread you know that you are getting quality and full measure and it is certain that 8 loaves of Gunzenhauser's would be as much benefit as a pound of meat.
- So after all, while the woman acknowledged that her family ate a great deal of Gunzenhauser's bread, she also must admit that it is the cheapest form of food.
- If you had nothing else but Gunzenhauser's bread and a glass of milk, it would be a good meal.
