**March Sale of Housewares**

*Offers Unusual Saving Opportunities In Essentials for Housecleaning Days*

We have to clean house same as you do. Our March clean-up comes before yours, therefore the reductions in Housefurnishings Department are such as you cannot afford to ignore at this season of the year. And the Bowman quality of Housefurnishings is of the dependable kind, so the price does not always indicate the excellent values. The merchandise must be seen and you will readily see why the prices alone cannot tell the story.

Suppose, for instance, our prices ranged from 10 to 30 per cent. below our regular prices. That in itself means a great deal to those who know that our prices are always very moderate for the dependable grades. But to those who may not know there are various kinds of woodenware, innumerable grades of tin and granite ware, we suggest a walk through our large basement which is filled with China, Glassware, Housefurnishings and innumerable things you need throughout the house and about the yard this Spring.

Our annual March Sale of these Housefurnishings therefore is an event every thrifty housewife should make an attempt to attend.
