close to \$7,000,000, judging from the appropriation bills already in hand. State and semi-State institutions will run considerably higher owing to the requirements for new buildings, including the two new State insane hospitals and the home for inebriates and drug victims.

Chairmen of the legislative appropriations committees discovered these facts when they began their check-up of the bills in hand last night. Comparison with the appropriation list of 1917 showed that a number of bills had not yet come in. The State Board of Public Charities recommended \$5,539,466 for non-State hospitals, a reduction of over \$2,000,000 of what was asked for maintenance and refused all requests for building appropriations which amounted to \$2,429,800; recommending also \$1,500,688,20 for homes, et. and \$185,200 for sanitoria. The policy of the appropriations committees will be to refuse all building requests.
