

PEACE CONFERENCE ADOPTS MILITARY DRAFT OF TREATY

President Wilson Attends Session and Agrees to Military, Naval and Aerial Article

By Associated Press.

Paris, March 18.—The Supreme War Council resumed its sessions yesterday with President Wilson in attendance for the first time since he returned from the United States. It was a distinguished assemblage with military and naval experts, bearing war maps and a diagram of the actual draft of the military, naval and aerial articles of the peace treaty, in attendance.

It was this draft which the council adopted in the main, though a number of details still remain open. President Wilson agreed to all those features of the terms which Secretary of State Lansing and Colonel E. M. House had accepted at previous sessions. These included a general plan for German disarmament down to 100,000 men recruited by the volunteer system for twelve years, and a limitation on arms, munitions and other war stores, together with similar naval and aerial disarmament.

Poster Carries Warning to War Stamp Owners

Here is the "warning poster" which will be scattered broadcast through out the city by the war savings stamp division to protect stamp holders:

"You are being cheated if anybody offers you less than \$4.26 for a 1918 War Savings Stamp.

"We urge you not to cash it. If you must, take it to your post office or War Loan organization, Third Federal Reserve district, War Savings Division."

No Agreement on These Points, which were introduced, but on which no agreement was reached, proposed levelling the fortifications of the Kiel canal and Heligoland, and the disposition of the German warships.

The Supreme Council appointed a commission on aeronautics. The American members of the commission will be Rear Admiral Harry Knapp and Brigadier General Mason M. Patrick.

The council named Belgium, Greece, Portugal, Brazil, Cuba and Rumania to represent the small nations.

The ports and water ways commission, which met yesterday, was addressed by the delegates of Switzerland, who explained the legal and technical reasons which led Switzerland to claim participation in any convention in the future governing the Rhine navigation.

The commission examined further clauses regarding railway traffic, for insertion in the preliminary peace treaty.

Russians Before Conference

The Russian committee in Paris yesterday submitted to the Peace Conference a communication signed by Sergius Sazonoff, foreign minister of the Czeck government, Prince Lvoff, former premier; Nicholas Tschakovsky, president of the provisional government of North Russia, and Basile Maklakoff, ambassador of France.

The communication asked the Peace Conference to adopt resolutions declaring all questions concerning the boundaries of Russia, as they existed in 1914, excepting Poland, shall not be decided without the consent of the Russian people.

The communication also requests that questions concerning the status of the nationalities included within Russia shall not be decided without the approval of the Russian peoples.

MANY renters have the false notion that to buy a home a large sum of money is necessary. Nothing could be further from the truth. Two or three \$50.00 Liberty Bonds and a good personal reputation might easily be made the basis for a home purchase, with the remainder carried on note or mortgage, or both.

METHODISTS ARE TO BEGIN THEIR ANNUAL SESSION

Gathering at Sunbury For the Yearly Conference; Bishops and Superintendent The

Sunbury, Pa., March 18.—The Methodist Episcopal Church in this county is gathered here for the annual conference. Bishop Williams McDowell, of Washington, D. C., who is to preside at the sessions, arrived here last evening. At the same time the presiding elders (known now as district superintendents) arrived and went into executive session in their headquarters at the New House. The superintendents who reached here are the Rev. E. R. Heckman, of Harrisburg; the Rev. Emory M. Stevens, of Huntingdon; the Rev. J. S. Soule, of Shamokin and the Rev. H. L. Jacobs, of Williamsport.

There are no signs at this time of any changes in the pastorate of Harrisburg churches. The Harrisburg ministers are expected to arrive tomorrow. They will be accompanied by a number of lay delegates. It has been twenty-eight years since the Central Pennsylvania Conference met here. The pastor of the church in which the sessions are to be held is the Rev. J. H. Dougherty, formerly pastor of Ridge Avenue Methodist Church, Harrisburg. Several years ago the Rev. Mr. Dougherty was the conference host for two years in succession, while located at Tyrone. It was easier then to make plans for entertainment of the delegates, for the war has made the cost greater and nearly every Pennsylvania town is taxed for room for its own people.

This evening the undergraduates, who are to begin their examinations for the degree of divinity, met in conference, are to start their examinations in St. John's Church. Roll call will be followed by organization. The sacrament of the Lord's Supper will then take place, after which the first business will be transacted.

Tomorrow evening the anniversary of the Board of Temperance, Prohibition and Public Morals is to be observed, with Herbert T. Ames presiding. An address, "After Prohibition What?" will be delivered by Dr. Clarence True, of Washington, and Mr. and Mrs. Frank M. Waring will sing the songs of the New Crusade.

Prince Lichnowsky May Be German Ambassador to U. S.

Stockholm, March 18.—The Berlin correspondent of the Svenska Dagbladet mentions Prince Charles Max Lichnowsky, former German ambassador to Great Britain, as to probable ambassador to the United States after peace has been concluded.

Prince Lichnowsky created a sensation in 1918 when in a long article he blamed Germany for having started the world war and asserted that Great Britain did everything possible to avert hostilities. As a result of this the Prussian House of Lords expelled him from membership. Recently it was reported that Prince Lichnowsky would head the German delegation to the Peace Conference.

35 Lives Lost in Big Storm on Mississippi

Memphis, Tenn., March 18.—Thirty-five persons lost their lives in the storm which swept central and northern Mississippi, according to reports reaching here late last night. The tornado crossed the Mississippi river into Ishaqueua county and passed through Sharkey, Washington and northward as far as Tippah county.

The reports say the dead at Sharkey numbered two white persons and eleven negroes; at Isola, two white persons and fourteen negroes; at Moorhead, two whites, and in Tippah county, a white girl.

Telephone and telegraph service throughout the section was paralyzed.

NEW SCHEME TO DEFAUD

Carlisle, Pa., March 18.—Suits growing out of an alleged new scheme for securing money from parents and relatives of soldiers are pending before Justice Eckels here. Three charges of obtaining money under false pretense have been made against Raymond Boward, who gives his home as Harrisburg. According to the statements of the persons bringing the suits Boward represented himself as securing orders for enlargement of pictures of soldiers at \$4.98 each, he claiming, it is stated, that the United States government would pay \$5 towards the cost of each. He is claimed to have received a number of advances and photographs when those who advanced the money became alarmed and had him arrested.

RED BLOODED PEOPLE LIVE THE LONGEST

Red blooded people retain their youth and vigor until late in life because red blood ages slowly.

A child with impure blood seems old, while a child with pure red ironized blood seems young.

Impure blood clogs the system with waste matters, rapidly ageing body, mind and spirit.

Pure blood is red blood, rich in iron and Phosphates with power to rid itself of waste matter and able to carry life-giving oxygen to every cell and nerve. It makes both young and old bright, happy, keen and interested in life. This is the blood you need, every day of your life, the rich red blood made by pure food, fresh air, restful sleep and "Phosphated Iron" the red blood and nerve builder.

Phosphated Iron enriches your blood and nerves, giving them in shape for work. Improves your color, increases your appetite and gives you strength, vigor and power to enjoy both work and pleasure, makes you feel like doing things once more.

Phosphated Iron is prescribed by leading doctors for all who are worn out, run down, nervous, weak and thin blooded people in all walks of life, they have learned to depend on it for honest results.

Special Notice—To insure physicians and their patients receiving the genuine Phosphated Iron, they have capsules only, so do not allow dealers to substitute pills or tablets, insist on the genuine, in capsules only.

WEST SHORE WANTS BETTER LIGHT SERVICE

People of Marysville Complain That Dangerous Sub-way Is Left in Darkness

Marysville, Pa., March 18.—The Marysville street lighting service, furnished by the Juniata Public Service Company, of Newport, is declared to be unsatisfactory by Marysville citizens. Recently on two successive evenings the long subway beneath the preference freight yards of the Pennsylvania Railroad was entirely without lights, endangering the safety of persons passing through the subway and laying the borough open to probable suits. On the following day, it is asserted, the lights in the subway were left burning throughout the entire day.

The condition is such that the Marysville journal asks borough council to insist on better service and in the event that it is impossible to secure that, take measures for the reconstruction of a municipal power plant.

Perry Valley Iron Forge Has Suspended Operations

Marysville, Pa., March 18.—As a result of the pull in the steel business and the expiration of contracts, the Perry Valley iron forge has suspended operations. Slightly less than seventy-five men are affected by the closing of the local establishment, which is owned and conducted by A. S. Siedel.

The local plant manufactured charcoal iron blooms from scrap iron, to be shipped to rolling mills, for the treatment of the steel business that came with the opening of the war.

KOREA STIRRED BY UPRISING; 10,000 STONE RAIL DEPOT

Uneasiness at Seoul, but Situation Is Said to Be Under Control; Newspapers View Crisis as Grave

Tokio, March 18.—Korean demonstration continued Saturday and Sunday, according to dispatches printed in newspapers here, and it is indicated the national independence movement is remarkably extensive and well organized in some of the strongest provinces of this country. Reports state that the railway station at Pinyang has been stoned by a mob of ten thousand persons, the Korean national flag being commonly displayed. There is some uneasiness at Seoul, but the situation there is said to be under control.

Students Join in Movement

The movement is notable for its extent rather than its violence, among those prominently identified with it being government school students. Christian converts have been kept under control throughout the

trouble by the missionaries, it is reported.

Dispatches state that a son of M. Holki, the millionaire leader of the "Tondokyo" cult is blamed for the current rumor that former Emperor Yi-Heui committed suicide as a protest against the marriage of a member of the Korean royal family to a Japanese princess. On March 5 the day after his funeral, a mob forced the south gate of Seoul and paraded through the streets to Pagoda Park, girls and students being among the leaders.

Newspapers here view the situation as very grave and announce that among those arrested at Seoul were three foreigners and nurses from the American hospital. Reports from the interior of Korea state that several police officers have been killed.

BETHLEHEM CO. EARNINGS DROP

Increased Cost of Operation Striking Feature of the Steel Report

By Associated Press.

New York, March 18.—Net income of the Bethlehem Steel Corporation for 1918 aggregated \$57,188,789, compared with \$33,879,260 in 1917, according to the annual report issued late yesterday.

Net earnings after allowing for extra depreciation charges amounted to \$15,950,390, against \$27,320,736 the previous year, the striking disparity being largely due to increased cost of operations.

Statements to shareholders by Chairman Charles M. Schwab and President E. G. Graeg emphasized the fact that the end of the war had necessitated the charging off of extraordinary amounts of profits to cover losses in values of plant and equipment installed for the manufacture of war materials.

A Quick and Harmless Rheumatism Remedy

Be fair to yourself, you suffer from Rheumatism, no matter what form. Get from your druggist a package of Rheuma, the guaranteed prescription. Use the entire bottle, as if you don't think it has given you quick and sure relief, say no, you can have your money back.

Isn't that a fair offer? Can you say any deceit about it? What chance you take? Absolutely none.

Rheuma is a powerful medicine. It's a reputable physician's prescription, altogether different from remedies usually prescribed free from narcotics, and perfectly harmless.

Rheuma acts on the kidneys, it helps to force the uric acid from swollen joints and other lodging places. It places you in a day; makes you hopeful and happy in a week. It has released from bondage rheumatism sufferers who thought nothing would give relief. It should do as much for you—it seldom fails. Kennedy's drug store will supply you, and guarantee money back if not satisfied.
