THE UNIVERSAL CAR

The Ford Model T One Ton Truck is now a little over three years old, and we have yet to hear of the first trouble it has given. That's because of the worm drive. Not a bit of the power of the motor is lost through the worm drive. It simply cannot be. Up

to the introduction of the Ford Motor Truck, you could only get the worm drive in the highest priced motor trucks. It is too expensive an equipment for ordinary priced trucks. That's one of the reasons why we put it on the Ford Truck. Quality in

materials, scientific application of transmission of power, dependability in service and economy in operation are cardinal virtues in Ford production. These are what made the Ford "The Universal Car," and these are the qualities that will make the Ford One Ton Truck "The Universal Motor Truck." In town, in the city, in village and farm, the Ford Motor Truck is the essential necessity because it solves the problem of economical transportation. Come in and let us give you a demonstration. Let us have a chance to point out the superior merits of the Ford Motor Truck. Any one of the firms listed below will be only too glad to take your order and give you delivery with the least delay possible, and assure you of splendid "after service." The Ford Motor Truck sells at \$550.00 without the body, but any of us will supply you with such a body as you may desire.
