are too many people who are willing to be dishonest toward the belongings of other people.

A REAL NEWS ITEM

THE Telegraph's Gettysburg correspondent is a good reporter. He digs up a lot of news and

A NOTHER important public utility corporation has gone into the hands of a receiver, the United States court having appointed Job E. Hedges, once a candidate for Governor of New York, receiver of the New York Railways company.

This action follows a series of difficulties which have beset the transportation utilities of New York City. President Shonts, commenting on the appointement of the receiver of his company, says they had been trying for months to educate the public and the public authorities as to the necessity for increased costs of maintenance and operation which had to be faced as a result of the work of the County Commissioners by the drawly says the county officials have the support of the public in their efforts to properly house the local seats of properly house the local seats of government and to remove the prison from its present costly and unstrable site to a place in the county officials have the support of the public in their efforts to properly house the local seats of properly house the local seats of government and to remove, the prison from its present costly and unstrable site to a place in the county of the maintenance and work of the work be speeded up so that would nake better and more healthful men and women of them. This ought to be most encouraging to the work be speeded up so that would nake better and more healthful men and women of them. This ought to be most encouraging to the public and county officials have the support to properly house the local seats of the work is demand from many of the members of the Legislation of the maintenance and the public and the publ

What will probably take rank as the prize request for information made to the department of the Secretary of the Commonwealth has just been filed away. It came from western firm which seemed to be specializing in general data and the specializing in general data and the request was for detailed facts regarding the mileage and ownership of valiroads, number of farms and value of products, general welfare laws, diversity of manufacturing. laws, diversity of manufacturing, nationality of persons coming to the State in the last ten years and other lines. "It would take about six men six weeks just to compile that information," said George D. Thorn, the chief clerk of the department. Mr. Thorn answered the inquirer by sending a copy of Smull's handbook as the best that could be done without a State appropriation.

One of the odd things about the fire which wrecked the beautiful new home of the Country Club of Harrisburg early Saturday morning, was that members of the club which rushed to the scene when the news of the fire got abroad succeeded in saving the handsome mahogany buffet in the dining room. This is the second time this article has been saved from a fire which destroyed the club house. It was part of the original furniture of the club and when the building at Lucknow was burned it was among the pices dragged to safety. It underwent the One of the odd things about the ged to safety. It underwent the same experience at the Fort Hun-ter site.

Lines of several of the smaller islands in the Susquehanna opposite this city have been materially changed by the action of the river since last iell and the island that used to show in the raiddle of the river a short distance above the sanitary darn securs to have been almost washed away. While there has seen no faced in the river this year a number of periods of high water have occurred and rivermen say that the currents have been so swift and the rises due to rainfall so fast that the sandbanks have been cut away in many places Lines of several of the smaller
