DILL IS CRITICALLY HURT WHEN FIRE DESTROYS GARAGE

Loss Estimated at Close to Fifty Thousand Dollars in Spectacular Blaze

Irwin W. Dill, prominent automobile dealer and manager of the L. W. Dill Truck Company, continues in a serious condition as a result of the severe burns which he received in the big fire which largely destroyed the automobile warehouse owned by the City Transfer Company, at 443 South Cameron street, yesterday afternoon.

The insurance will amount to about half of the gross loss. Only yesterday morning, a number of trucks had been removed to be taken to the tractor show at Twenty-sixth and Derry streets.

The Studebaker-Brockway Service Company, which was located in the first floor of the rear of the structure, lost accessories and gasoline to the extent of \$2,000, Mark L. Mumma, manager, says. The concern's office and stockroom was destroyed, but fourteen automobiles were pulled to safety.

Mr. Dill was standing close to the gasoline tank that exploded and his clothes were ignited when the blaze first started. He stumbled to the elevator shaft and leaped thirty feet to the pit and then staggered toward his office. Clarence Baker, the injured lad, hearing the first explosion, rushed to the building and noticing Dill, smashed a window and pulled him to safety. All of the clothes was burned from Dill's body and his flesh was badly burned. He was rushed at once to the Harrisburg Hospital.

You Can't Brush or Wash Out Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

KAROLYI PLOTS TO PUT NATION IN RED REGIME

Budapest Dispatches Disclose Former Premier of Hungary in League With Lenin

Paris, March 25.—Budapest dispatches to the Lausanne Gazette say that Count Michael Karolyi, former Premier of Hungary, has been negotiating with the Moscow Soviet government since last November, through M. Rakovsky, the Bolshevik leader in Ukraine, with the object of introducing Bolshevism into Hungary, Rumania and Jugo-Slavia. Rumania Seriously Threatened "Rumania, which is the last rampart against Bolshevism, is seriously threatened by 150,000 Russian Bolshevik troops and six Hungarian divisions," the dispatch says. "The Allies should rush men, munitions and food there, for every hour lost may have serious consequences." Dispatches received at Berne say Nikolai Lenin, the Russian Bolshevik premier, intends to send a delegation to confer with M. Pogony, who is said to be the real ruling chief of Hungary, notwithstanding the election of the present proletarian government. The Rumanians and Czechoslovaks are reported to be mobilizing troops in view of being compelled to reinforce their frontier guards. Jugo-Slav delegates to the Peace Conference took a pessimistic view to-day of the situation in their country, Poland and Rumania, and said those regions were likely to be affected by the Bolshevik revolution in Hungary. Resistance May Fall "We fear," said one delegate, "that in view of the geographic situation of those countries their resistance to the spread of Bolshevism may be broken and that the Bolsheviks may overrun central Europe, not only an extension of the Bolshevik movement to the doors of Vienna, Bucharest and Belgrade, but an alliance between the Russian and Hungarian Soviets. Perhaps the Austrian and German Socialists may be involved. "A political and military offensive will probably be directed first against Poland and Rumania and then against Czechoslovakia. The turn of the Jugo-Slavic union will come next. In that event, the armies of Lenin and his allies would have only to cross Jugo-Slav territory to invade western Europe." The delegates derive from this situation an argument in favor of the recognition of the Jugo-Slav nation as a means of strengthening the authority and prestige of that government.

Babies Wrapped in Paper Because of Clothing Shortage

Washington, Mar. 25.—Lock of clothing in the liberated countries of Central Europe is regarded by Herbert Hoover, European relief commissioner, as fully as serious as the shortage of food. In a cablegram urging the American people to contribute liberally to the collection of clothing being made this week by the American Red Cross, Mr. Hoover said that in some of the war devastated countries a considerable portion of the population was unable to leave their homes because of insufficient
