

### ROBERT MILLER PRINTING HEAD

#### Adams County Man Named and Confirmed as Print- ing Superintendent

Robert C. Miller, of Gettysburg, formerly a newspaper publisher in Adams county and member of the Republican State committee for several years, was last night appointed Superintendent of Public Printing and Printing and promptly confirmed by the State Senate. Mr. Miller succeeds D. Edward Long, of Fayetteville, Franklin county, and his appointment was foreshadowed some time ago. His name was sent to the Senate at 5 o'clock and immediately confirmed. He will assume office on Tuesday, April 1.

Mr. Long was named to succeed A. Nevin Pomeroy, of Chambersburg, who got into difficulties with the Brumbaugh administration right after the speakership battle. He is an attorney and a newspaper publisher and made numerous recommendations for changes in the system of conducting State printing.

Mr. Miller's appointment foreshadows a reorganization of the department and probably changes in some of the placeholders. He was here late yesterday and was heartily congratulated. He is a close friend of Samuel S. Lewis, the York county leader whom he helped to swing the 20th congressional district into the Republican column and has served as Republican county chairman of Adams county. He is interested in the Republican historical commission in Gettysburg.

To Rush Work.—Contracts for the construction of the new squadron armory in Philadelphia and the buildings for the armories at Tyrone and Reading will be signed as soon as possible and operations commenced at an early day. The papers are being prepared at the office of

the Adjutant General to-day. The repairs at West Chester and Pottstown will also be started soon.

Much Fertilizer Used.—Seventy-six per cent. of the farmers of Pennsylvania used commercial fertilizers during 1918, according to estimates made at the Department of Agriculture, the total amount used being given as 264,530 tons, the average price being between \$26 and \$31 a ton. It is estimated that over \$11,000,000 was spent for fertilizer during the year.

To Finish Work.—Brigadier General C. T. Cresswell, commanding the Pennsylvania Reserve Militia, will start to wind up the inspections in the second regiment of infantry this week. These inspections will complete the inspections and get things ready for the summer and outdoor work.

Probe Reported.—The Baldwin resolution to provide for the appointment of a legislative commission to investigate the public school system was reported yesterday by the Senate Education committee. The same committee reported the

Eyre bills requiring the closing of one room school houses in fourth-class school districts, where the attendance is 10 or less pupils and providing for the consolidation of schools.

#### Canada Will Send Many Shoes to Europe

Ottawa, Mar. 26.—Canada will furnish shoes for Europe during the reconstruction in greater proportion to her population than any other nation in the world. This will include the finished product and raw hides.

Anticipating a tremendous demand for leather from the devastated nations of Europe at the cessation of hostilities, the Dominion government has compiled statistics to determine her resources and ability to supply the needs.

These show that Canada, at the close of 1918, had approximately 6,500,000 beef and leather cattle, and 2,750,000 milch cows—a bovine total of 9,250,000 for a total population of slightly more than 8,000,000.

"The Live Store"

"Always Reliable"

# What Kind of Clothes Will You Buy This Spring?

Will you buy the kind you want because you have found the "right store" or will you take what you can get from a store that don't have a full choice range of "dependable clothes?"—Most men have some idea about the styles but you will appreciate, knowing that most men consider this "Live Store" a style center and come here because we make it a point to be first with the newest—We get the best clothes that are made—clothes produced by real style creators—

## Hart Schaffner & Marx Kuppenheimer & Society Brand Clothes

Waist seam coats are the order of the day; specially becoming to the average young man; single and double-breasted; slash pockets are favorites; many of them have piping around the collars and pockets; some have panel backs—You'll have to see them to really know how stylish they are.

You can come to this "Live Store" and in a half hour get a suit or overcoat that fits you perfectly—You'll save money, too—Our wonderful variety includes models for every variation of the human figure: stout men, big men, slender men and short men—Don't waste time going from place to place when you have a store that carries all the best makes—Few stores are accorded this distinction but the enormous business we do makes the Doutrich account very attractive to the manufacturers—They know we are "big" operators and are glad to be associated with us.
