Blouses At \$5.00

They are delightful specimens of many noted makers' achievements for the new season. Many of them will be sold within the next three days—for values such as these seldom remain long in stock, and we are offering a 15 per cent. discount as an added incentive to buy Spring requirements.

A Collection of Blouses

is just as necessary to the correctly tailored modern woman as the air she breathes; but it must, of course, be composed of blouses that are incomparably dainty, imitatively fashioned, essentially different.

All of these qualities are found in the many new blouses shown for early Spring wear.

Among them are blouses of Georgette, exquisitely embellished with drawn-work, hand-wrought embroidery or Filet lace; blouses of crepe de chine, blouses of lingerie materials—in short, blouses for each and every occasion, and for each and every taste.

And the prices are every whit as varied—\$5.00 to \$45.00.
