

### NEW EFFORT TO BRING RUSSIANS TO PEACE TABLE

Attache of American Delegation, Back From East, Starts Rumor

Paris, March 27.—The return to Paris of one of the attaches of the American peace delegation, who has been in Petrograd and elsewhere in Bolshevik Russia, has given rise to a report that there is under consideration a renewal of the plan for bringing the Russian factions together, either directly or through the intermediation of third parties. If this is not feasible, the plan as reported is to develop clearly the exact aims and propositions of the Soviet government, so that the problem of the future relations of Central Russia with the Entente and the United States can be dealt with in the light of full information.

### Hot Curling Iron Goes—No More Broken Hair!

Every woman knows that continual use of the hot curling iron means brittle, blistered, parched, dead-looking hair with burnt, uneven ends. There's no need of anyone using that instrument of torture, now that we know what can be accomplished by the occasional application of ordinary liquid silmerine. This is not only more effective, giving the hair a fluffier and prettier curl, but tends to promote its healthy, lustre and beauty. Any druggist can supply silmerine in liquid form and a few ounces will last many weeks, so it is quite economical to use.

The approved way is to part the hair in several strands and with a clean tooth brush apply the liquid to the full length of each strand. The overnight transformation is agreeably surprising to one who has never tried this simple and harmless method.

### Girl's Pretty Foot Fails to Move Jarors

Sunbury, Pa., March 27.—A pretty girl's mangled bare foot shown to a jury in the Northumberland county court failed to cause it to bring a verdict for Miss Irene Kinsow, of Shamokin, in Northumberland county court, yesterday. She fell under a Mt. Carmel Transit Company's car last summer, and her right foot was so badly injured that she was in the Shamokin State hospital for nine months. Suit for \$30,000 was brought on the grounds that the motor-man was negligent in starting the car too quickly. The foot was shown to the jury, but it found for the defendant.

### NEW SCHEDULES, CUTTING PRICES, ARE SOON READY

Cement, Glass and Box Board Industries Make Rapid Progress

Washington, March 27.—Progress was reported by members of the Industrial Board of the Department of Commerce after conferences with representatives of the coal, cement, building hardware, box board and glass industries. It was said, however, that it was unlikely that price schedules for commodities produced by any of the five industries would be completed without further conferences.

### HARRISBURG MAY LEAD THE STATE

[Continued from First Page.] The Chamber of Commerce committee must first ascertain exactly what is needed and then proceed to lay plans to get it. Mr. McFarland says. The survey of the situation provides for the mailing of blanks to property owners for information as to vacant houses and other details that will furnish the desired statistics.

### STUDYING AMENDMENT

Letters are being sent to various officials throughout the State calling attention to an important amendment to the Woodruff teachers' salary bill which has the approval of organizations representing thousands of teachers in the State. As originally presented the act provided that the State should pay forty per cent. of the salaries of teachers and others affected, by the minimum salary clause, but as amended it provides that the school districts shall pay \$10 a month and the State the remaining portion of the salaries of all teachers, principals, supervisors and directors of special activities.

### SHIPS BRING MORE SHIPS

New York, March 27.—Fifty-nine troops, including 24 officers of Base Hospital No. 27, of Western Pennsylvania, arrived here today on the steamship Tivives, from St. Nazaire. The steamship Westboro, from Bordeaux, brought 22 casualties, including one officer and 10 men, comprising a Massachusetts casual company. Twenty-eight officers and 810 men of the 37th division arrived from Best on the cruiser Pueblo, which brought altogether 1,791 troops, including casualties for Pennsylvania. The Deep Water arrived from St. Nazaire with a casual detachment of two officers and 19 men.

### ALBANIAN CHIEF SLAIN

Rome, March 27.—Frenk Bib Doda, an influential Albanian chief, and advocate of the independence of Albania and on friendly terms with Italy, has been killed while on the way from Durazzo to Medna, according to a dispatch from Avlona.

### BOLSHEVISM IN HUNGARY DUE TO MAGYARS

Their Autocratic Rule Cause of Unrest, Says Col. Hurban

Washington, March 27.—The spread of Bolshevism in Hungary is the result of the "criminal and autocratic policy of the whole Magyar privileged classes during the last hundred years," said Colonel Vladimir S. Hurban, military attaché of the Czechoslovak legation in analyzing the growth of the Soviet movement outside the limits of Russia.

The Czechoslovak attaché said Bolshevism had become a "disease" which might attack any nation and from which a nation that had been ruled autocratically might succumb. Russia was governed with the most severity and as a result, he said, the Soviet movement started there. Hungary, he said, because of being up to the time of its surrender "by a handful of autocrats" was the next most fertile field.

### COMPLAIN AGAINST CROSSING

The first complaints to be filed before Public Service Commission against grade crossings of electric companies were entered to-day by the State Highway department, which declares them to be dangerous. Four of the crossings on the Altoona and Logan Valley system and two on the Wilkes-Barre, Dallas and Harvey's Lake system.

### Paint Without Oil

Remarkable Discovery That Cuts Down the Cost of Paint Seventy Five Per Cent.

A Free Trial Package Is Mailed to Everyone Who Writes

A. L. Rice, a prominent manufacturer of Adams, N. Y., has discovered a process of making a new kind of paint without the use of oil. He calls it Powderpaint. It comes in the form of a dry powder and all that is required is cold water to make a paint weather proof, fire proof, sanitary and durable for outside or inside painting. It is the cement principle applied to paint. It adheres to any surface, wood, stone or brick, spreads and looks like oil paint and costs about one-fourth as much.

Write to Mr. A. L. Rice, Manufacturer, 742 North Adams, N. Y., and he will send you a free trial package, also color card and full information showing you how you can save a good many dollars. Write today.

### British Labor Report Plans Many Changes

London, March 27.—The committee appointed by the Industrial conference summoned by Premier Lloyd George in February last to consider the causes of labor unrest and to inquire into the question of hours and wages, has completed its report, which will be submitted to another meeting of the conference on April 4. The committee consisted of thirty representatives of the employers and thirty representatives of the trade unions. The report contains a whole series of far-reaching recommendations for improving the conditions of the workers and the relations between employers and employees. It is said to have been unanimously adopted.

### SEEK AGED COLORED MAN

Harrisburg police have been asked by New York police officials to aid if possible in locating Milton Crews, of Roanoke, Va., an aged colored man. He is described as being about five feet seven inches in height, weighing 150 pounds, as having mixed gray hair. He left Roanoke, Va., on February 27, on the Cumberland Valley railroad to transfer here to the Pennsylvania railroad to go to New York City. He has not since been heard of.
