and Long Run

This scene shows a class of men studying Aeroplane Motor Construction

Harrisburg is overrushed with thousands craving for aviation and automobiling. They have been inquiring daily at the great Aviation Field as to the possibility of securing a ride in the aeroplanes that soar over the city. But we do not advise any one to go up in an aeroplane until they learn the working parts of it. Experts have declared that the principal thing to learn about first is the workings of the mechanical parts. Big money is made by being able to make quick repairs on the aeroplane when it is out of order. The flying is as simple as riding in an automobile. It is claimed by some of the expert flyers that they prefer flying in an aeroplane to riding in an automobile. Thousands of our young men are now learning and must learn both trades, the aeroplane and the automobile. Five years from now there will be over 100,000 operators needed. Millions of good mechanics are wanted now; this last war struggle has proved it. We have added to our school a complete training quarters for Aeroplane Mechanics, therefore making it so practical and simple that any man or woman can take it with ease. God automobile mechanics are in great demand. There are any number of them earning from §6 to \$8 a day. There are still greater over the country are crowed with work and good mechanics are sarree. Or big classes will start March 31, running day and night. There Harrisburg is overrushed with thousands craving for aviation and

scarce. Our big classes will start March 31, running day and night. There will be five instructors to start. Write to-day for application blanks and full particulars.

## **Gentlemen Meet When Lewis**

Probably one of the quickest pro-motions on record in the army has been that of Ed. Lewis, just dis-charged, a top sergeant at Camp Grant. Lewis gained the promo-tion, thanks to a display of courage the first day he entered camp.

Taking before the Thouse Siman is frant. Lewis gained the promotion of the best investments that a person can make.
