The executive committee of the Eighteenth District Association is planning a program for a convention to be held in the Augsburg Lutheran Church Tuesday afternoon and evening, April 8. DR. REED TO SPEAK "God-How Known" will be the subject of the third address in the series of Lenten talks to be delivered to-night in the assembly room of the Central Y. M. C. A. building by Dr. George Edward Reed. The general subject is "A Young Man's Difficulties in Matters of Religion."

If you are ambitious, crave success in life, want to have a healthy, vigorous body, clear skin and eyes that show no dullness, make up your mind to get a package of Bio-feren.

It costs but little and you can get an original package at any druggist anywhere.

Take two tablets after each meal and one at bedtime—seven a day for seven days—then one after meals till all are gone. Then if you don't feel twice as good, look twice as attractive and feel twice as strong as before you started, your money is waiting for you. It belongs to you, for the discoverer of Bio-feren doesn't want one penny of it unless it fulfills all claims.

Note to Physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here it is: Lecithin, Calcium, Glycerophosphate, Iron Peptonate, Manganese Peptonate, Ext. Nux Vomica, Fowd. Bentian, Phenolphthalein, Olearsin Capsicum, Kolo.—Adv.

Soft Coal Operators Will Not Discuss Prices Under Other Conditions

By Associated Press.

Washington, March 28.—Bituminous coal operators of the country through the National Coal Association announced that they would not resume conferences with the industrial board of the Department of Commerce with a view to readjusting coal prices until "the co-operation and support of the railroad administration and other government departments buying coal had been secured."

Whenever the board could assure such co-operation, the coal men said, they would be willing to continue the conference which began yesterday.

The operators, who represent approximately three-fourths of the country's bituminous production, after conferring to-day with the board adopted a resolution setting forth their attitude and issued a statement charging the railroad administration with "unfair practices which would drive the price of railroad fuel below production."

The representatives of coal industry told the board that approximately thirty per cent of the total production of bituminous coal was consumed by the railroads of the country, and accordingly the prices at which the railroad administration bought coal had direct bearing on the price to the public.

"Under these circumstances," said the statement issued by the Coal Association, "the operators consider it vital for the board and the industry to know at the outset whether or not the United States railroad administration would accept the decision of the conference as to reasonable and fair prices for coal and make its purchases of railroad fuel at those prices."

Ford's Team Will Have Stonewall Line Against Fast Hancock

The Hancock Club that appears here Saturday night to play the local Independents will bring the same line up that defeated the locals on their first trip here. The visitors have one of the best teams playing the cage game to-day.

Their defense is their best point in the cage game. Wood and Armstrong who held the local forwards almost scoreless will be with the club.

Owens, who held "Big Boss" Haggerty to a lone field goal, will jump with the local pivot man, Powell, who was a runner-up in the State League and considered one of the best floor men in the late American League, will play a forward position, with Trautwein, who has always been a favorite with the local fans.

The local team will have a hard game this Saturday night and they will have to extend themselves to annex the third game of the series with the visitors. Harry Rote, the local forward, is playing in his old time form and with Ike McCord and Haggerty as his side partners, forms one of the best combinations ever put before the local fans.

Dancing will immediately follow the game.

BURLEY TOBACCO NOT PROFITABLE

York County Growers Advise Against Planting of That Variety of Leaf

Mount Wolf, Pa., March 28.—That the growing of burley tobacco in York county, which has been agitated by a number of dealers, is not advisable, was decided at the first meeting of the executive committee of the York County Tobacco Growers' Association, held recently.

At this meeting officers to serve during the coming season were elected as follows: President, J. A. Witt, York R. D. No. 7; vice-president, Samuel H. Smith, Muddy Creek Ford, secretary; treasurer, C. H. Gross, Manchester.

A program for the year was discussed and it was decided to conduct a series of strain tests of broad leaf tobacco. Cultivators will be prevailed upon to use Slaughter seed next season. This seed can be procured at the county farm bureau's headquarters. The growing of burley tobacco is unprofitable, growers claim. Several years ago the crop had to be disposed of at a loss.

Ball Player Exposes the Iron Hand of the Magnates

Washington, March 28.—Testimony given to show that organized baseball controls the market in players through reservation clauses in contracts and thereby is in trust within the meaning of the Sherman anti-trust act, was continued yesterday in the District of Columbia Supreme Court in the damage suit of one Baltimore Federal League Club against the National and American Leagues and certain officials of the defunct Federal League. Witness appearing yesterday included a number of baseball players, most of whom were Federal League players.

George Maisel, a baseball player, sketched his professional career through the minor leagues into the major league and then back to the minors. He testified that only a few days ago a contract had been sent him by a ball club on the Pacific coast, the terms of which were not at all satisfactory. He added that, because of the rules and regulations under which organized baseball operates, he either had to accept the unsatisfactory contract or quit organized ball.
