Motorcycle News

When the annual motorcycle, bicycle and accessory show opens April second, the general public will be given an opportunity to view one of the largest paintings ever displayed in a local show window. This painting which is 7 by 14 feet was painted in water colors by B. I. Lingle, of Harrisburg, Pa. The painting is one that carries you away from the hot stuffy cities, and pulls at the heart strings of every red-blooded lover of sport with that earnest desire to get out in the open country where the fishing and hunting are the best and where the meals are real meals with bread cuts as large as your plate. There is an appeal to the bather, the motorcyclist and the bicyclist—imagine all of the quiet cool places away from the roar of the city and you will have a slight conception of this sportsman's painting.

Harvey C. Heagy, the proprietor of Heagy's Sporting Goods store is so enthused over it, that he has decided to award a "kodak" for the best name for this painting. Naming will be in the form of a contest, the best name to be selected by three prominent businessmen. Heagy's store will be open every evening during the show, when music will be rendered by Morgan's Orchestra. Decorations during the show will be very simple, yet appealing to the great outdoor life. The general public is invited to attend this showing of motorcycles and bicycles.

Almost Miraculous

On the lips of everybody is the marvelous rise of the Vette Light Six. It is only natural though when you consider—that it runs 17 miles on a gallon of gasoline—1,500 miles on a gallon of oil—6,000 miles on a set of tires—and 25,000 miles without the need of overhauling.
