Under a proclamation signed by President Wilson at Paris, effective to-day, "all persons, firms, corporations or associations engaged in importing, manufacturing, including packing, storing for distribution of fresh, canned or cured beef, pork, mutton or lamb," are released from license by the food administration.

It was stated at the food administration office that the President's action released packers from supervision of every kind exercised by the food administration, including restrictions upon margins of profit.

### INDUSTRIES ASK CHEAPER WATER RATE OF CITY

Pipe Mill and Central Iron Say No Reduction Is Made For Quantity Users

Complaints against charging big industrial plants such as the Central Iron and Steel Company and Harrisburg Pipe and Pipe Bending Company the same rates for water as householders, were made to members of City Council to-day by F. E. Hall, representing the former, and W. P. Starkey, the latter corporation.

The officials of the two plants told the commissioners that they preferred a rate for water similar to the one formerly in use in the city which provided for a lower charge when large quantities were used daily.

Mr. Hall declared that the Central company last year used 50,000,000 gallons of water, and that it would pay about one-sixth of the total consumption in the city. The Pipe bending plant used 40,000,000 gallons, Mr. Starkey said.

Cost Is Lower  
"There is a much lower cost of production for the big consumer," Mr. Hall explained. "Even from a clerical standpoint one can see that with only eight meters and one bill for a month's low water taking saved, last year the company paid about \$23,000 in water rents or practically double the amount of the previous year. We don't want the water at less than cost but I am certain that the percentage of increase in rates for the manufacturing plants is much greater than for the domestic consumer under the present system."

"We have no objection to make to the 'ready to serve' charge and are positive that it is a right thing for the city to do. In fact our engineers heartily approved of it and said that it seemed to them to be low. It is a good principle to make such a charge, however, and is very fair."

Want Quantity Pure  
Both Mr. Starkey and Mr. Hall told the commissioners that in all other business the big buyer taking large quantities gets a lower price than the small purchaser.

Mayor D. L. Keister and Commissioner E. Z. Grogan called attention to the warning given by J. W. Ledoux, the Philadelphia engineer, who prepared the present rate schedule, in which he said that many water plants were compelled to go out of business because of rates which were too low for manufacturing plants.

Mention was made of the differential rates given to large consumers by electric companies and of the plans of the Public Service Commission which may divide consumers into different classes so that equitable rates can be fixed. The question of costs of operating the city water plant, depreciation and interest charges was discussed also.

The City Commissioners took no action on the complaints which were made at an informal session.

### Bailey Calls Wilson Socialist; Party Must Repudiate Him or Tenets

Washington, April 1.—Declaring President Wilson "a Socialist" who has "prescribed the real Democrats of this country," ex-Senator Joseph W. Bailey, of Texas, has written to Leon O. Bailey, of New York, a letter in which the assertion is made that "within the next two years the Democratic party must either repudiate President Wilson or it must embrace practically all of the Socialist doctrines."

Mr. Bailey asserts that President Wilson has driven the Democratic party into a reluctant support of various socialist measures, and that before his term expires he will have committed us, unless his power in that regard is checked, irrevocably to socialism under the name "progressive Democracy."

President Miss Emily Edwards, of the Dauphin County C. E. Union, has been stirring enthusiasm among the county societies and expects a large delegation to-night.

The Rev. A. R. Steck, D. D., pastor of the First Lutheran Church, Carlisle, delivered a thrilling address before the Legislature on the subject, "The Lord's Day." He will repeat the address at the C. E. gathering to-night. Don't forget to hear him.

Men of 73rd Were Very Fond of Colonel Kemper  
The 73rd Infantry stationed at Camp Devens gave a musical comedy entitled "No Man's Land" shortly before it demobilized. The performance was dedicated to Colonel James B. Kemper, the regimental commander, now in charge of the local army recruiting station. The colonel's picture and the following dedication were printed in the handsome souvenir program:

That's what we think  
He took us when we were raw recruits,  
And he drilled us,  
And he grilled us,  
And he told us what he wanted,  
And he made us do it,  
And we're glad we did  
Because he made us real soldiers  
And better men,  
And we want him to know that  
We like him—  
We're proud of him—  
And we'll eat the head off anybody  
Who won't say with us that  
He's some boy.  
We thank you.

### CHICAGO VOTING ON MAYOR AFTER BITTER CONTEST

Independent Ballot to Be Determining Factor in the Heated Contest

Chicago, April 1.—After a campaign said to have been the most bitter in the history of the municipality, men and women are balloting for mayor and other city officers to-day. With six candidates in the field for mayor, partisan, religious and racial hatreds flamed high during the campaign, which ended last night with riotous scenes in the central districts which extra police details had difficulty in controlling at times. The candidates for mayor are:

William Hale Thompson, Republican, incumbent.  
Robert M. Sweitzer, Democrat, county clerk.  
Maclay Hoyne, Independent-Democrat, state attorney.  
John Fitzpatrick, Labor, president Chicago Federation of Labor.  
John M. Collins, Socialist.  
Adolph S. Carm, Socialist-Labor.  
The vote of the Independents is generally conceded to be the deciding factor in the balloting, and there is no means of knowing, politicians say, to just which candidate it will go.

A. T. Baker, president of the Derry Street United Brethren Society, says: "Register Derry Street with 75 delegates, 75 membership." Who will get one of the prizes? Will it be Derry Street United Brethren?

Prizes will be awarded to the societies sending the largest per cent. of their membership to the big mobilization. Societies from a distance will be recognized by the Committee on Prizes.

President Frank S. Montgomery, of the Harrisburg C. E. Union, is delighted with the good work the Endeavorers are doing at the beginning of a new term. Remember our motto: "Win Others for Christ."

## INTRODUCING Exclusive New Style Themes Fashions of the Moment

The greatest distinction apparent in The CLOOS SHOP is in their Apparel selections—not mostly duplication and lack of variety, but mostly variety and lack of duplication. An atmosphere of merchandise is no atmosphere for the modes and one cannot mix the two successfully. You don't catch the French doing it, nor should you! Fashion is a garden, merchandise is a field. One is tended, the other is tilled. You do not want a model that is sown broadcast like wheat, but the choice of many models whose lineaments are a chequered spectacle of variety.
