

BAVARIA MADE SOVIET REPUBLIC

Yesterday Was National Holiday; No Disorder Was Reported

By Associated Press.
Munich, April 8.—On behalf of the revolutionary central council of Bavaria, Herr Mekisch today addressed the following telegram to all the workmen's councils:
 "The workers of Bavaria have overcome their party divisions and united in a mighty bloc against all domination and exploitation. They have taken over in workers', soldiers' and peasants' councils entire public authority.
 "The Lantag has been dissolved and peoples' commissions have been appointed. Complete order prevails in public affairs and business and the administration is continuing.
 "Workers will be controlled by works councils, which will control workers and direct affairs jointly with the managers. Everything belongs to the community. Independent Socialization is therefore out of the question. It is the duty of the workers', peasants' and soldiers' councils everywhere to attend to the protection of the Soviet republic and its peaceful development. They will take over local authority and control of the administration and are responsible to the working people for all actions and omissions.
 "To-day is a national holiday. Work will be suspended, but the railways and food, water, lighting and heating services will continue."

Nuremberg, April 8.—The proclamation of a Soviet republic at Munich was announced in special editions of the newspapers yesterday. The people received the news calmly. Enormous crowds gathered in the streets. Work is proceeding in the factories.

How to Be Rid of Dangerous Dandruff

If you have dandruff you must get rid of it quick—it's positively dangerous and will surely ruin your hair if you don't.

Dandruffy heads mean faded, brittle, scraggly hair that finally dies and falls out—new hair will not grow—then you are hairless and nothing can help you.

IMPROVEMENTS AT MT. GREINA

General Beary Has Assistance of Col. Edward Martin in New Sanitary Camp

Engineers today began staking out the lines for the encampment of the organizations of the Pennsylvania Reserve Militia at Mt. Greina which is scheduled for midsummer and big improvements to the State encampment grounds of 2,095 acres are under way. The work is being done under the personal direction of Adjutant General Frank D. Beary after consultation with Colonel Edward Martin, State commissioner of health.

In the course of the improvements all of the chestnut trees about the parade ground, which were seriously affected by chestnut blight, are being cut down and the wood used. Much of the wood was made into telegraph poles and railroad ties and is being sold for State account together with a considerable amount of wood, while about 30,000 feet of lumber is being used on improvements. The woodlands are being cleaned of brush and the lines of trees and hedges along the railroad have been removed so that the parade ground can be seen from the trains. A large dam has been built on the water shed as an auxiliary system although the artesian wells will provide water for 20,000 men.

As soon as the lines are established permanent bathhouses will be constructed to take the place of the temporary buildings and latrines will also be constructed. This work and the sewerage system is to be handled with co-operation of Colonel Martin's force of engineers.
