Australian Navy Not an Attractive Place

Melbourne, April 8.—Australia is faced with a difficult problem in trying to man its navy. Enlistments of 1,140 men will expire next June and, according to a statement by the naval ministry, a canvass of the fleet showed that only 97 intended to remain in the service, despite the government's offer of a gratuity of \$125. TO PUT GERMANY ON PROBATION

To Become Member of League if She Lives Up to Provisions

By Associated Press. London, April 8.—"The covenant of putting the text of the covenant of League of Nations in the peace treaty that Germany is to sign, if Germany is not a party to the covenant, which she by her signature accepts, will appear in the signature act of the Westminster Gazette, "has been cleared up. By a skilful piece of draughtsmanship, the treaty, as it will appear in the signature act, is so worded that while the existence and jurisdiction of the league will be recognized by Germany, that country will not be immediately received as a member. She will, however, express her full accord in the constitution of such a body, and will agree to abide by its decisions."

German Censorship Misled Public, Says Former Krupp Head

Berlin, April 8.—(Correspondence of The Associated Press).—"Revelations of the 'stupidity and cunning' of German newspaper censorship, which for more than four years oppressed 70,000,000 people with the hope of an impossible victory, hid from them the news of Prussian defeats and at last contributed to the downfall of the Kaiser's empire. The press that had raised, are brought out here in a remarkable pamphlet said to have been inspired by Dr. Wilhelm Muehson, formerly director of the Krupp Works, whose exposure of Germany in 1918 as the real instigator of the war, sent him into voluntary exile in Switzerland."

In one school, which has been opened at the "unemployed center" in Shepherd's Bush, the girls, who had just been freed from factory work, spent their leisure time singing, whistling and throwing dishtowels across the room. They appeared at the school clad in their best finery, with rings about their necks and trinkets hanging from their ears.

which is cast to the ground must perish before the new grain can exist. It must produce before production can begin anew, and if it receives but scant attention after the first planting then reproduction becomes uncertain, for cultivation means re-creation. This store sows the seeds of Production cautiously and afterward cultivates them diligently because reproduction means life — a renewal of interest in the fruits of our labor for a widened confidence in our goods and prices. The "grains of wheat" we sow are selected zealously and jealously so that they shall produce the best that you or we could expect from them. This is so from year's end to year's end. We are cultivating constantly here.
