BUT 125 YANKEES MADE ENTIRELY BLIND IN BATTLE

Less Than 4,000 Amputations in American War Forces; Limbs For 500

By Associated Press.

Washington, April 10. — There were but 125 cases of total blindness and less than four thousand amputations in the American forces engaged in the war, it is stated to-day by the bureau of war risk insurance in an announcement concerning the bureau's activity in supplying crippled soldiers and sailors with artificial limbs and in otherwise caring for the wounded and disabled. Not even all of the 125 cases of total blindness cited, it is stated, have been declared permanent by the medical officers in charge.

Relative to amputations, denial is made, on the authority of Surgeon General Ireland and Colonel Charles E. Banks, chief medical officer of the war risk insurance, that there were any cases in which men lost both arms and both legs.

500 Get Artificial Limbs

More than 500 artificial limbs have been furnished to disabled men to date by the bureau under the provisions of the act of Congress.

"Upon being discharged from the War Department hospitals as unfit for further service, all men disabled as a result of injury or disease suffered in line of duty are entitled to the benefits of the war risk insurance act," the statement says.

"If their condition demands further treatment they are entitled to medical attention in one of a large number of hospitals now being established throughout the country, to be operated by the public health service. If a man is disabled but his condition needs no further medical attention, he may secure from the bureau of war risk insurance a monthly compensation.

"Medical experts of the bureau make examinations of all who apply for compensation and rate their physical condition, present and potential, and determine the percentage of handicap which each suffers as a wage earner as a result of disability. The rating given is carefully considered in fixing the compensation which will be paid monthly to the man and his dependants."

Boy Robber Spends $800 and Gaily Films Broadway

New York, April 10.—After spending $800 less 40 cents in "seeing New York," John Paplyk, 16 years old, of Cleveland, appeared before Magistrate Ten Eyck to-day as a fugitive from justice. Before starting out to visit New York to become an actor John had been a telegraph messenger. He was arrested while negotiating for the purchase of a racing automobile.

Detectives told the magistrate the boy went to the cashier's window of the Ruthenian Building Loan Association in Cleveland, March 30, seized a bundle of checks totaling $15,000 and $800 in cash and fled. Accompanied by a friend, said by the police to be Walter Kosinski, 16, John set out for New York.

Paplyk invested $200 in a moving-picture camera and spent days filming Broadway and Fifth avenue. Yesterday the bankroll had shrunk to 40 cents, and John decided to buy an automobile. When he offered a Ruthenian Association check for a racer, the salesman called in the detectives.

Forty-Eight-Hour Week For New York Silk Mills

By Associated Press.

Washington, April 10.—The War Labor Board decided unanimously for the adoption of a forty-eight-hour week for the silk mills in the metropolitan or New York district. Nearly 110,000 workers in 486 mills are affected by the decision.

SALARY BOARD TO RULE RAISES

No Use Passing Salary Raisers For Capitol Hill Attaches

Word has gone out from the executive offices at the Capitol that it is not much worth while passing the various bills now pending in the Legislature, mainly in the lower House, for increases of salaries at the various departments. The idea is to have the proposed State Salary Board take care of all such matters as readjustments of salaries. The board would be composed of the Governor, Attorney General, Auditor General and State Treasurer and would have authority to review all salaries and increases where it is desirable, so that situations which prevailed during the war and at other times where men receiving low salaries fixed by law, left State service to enter business.

A number of bills have been occupying attention in the House for increases of pay for various grades of attaches of the Department of Public Grounds and Buildings, inspectors of the Department of Labor and Industry and other branches. These bills will probably not go much farther.

New Patent Bill—Considerable interest is being shown by legislators from counties bordering on the Susquehanna river in a bill presented to the Senate by Senator Augustus F. Daix, Jr., Philadelphia, which provides an amendment to the act of 1913, and stipulates that when, as a result of operations by the United States Government, the course of a stream is altered and parts of the former bed become unnecessary to be classed as the stream proper, these portions can be declare abandoned and subject to patenting.

Ruling on Insurance—Automobiles owned by the State Highway Department are insured in the State's own fire insurance fund, and it would not be lawful for the department or any one else to insure them on behalf of the State any other way, according to an opinion given by Deputy Attorney General Emerson Collins to Auditor General Charles A. Snyder to-day. In the same opinion he holds that insurance against theft of State cars is not provided by the State's own insurance fund, but must be carried outside. This decision will affect a number of automobiles, as the number owned by the State and used by men connected with the departments is increasing.

Want Early Work—Numerous requests for early work on improvement of State highways throughout the State, including repairs and changes, were made yesterday afternoon to State Highway Commissioner Lewis S. Sadler and assurance given that things would be handled promptly. The requests were made for work to be started on Northumberland, Lehigh, Dauphin, Bedford, Somerset and other roads. The Bedford proposition was brought up by Senator John S. Miller and Simon H. Sell and A. G. Fowler, the latter two of Evitt's Creek, who also said that stone would be furnished free for an improvement by quarry owners. This delegation suggested a change in line of the road from Bedford to the Maryland line in vicinity of Patience. To this delegation, as to Washington county legislators who asked a change in route of the road from Washington to Waynesboro, the Commissioner said that changes were matters for the Legislature and the Governor. Surveys will be made where necessary to ascertain conditions. Senator H. W. Schantz, of Lehigh, asked for work on roads between Emaus and Allentown and near Slatington, the latter being in the second year program.

Suffragists meet.—According to reports coming here from the meeting of the State suffragists association at Philadelphia yesterday the members are confident that the amendment is going through. Delegations will be here after the recess to push the amendment which is on the House second reading calendar.

Fought Warden.—Fish Warden W. E. Shoemaker was attacked by an illegal fisher with an ax while attempting to make an arrest in Wyoming county. He landed the man in jail and then sent a report.

Governor Better.—Governor Sproul is improving rapidly at Virginia Hot Springs because he is being kept free from official cares. He is taking absolute rest and on orders from his physician no Harrisburg matters are presented to him.

Zimmerman Speaks.—W. R. Zimmerman, assistant school superintendent of Dauphin county, was the speaker at the meeting of Philadelphia teachers to-day. He explained the bill which had been drafted to meet the situation in regard to salaries.

Hearing on Charter.—The Senate municipal affairs committee to-day began the hearing on the Philadelphia charter bills, the membership of the committee leaving last night for the Quaker City. To-night the Senators will attend the debate between George Wharton Pepper and Senator Gilbert M. Hitchcock.

Camp Hill Methodist Church to Give Musicale

The Methodist Church at Camp Hill will be the scene of a musical Friday evening at 8 o'clock when a delightful program will be presented. The musicale will be opened with a selection by an orchestra. Miss Margaret Harrison will give a reading; Miss Mary Tripner will sing a solo; and a duet will be given by Miss Hartman and Miss Slothour, to be followed by a reading by Miss Condrun. Miss Anna Folk will sing, Mr. Straka will render a solo, and Mrs. W. A. Tripner and Misses Mary and Virginia Tripner will present a trio, to be followed by a reading by Mrs. E. O. Pardoe. Miss Dorothy Folk will render a solo and Mr. Hartzell will render a piano solo. Miss Margaret Musser will sing, Miss Anne H. Beatty will render a solo, and a duet will be given by Miss Folk and Mr. Hartzell. The program will be closed by a reading given by Mrs. G. O. Pardoe and the singing of the class song.

President Out in Limosine First Since His Illness

Paris, April 10.—President Wilson left the "White House" after the meeting of the Council of Four for the first time since his illness.

With Rear Admiral Cary Grayson, his personal physician, he motored about town in a limousine.

Water Companies Must Give Service

Water companies which fail to carry out orders of the Public Service Commission and which do not show evidence or desire to improve their service are going to have fights to hold their charter if some plans under discussion at the Capitol are carried out. Several companies, which have shown reluctance to obey Public Service orders and whose service has been a source of considerable litigation may be called upon to defend their charters.

Not long ago steps were taken in the Dauphin county court to revoke charters of a dozen water companies which had not exercised their privileges at all and the list is being gone over again.

The State Department of Mines now on the mezzanine floor of the north wing of the Capitol, will remove in a few days to the Trustee building on Market Square, where a floor has been leased by the State. The quarters of the department will be occupied by the accounting and purchasing divisions of the State Department of Health about to be removed from Philadelphia under the administration plan of concentrating the offices of the State Government in Harrisburg. Thirty people will be affected. Col. Edward Martin, Health Commissioner of Health, to-day took the suite of the sanitary engineering division which has removed to the old Star Independent building, while Major John D. McLean, assistant commissioner, took the offices of State Registrar W. R. Batt, who moved to new offices on the first floor of the north wing.

The supervisors of West Chillisquaque township, Northumberland county, to-day entered complaint before the Public Service Commission against the grade crossing near East Lewisburg. Several other complaints have been filed against crossings in that end of Northumberland county.

Governor Sproul to-day issued requisition for the return to Philadelphia from Atlantic City of Antony Zangle and Peter Murio, charged with murder.

From all accounts the appointment of Dr. C. B. Connelley, of Pittsburgh, to be Acting Commissioner of Labor and Industry, will not be delayed much beyond the legislative recess. He will succeed Walter McNichols, of Scranton, who will remain for the present as a supervising inspector.

Storm Demoralizes Train Service in Colorado; Snow Falls to Depth of 6 Inches

By Associated Press.

Denver, Colo., April 10.—Railroad and telegraph companies to-day were recovering from the effects of the snow and sleet storm which swept the Southern Rock Mountain region Tuesday and Wednesday. Trains had been tied up by snow blockades in Western Texas and New Mexico, were reported moving, but far behind schedule. Because of the demoralized wire conditions, the railroads were unable to give definite reports on the delays to trains other than that they were from one and a half to ten hours late.

The storm which extended south as far as Mexico, was especially severe in New Mexico, where the snowfall varied from six to ten inches. Livestock losses, except in the Kansas Valley, where sheep raisers were reported to have suffered heavily, were said to be light.

YOU HAVE A MISERABLE COLD!

Won't take long for Dr. King's New Discovery to relieve it

Chills, hot flushes, weepy eyes and nose, a cough steadily growing more persistent, phlegm-clogged chest, heavy head—those conditions are quickly and pleasantly corrected with Dr. King's New Discovery.

Cold, and coughs, most bronchial troubles soon submit to this fifty-year-old standby. Grownups and children both like it. Promotes comfort and rest.

Get this relief from "cold" misery. Buy a bottle while you think of it. All druggists.

Make Your Bowels Grateful

Help them to function as they ought to. Aid them occasionally with Dr. King's New Life Pills. Cleanse the system of undermining impurities. Mild in action, reliable and comfortable. Your druggist has them.

RADWAY'S READY RELIEF

Will Do the Work of a Mustard Plaster—No Muss—More Convenient

At the first symptoms of an attack of

INFLUENZA

saturate a flannel cloth in Radway's Ready Relief and lay over the congested part of the lungs or back. As a counter irritant Radway's Ready Relief is much stronger, more convenient and cleaner than the old-fashioned mustard plaster. Use also in the same manner for sore throat, coughs and colds and all irritations of the throat and lungs.

CAN BE HAD AT ALL DRUGGISTS—and no raise in price—25c, 50c.

A NEW 25c SIZE on the market. Ask for it. Accept no substitute.

Radway's Ready Relief

FOR EXTERNAL AND INTERNAL PAIN

70 years tried and true. For family use.

Eye Comfort

Do you tax your eyes during business hours so that you find yourself unable to really enjoy an evening with book or paper—your eyes being too tired? Properly fitted reading glasses will enable you to increase your enjoyment of reading, and your efficiency at work. We delight in doing good to tired eyes.

Get New Proposal For Settlement of N. Y. Harbor Strike

By Associated Press.

New York, April 10.—Officials of the Marine Workers' Affiliation announced that the affiliation strike committee would meet a committee representing the Boat Owners' Association to-day for the purpose of receiving a new proposal for settlement of the harbor strike, which was described as the "best yet."

The offer, it was said, includes a fifteen per cent. wage increase and a reduction of the working day to ten hours. The most favorable previous offer was for a ten-hour day and a ten per cent. wage increase.

Dr. Da Costa Is Summoned to Paris

By Associated Press.

Philadelphia, April 10.—Dr. J. Chalmers Da Costa, of the Jefferson Medical College, and an officer in the navy, received orders from Washington last night to sail for Europe on the steamship George Washington, which is expected to leave New York on Friday for Brest. It could not be learned here last night the nature of Dr. Da Costa's mission, but it was not believed at Jefferson College that he had been summoned to Paris on account of President Wilson's illness.

ORRINE Will Prepare Him for "Bone Dry" Restrictions!

YOU give it to him *secretly*—in his food or beverages—and his appetite for intoxicants disappears, his nerves become strong, the drink *disease* is quickly and successfully *treated.*

Drink *is* a disease—one that must be treated and driven from the system. To delay going after it until Prohibition comes is *dangerous*—he may look for a destructive *substitute*—become a *drug addict!* Think how terrible that would be! *Don't delay beginning this safe, effective, Secret Home Treatment!* He will be grateful when he learns of it. Long before July 1st he will be his old self—healthy, industrous, a respected, worth-while citizen.

ORRINE comes in two forms—No. 1, Powder, for Secret Home Treatment. No. 2, Pills, for Voluntary Treatment. Price, either form, $1.25 a package, 4 packages, $5.00. All druggists. Every package *guaranteed* to produce results or money back without protest. Mailed postpaid, in plain, sealed envelope.

For Sale by Geo. A. Gorgas & Leading Druggists.

Anthracite Coal

A Good Investment

The coal operators have issued their price circular which calls for an advance of 10c per ton each month from May 1 to September 1 (inclusive).

The man who has money to invest in coal has a perfectly safe investment and a good return (about 10 per cent.) on the money which he will employ in buying coal at the low price, and keeping it until needed in the fall.

Coal is one of the safest possible investments. Its earning is absolutely sure. It can be put into your house; will not fire on the pile; will not lose any of its value by summer storage and will be worth good gold dollars next fall—even more than it is to-day.

Anthracite Coal is therefore a perfectly safe investment for the man of wealth as well as the small consumer.

Aside from the saving in price, anthracite coal is much better quality when mined, shipped and delivered during the warm spring and summer months.

Phone us to-day, we take good care of telephone business. We operate coal yards on the P. R. R. and P. & R. R. R., thus permitting us to handle a large stock, also many varieties.
