### Motion For New Trial in Bushman Murder Argued

Gettysburg, Pa., April 10.—Argument on the motion for a new trial in the case of Clarence R. Collins, convicted at the January court of the murder in the first degree of J. Bushman on the night of October 1, last, was held before the judges of the Adams county court to-day. At the time Collins was found guilty, George J. Benner, his attorney, offered a number of reasons in making the motion for a new trial.

Great stress is laid on the question of jurisdiction, the crime having been proved as occurring in Cumberland county, and the constitutionality of the law allowing trial of a crime to be in either county where the crime was committed while the parties were traveling and were within a certain distance of the boundary line of the two counties.

District Attorney Raymond F. Topper and J. Donald Swope, for the Commonwealth, and George J. Benner with John D. Keith and William Hersh, as consulting counsel, for the defendant, were the attorneys in the case.

**Uniform Tires Mean Long-Distance Millers**  
They Look Alike and Wear Alike  
MILLER TIRES are built by men who are trained to a championship standard. Only by uniform workmanship, can tires ever be uniform in mileage like the Miller. To train men to our perfection takes much time. We cannot supply all dealers with Miller Tires.  
So our policy is to concentrate, as a rule, on the dealer in each locality who will give Miller Tire users exceptional attention. That governed our choice in this city.  
We chose a concern that knows that to give real service it must first of all carry a full stock of sizes, so that when you want a Miller Tire in a hurry, you can get it without waiting.  
We are impressed especially with their ability to give motorists an expert repair service, and by their reasonable charges.  
Before making this selection we canvassed the local field thoroughly. And the Miller agents here are making good with us by making good with you. Are you getting the benefit of what they have to offer?
