"When a Girl Marries"

A New, Romantic Serial Dealing With the Absorbing Problems of a Girl Wife

CHAPTER CLXVI.

Hardly had Virginia departed, leaving me the difficult commission of trying to persuade Phoebe to be a simple little girl instead of a gay young society woman, when Jim phoned.

"Annie!" he exclaimed, with an air of breathless hurry. "Will you staff a few duds into a bag and send them down to the station by messenger? Cosy wants to chase across the river to meet a couple of the big fruit men from the Coast. He asked me as a favor to come along."

An inspiration came to me then, and because of it, I acquiesced so amiably that I could hear Jim gasp as he went on:

"Can't be back till to-morrow. Do you mind being alone?"

"Don't worry about me," I answered. "I wouldn't particularly mind being alone, but I think I'll ask Jeanie or Phoebe to come over and stay."

"Ask 'em both. And take 'em to a show if you like. Call Drysen and get decent seats while you're about it. I'll ring you up first thing when I get back. You're a good sport, Anne. So long."

At once I executed Jim's commands. Then I called Virginia's apartment and asked for Phoebe, and when her voice came to me over the wire, plunged right into the midst of my plan.

"It's Anne, Phoebe. I'm homesick for you. It's months since we had a good talk. Are you ready for a reunion?"

"Of course," replied Phoebe with indifferent politeness.

ry a rabbit's foot on my watch chain, and a four-leaf clover in my watch and under my coat lapel reposes a pin I once found held toward me. So you can't lure me to Chinatown after peacock feathers. But if that pretty little Toy Yen is going to dance again—I should think any properly jealous blonde would try to lure us away."

Every one laughed as if Tom were being tremendously clever. And I, who knew just how clever he had been to defeat Evvy's malice, forced a quavering little smile.

"Want your chicken chow mein and a dance or two to give you the appetite for it, baby?" asked Sheldon, his voice a little fussy as he leaned toward Phoebe.

"The waltzes are mine!" challenged Dick West, also leaning across toward Phoebe.

As we got up to go, Evvy came and slipped her arm through mine. "I didn't realize what I was doing when I almost gave away that you were the girl to whom Tommy was making presents of wonderful blue robes. Forgive me, Anne?" she purred.

"It doesn't matter," I replied with far more indifference than I felt. "I'm glad," acquiesced Evvy with an air of understanding. "Isn't it amusing what a little flirt our Baby is turning into? Dicky and Shelly are quite mad about her. She puts my nose out of joint, but I love her for all that. And I do try to keep an eye on her. You believe that, don't you, Princess Anne?"

"Oh, yes," I replied dryly. "Then Evvy made the final overplay of her weak hand: 'You know we have to keep her from being too lonesome while that sweet brother of your's is away. By the way, isn't Neal due back pretty soon?'"

To Be Continued.

LITTLE TALKS BY BEATRICE FAIRFAX

Don't, as you value your peace of mind, arouse slumbering romantic possibilities on the part of "Himself" Irish for the head of the house—by silly, unfounded jealousy.

The average man, in the role of pater familias, paints a portrait of himself and hangs it in the chamber of his inner consciousness. The portrait is that of a comfortable law-abiding citizen, fond of his wife, his children, his case, boasting a hobby or two, perhaps, and as entirely done with romance as a white flannel he wore the summer he graduated from high school.

All said and done, Pater Familias is rather attached to his portrait, he likes to see himself upholding the best traditions of the country—and his wife, children and home as the accessories to the benevolent figure in the foreground.

It will have to be something pretty overwhelming to make Pater destroy his masterpiece and hang in its place a less flattering picture.

So whatever you do, do not destroy your good man's belief in his portrait; make him feel that not only the family society, but the State itself rests on such foundation—as indeed it does.

Pater Familias' belief in himself as a settled married man, done with romance and philanthropy, must not be disturbed. Let it be assumed that these things are as inevitable as death and taxes, don't joke about the head of the house in the role of Lothario, for men have a way of feeling that as long as they have the name, they might as well have the game too.

And if Pater Familias ever takes it into his head to replace the staid, highly respectable portrait of himself that adorns the chamber of his inner consciousness by one of those dashing, poster effects, depicting a middle aged charmer, suave, subtle and irresistible, then prepare to definitely abandon your peace of mind.

For middle-aged men, once they

hence his impassioned speech to a brand new audience.

Furthermore, the continued worshipping about Pater and his possible romantic upheavals convinces him that he is still a devil of a fellow, and inspires him to try out these qualities with which his wife so generously endows him. He invests in clothes of a more youthful cut, his socks, ties, and, not infrequently a flower in his button hole, proclaim the new faith in his powers to fascinate.

He May Meet a Woman

Father, thus apparelled, may flash across the horizon of a woman who has just dropped a dollar at the fortune teller, and who may be on the sly hunt for the dark gentleman turning a bit gay "that means the love of your life, ma'am."

Anything, indeed, may happen to Pater if you persist in raising these mad fancies in his consciousness regarding his fascinations and the power he has over women. Especially if he begins to dramatize his belief in these things with new suits, socks, ties and a straw hat with a colored ribbon. Rename Pater a Lothario and he will set up the properties, regardless of the expense.

Akin to the folly of inspiring him with a belief in his almost demonic powers of fascination, is the folly of watching every breath he draws, making him prove an alibi for every hour, opening his letters and demanding a strict accounting of everyone who calls up on the telephone.

You are only biting Pater Familias' wits against yours, the whole sorry business becomes a game in which each plays to win. A jealous woman ignores one of the great basic laws of human nature, and that is, we all hunger and thirst after forbidden fruit.

You have only to look about you, and see the extent to which temperate men are making provision against the coming national drought, to realize the truth of this. We never think of walking on the grass till the policeman puts up the sign. Nor is there any way of preventing a tongue to philander, on the part of the husband, no sure and effective as for a wife to accept, as natural and normal, his little enthusiasms about agreeable women.

Advice to the Lovelorn

He Gave Her His Picture

DEAR MISS FAIRFAX: I am a business girl, and like a young man who works in the same office with me very much. Recently he gave me one of his pictures. Was it proper for me to accept this, and to offer him mine in return, as he asked for it? Would like to know whether to go out with him or not, in the event of his asking me, as I think our acquaintances should be strictly businesslike.

ONE WHO WAITS

As long as you took the young man's picture, it would be quite proper for you to go out with him in case he asked you. I believe it would be wiser to wait until the friendship develops a little further

After you give him your photograph.

Resident Has Awful Experience

"I was twice confined in hospitals, in the last one nothing but distilled water was injected into me 4 times a day, as my stomach would not retain any food. I suffered terribly; was reduced to a skeleton. My folks saw an ad of Famo's Scalp Remedy and it has surely saved my life. I weigh 180 lbs. now." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and stops the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Geo. A. Goras, 111 Kennedy and Clark's drug store.

Famo Dissolves Dandruff Scale and Destroys Bacilli

After the first application of Famo, you should not have a flake of dandruff. If the case is stubborn, a little may remain, but not for long. The germ will be dead and dying—the new growth begun. Your hair will be like the hair of healthy children; your scalp like a baby's scalp. All itching will be gone every day.

Famo Will Win Fight
If it is falling out, your hair is fighting for its life. Famo will win that fight by killing the bacilli which kill the hair. Dandruff is a disease which scientists call Seborrhea. Freed from the bondage of that disease by Famo, the hair leaps into luxuriant new growth.

Healthy, Beautiful Hair
It is, we repeat, like renewing the youth of the scalp—giving back to your hair its early strength and beauty. Famo will keep the head continuously clean—the hair fresh, full of life, soft, smooth and glossy.

If your hair ever had a natural tendency to wave, Famo will bring back the waviness and intensify it.
