

GENERAL STRIKE IN LIMERICK, NO DISORDERS

Gas and Electric Supplies Shut Off; Mills and Stores Closed

Limerick, Ireland, April 15.—This city awoke yesterday to find itself in the throes of a general strike called by the trades unions as a protest against martial law which has gone into effect in the Limerick military area. The gas and electric supplies were cut off at 2 o'clock in the morning and no factories or stores opened, even the drugstores having their blinds drawn.

Food supplies have ceased coming into the city as the farmers refuse to take out military permits to enter Limerick.

There have been no disorders, but several processions were cheered loudly when they marched through the streets. The military area has been extended to include the district north of the river Shannon.

It was reported that the railwaymen had given notice that they would strike in forty-eight hours unless the order for martial law was rescinded. A railway strike would isolate the city.

Dublin, April 15.—With reference to the strike at Limerick the government has issued a statement that the proclamation of Limerick as a military area has not interfered with the people of Limerick getting supplies in the ordinary way. It adds that if the people are prevented from obtaining supplies by the action of indisposed persons the government is not responsible for this and can do nothing to ameliorate the consequences.

DOCTORS HAND OUT LIVE TIPS Take Public Into Confidence

Prominent physicians claim people fall in life because of "nerve hunger" that it is the active bright-eyed, strong nerved man or woman who is "there" at work or play.

Strong, well nourished nerves is the great secret of success, health and happiness.

Men and women try to live regardless of health, strength, ambition, energy and hope, they exceed the speed limits, wasting nerve strength and energy and fall to store up reserve force, afterwards they only no.

Without energy, ambition, strong nerves, and pure blood one cannot hope to enjoy the fullest measure of success and happiness.

A noted specialist says, "Phosphated Iron brings strength to the blood, nerves and brain, that it is a perfect combination of vital elements of great tonic qualities when taken by 'Nerve-sick humans', that it will increase body and nerve energy, restore ambition and staying powers."

He also says: "If you are the victim of overwork, worry, excess of mental and physical forces, the blues, and the pleasures of life are no longer enjoyable, that you need Phosphated Iron to brace, build you up and put you on your feet again."

Special Notice—To insure physicians and their patients getting the genuine Phosphated Iron we put up in capsules only, so do not allow dealers to substitute any pills or tablets.

Vigorous Men and Women Are in Demand

Wendell's Ambition Pills, the great nerve tonic, are splendid for that tired feeling, nervous troubles, poor blood, headaches, neuritis, restlessness, trembling, nervous prostration, mental depression, loss of appetite, and kidney or liver complaints; you take them with this understanding, that:

In two days you will feel better. In a week you will feel fine, and after taking one box you will have your old-time confidence and ambition or the druggist will refund the price of the box. Be sure and get a 50 cent box today and get out of the rut. Remember dealers everywhere are authorized to guarantee them.

"CLEAN UP DAY" URGED IN STATE

State Fire Marshal Butz Calls For General Renovation Early in May

Every town in Pennsylvania is called upon by Fire Marshal Howard E. Butz to establish a "clean up day" early in the coming month to reduce the fire hazard which is declared to have increased alarmingly in certain localities.

The marshal says that hazards are causing heavy taxes to communities already burdened and that co-operation of municipalities, newspapers, ministers, civic organizations and others can bring about a material change.

Education, says Mr. Butz will bring about a realization of what conditions now prevail and fire prevention can be developed just as has fire fighting. He suggests that leisure time be devoted to safeguarding property by removing dangers and that thorough inspection followed by cleaning orders should be the rule in every building.

The marshal makes a special plea in view of the expansion of building which is about to start since the close of the war period that the close attention be given fire prevention in all construction work.

Drafting Bills—Dozens of drafts of bills are being sent to the State Legislative Reference Bureau for preparation for introduction to the Legislature when it reconvenes next Monday night. A number of them were received at the close of the week from members who had gone home and several measures are now in course of preparation for commissions and hospitals.

The number being put into legal form for members is larger than usual. Virtually all of the appropriation bills are in hands.

The last of the administration bills are being gone over at the Attorney General's office. They were to have been presented last week but changes were found necessary and the bills are being re-drafted.

Out For Opening—Opening of the trout season found a number of State officials and others connected with the State government away whipping the streams. From reports received here there were many fishermen out for the first day in spite of weather conditions. State fishery officials were optimistic regarding the prospects.

Many Jobs Found For Soldiers by State Bureau

More positions vacant than applicants listed, Jacob Lightner, director of the State Employment Bureau in the Harrisburg district, reported. Orders for eighty men were received yesterday from various plants in the city and vicinity, most of the places being filled, but there are still some vacancies.

Every effort is being made to place all the men listed for positions now so that when the Twenty-ninth Division, composed of Pennsylvania boys, return, there will be no other waiting lists and their applications will be handled, as it is expected a number of them will be without places.

Mr. Lightner said that employers should list every position that is open, regardless of its nature. Now and then it is found that plant officials have not reported vacancies in certain skilled positions because of shortages of men who can fill them.
