

### German Prisoners Accuse Bolsheviks of Being Brutes

Saloniki, April 18.—A large number of German officers and soldiers captured in Southern Russia by the allied armies have been brought to Saloniki. They express admiration for the heroism with which the Greek troops fought against the Bolsheviks, whom they term brutes and who, they declare, without any excuse whatsoever, committed terrible atrocities.

## I Blame the Woman Who Lets a Man Drink Says Druggist Brown

Of Cleveland, He Guarantees a Simple Home Treatment Given Without the Knowledge of the Drinker

Cleveland, O.—No wife has a right to let her husband drink; for alcoholism is a disease and a drunkard is a sick man, says Druggist Brown of Cleveland. A woman can cure that disease—stop a drinking husband in a few weeks for half what he would spend on liquor in the same time. The habit can be broken and the disease cured. Thousands of cases prove it and every community has its reformed drunkard. Druggist Brown says the right time to stop the drink habit is at its beginning. Left to run its course, it will deaden the fine sensibilities of the man you love. Begin with the first whiff of liquor on his breath, but do not despair if he has already gone from bad to worse until he has become a rum-soaked sot. Druggist Brown knows the cause of strong drink for he himself has been a victim. A loving sister without his knowledge or consent rescued him from the brink of a drunkard's grave and for ten years kept her secret. She saved him from drink—

### Plan to Combat Maximalist Outbreak

Buenos Aires, April 18.—Young Argentineans, including the members of the "January White Guard," are organizing and arming to combat the Maximalist demonstration being prepared for May 1. Two thousand are already under arms and declare their determination to deal vigorously with the expected outbreak. The regular army is now composed of new conscripts who have been under the colors less than two months.

If the demonstration in Buenos Aires assumes a revolutionary character, it is expected to be counterbalanced in the interior, where the Maximalist agitation has not yet reached a stage of importance. It is rumored that the demonstrations of May 1 will probably serve to cover important political changes.

## NATIONS LEAGUE DRAFT GETS HIGH PLACE IN TREATY

Final Document Being Prepared For the German Delegates

Paris, April 18.—The drafting of the final form of the peace treaty is proceeding rapidly in order to have it ready for presentation to the German delegates when they arrive at Versailles a week hence. The document, as framed, begins with an introduction in the form of a protocol, setting forth the complete list of belligerent powers taking part in the war and now making peace with the designation of plenipotentiaries of each country and with their power to sign.

Then comes a declaration, of impressive brevity not exceeding thirty words, stating that on the conclusion of the treaty and the exchange of ratifications, the war shall come to an end.

**Gets Honor Place**  
Following upon the declaration of peace the present intention of the peace delegates is to have the covenant of the League of Nations occupy the place of honor in the treaty and to be the first subject treated in detail. It will thus take the priority it has in the program of the peace conference.

Then, in succession, will follow the military, naval and aerial terms, responsibilities, the Rhine frontier, the Sarre region, Alsace Lorraine, Poland, the status of Danzig as an international port, Germany's Schleswig-Holstein frontier and a large number of special subjects.

The textual form of all these subdivisions has been completed, so that the work at present going on is chiefly fitting together the parts into a homogenous whole. This is being done by international experts representing the five great powers. Their work is largely formal, as the Council of Four and the commissions have adopted the language of the various parts now being fitted together.

It is estimated that the treaty as a whole will exceed seventy thousand words, or the contents of a large closely printed volume. The text is being prepared in French and English, and, as a means of expediting action, a German text may be prepared, though it is foreseen that the German plenipotentiaries may

ask for a considerable time on a document of such magnitude.

### New York Rotary to Purchase \$50,750,000 of Victory Loan Bonds

New York, April 18.—Members of the Rotary Club pledged themselves at a luncheon yesterday to buy \$50,750,000 of Victory loan bonds. Enthusiasm for the loan was roused by addresses by Major General Butts, who led the first American brigade to the fighting line in France, and former Senator Theodore E. Burton, of Ohio.

## 2,500 "Y" GIRLS ARE OVER THERE

Girls' Colleges Have "Y" Contingents in France Entertaining the Boys

Paris.—More than 1,200 American women in the uniform of the Y. M. C. A. have come to France since the signing of the armistice to fill the lonely, idle hours of America's warriors over here, whose idea of the superlative Nothing to Do is to have an army job when there's no war.

Home is the only thing the bored and homesick American soldiers in Europe want to-day, and since many of them can't get it for some time to come, the Y. M. C. A. is bringing home to them, in the presence of about 2,500 American girls, double the number that were here during hostilities. The doughboy has asked for more and still more, and when the doughboy asks for something, the "Y" regards the request as an official order and gets it for him. Consequently, the "Y" girls who are so much in demand with the American expeditionary force, are being

rushed as fast as possible to the "scene of inaction," and every boat brings a load of them. More than 300 a month are being landed now.

The girls are assigned to twenty-six leave areas, three debarkation ports, huts and hotels in Paris, and to various divisions of the army of occupation. Over 100 of the new contingent are clerks in the business department, but the rest are here just to be good friends to the A. E. F. They sing to the men, dance with them, give parties for them, make candy for them, sew on their buttons, listen to their love stories, or their war tales, and in general keep them so busy "and interested" that they forget to "miss the war," as they complained they did when the truce was first called. Now that the post exchanges have been assumed by the army, the job of "tending store" is taken off the shoulders of the workers, and the girls have still more time to play the gracious hostess to their unformed guests.

Y. M. C. A. huts and hotels over here.

Seventy-seven "Y" girls are in Paris, distributed among eighteen centers, where 10,000 soldiers and sailors gather every day. Brest and Dijon have important centers, and Grimsy, Clichy, Versailles and Orley are busy places for the Y. M. C. A. Keeping up with the A. E. F. is also a strenuous job, for wherever the soldiers go in Germany the "Y" tries to be there first, with an emergency hut set up and "Welcome" on the mat in the form of cocoa, a piano, books and, best of all, girls.

Most of the girls in the ranks of the Y. M. C. A. are college girls, junior league girls and social workers. Many of them have come in college units, such as Smith, Barnard, Welles, Wellesley, Newcomb and Vassar. The units are not kept intact, however, when assignments are made. Every girl is chosen for her post according to her particular ability, for every group must have as many talents and trades as possible, in order to meet the needs of all kinds of men. There is only one talent that all "Y" girls must share in common—that's a limitless capacity for good time, for good times the soldier must have and the "Y" girl is the one to give it to him.

### Predicts Difficult Traffic Problems of New York in 1950

New York, April 18.—Traffic problems of New York in 1950 were pictured in a prediction made last night by F. J. H. Kracke, public service commissioner, who declared that if the present rate of growth is maintained the population of the city then will be 12,556,186 and that its transportation lines will be called upon to carry more than 8,000,000,000 persons annually. To care for this growth, Mr. Kracke declared, the present transit facilities must be multiplied by four.
