WILSON ASKS AMERICANS TO BUY BONDS

Washington, April 21.—President Wilson has cabled this message to the American people: "For two anxious years the American people have striven to fulfill the task of saving our civilization."

"Drinking to the contest a strength of spirit made doubly strong by the righteousness of their cause, they devoted themselves unwaveringly to the prosecution of their undertaking."

"To-day the world stands freed from the threat of militarism, and we are again united in the spirit and the labor of peaceful nations."

"Two years ago we pledged our hearts and fortunes to the cause for which we have fought. Sixty thousand of our strongest sons have redeemed for us that pledge of blood."

"That will be a beautiful structure and will add immensely to the general plan for improvement of Capitol Park. The whole plan is excellent and it will add very much to the Capitol."

"I understand it is to be in honor of the Pennsylvanians in the war. It is an excellent idea."

"Harrisburg has improved very much in the last thirty years," went on the Senator, "and if it continues it will be before many years one of the most beautiful cities in the country."

"I am very much pleased with the wonderful program for improvement of the highways of Pennsylvania and I don't think Governor Sprout could have chosen a better executive head for the department than Lewis S. Sadler," remarked the Senator after his visit.

"To my mind he is the ideal man for the occasion. I am satisfied the improvement we are making will command the attention of the whole country very soon. It is also a matter of gratification that we are to get adequate legislation regulating automobile traffic and I hope that the bill will pass soon."

The Senator said that "probably people could stand a very little more" when his attention was called to the fact that the bill proposed to increase registration tax.

An interview with Senator Penrose relating to important legislation appears on page 11.

Five building permits issued for new work. Five building permits were issued to-day, two for the erection of four two-story brick houses, one for the construction of a brick garage and two others for alterations and additions to properties.

By Associated Press. Berlin, April 21.—Every German city and town which had its own garrison, of which it has been proud for decades, has been officially notified by the National Assembly, that it has been decided to disband the German army.

The official notification, while referring to the creation of a new army in the future, says its strength is entirely unknown at present and declares that it recognizes towns will be injured economically by the withdrawal of garrisons. They will, however, have to accustom themselves thereto, the message says, and the author intimates will try to consider economic problems while regrouping army units.

JUDGESHIPS TO BE PURELY ON MERITS

Senator Penrose Favors Keeping Bench and Municipal Offices Out of Politics. Expects to See State Leaders Regarding Pending Legislation During His Visit

Senator Boise Penrose to-day reasserted his belief in the non-partisan system for election of judges and municipal officials. While on a visit to the State Capitol for the first time in six years the senior Senator said: "I am a firm believer in the non-partisan ballot as the means for electing judges and for municipal officials."

"I understand it is to be in honor of the Pennsylvanians in the war. It is an excellent idea."

WHOLE OF PEACE PACT NOT READY FOR HUN ENVOYS

Physically Impossible to Perfect Convention in Four Remaining Days

GERMAN REPLY AWAITED Entente Powers Insist Upon Real Ambassadors at Versailles Conference

Paris, April 21.—Grave doubts were expressed to-day whether the perfect peace treaty would be presented to the German representatives the coming Friday. While the treaty will be communicated to them in substance, it was said in well-informed quarters that it would be physically impossible to prepare the document in its complete, final form, in the four days remaining.

Wilson Absent in Morning. Premier Lloyd George, Clemenceau and Orlando met again this morning in M. Clemenceau's office and resumed consideration of the Adriatic question. President Wilson again absented himself from the Council conference.

The German reply to the ultimatum of the Council of Four that it will not receive any German delegation not fully empowered to conduct and negotiate peace is awaited anxiously in Peace Conference circles. The next step toward peace depend on the German reply.

The Council of Four will meet this afternoon, President Wilson and Premiers Lloyd George, Clemenceau and Orlando attending.

Small Men Picked by Huns. A statement issued last evening by the Huns News Bureau, a semi-official agency, says that surprise has been manifested over the fact that Germany didn't select more important men for her peace delegation than Dr. Haniel von Haimhausen, Herr Von Keller, Ernst Schmidt, Herr Reinhold and Herr Liders, and also that, according to the German note, they will have power only to receive the text of the terms and not to sign the treaty.

It is declared this evening, the statement adds, that "in these circumstances, the sending of these delegates to Versailles would be useless." The announcement by Count Von Brockdorff-Rantzau, the German foreign minister, that his government would send delegates without full powers to receive the peace terms and transmit them to the German government, has contributed greatly, the newspapers say, toward an alliance between France, Great Britain and America. The French press insists that negotiations looking toward such an alliance are still in progress.

Tyrolens Make Claims. Tyrolean claims to recognition as an independent nationality are set forth by the delegates of the Tyrolean national council in Switzerland, Walter Lutzer and Dr. Otto Guggenberger, in a lengthy memorial to President Wilson. The hardy mountain-

CAPITOL IS LOGICAL PLACE FOR MEETINGS OF APPELLATE COURT

Suggestion That Supreme and Superior Courts Sit Here Permanently Wins Much Favor Throughout State

OLD IDEA OF CIRCUIT RIDERS RAPIDLY GOING OUT OF STYLE

Ideas for concentration of government at the official centers, which have had so marked an effect in National affairs and in most of the States of the Union in the last few years and are commencing to be tending strongly toward the creation of a sentiment for making Harrisburg the permanent seat of the appellate courts of the Commonwealth. For a long time there has been thought in this direction. Ever since the State of Pennsylvania determined that for all time the Capitol should be on the banks of the Susquehanna, and invested millions in a building erected by few in the world, the fact that the higher courts maintained their headquarters elsewhere and sat in Harrisburg but a day or so each year, has been a subject of comment.

From a body sitting in various cities of Pennsylvania the Supreme Court, for instance, has almost become a branch of the Government, located in Philadelphia. Most of the sittings are held in that corner of the State. The city of Philadelphia provides rooms in the splendidly extensive city hall for the court, its members and attendants, but the pre-eminence of the tribunal in Pennsylvania affairs is little realized and in fact it is regarded as a part of government where government abounds.

In Other Years. Long years ago when Philadelphia was the center of the State, the Supreme Court, which dates from the days of Penn, sat at Philadelphia, but with the coming of the Revolution and the recognition of the growing counties to the north and west, the Supreme Court judges
