

BOY SCOUTS TO OBSERVE PEACE BY BIG BONFIRE

Celebration to Follow Signatures to Treaty of Paris

Harrisburg Boy Scouts will celebrate the advent of peace and victory for the allied arms, by a huge

victory bonfire to be held as soon as peace is actually signed. Plans for this bonfire were formulated at a meeting of scoutmasters of the city at supper in the Central Y. M. C. A. building, W. H. German, newly-named scout commissioner, was introduced and addressed the meeting. The keynote of Commissioner German's talk was co-operation and increase of morale. He gave many valuable points to be followed by the scout leaders of the city. Among the new Scout Commissioner's duties are those of inspection of all troops in the district, and approval of all requests for Scout assistance. He is the ranking commissioner officer in the city and issues appeals for Scout work through the Scout executive, Dr. Miller, of the State Board of

MILLIONS OF CATARRH GERMS FLOAT IN THE AIR

Atmosphere Is Laden With Germs of the Disease

Every person afflicted with Catarrh releases millions of the tiny disease germs with every cough or sneeze, so that whenever on the street cars or street or other public place you see a person afflicted with this disease, you are inhaling the germs of Catarrh.

You must realize that Catarrh is more than a mere local irritation that stops up your nose and irritates your throat and chokes up your breathing apparatus. Merely clearing these up temporarily with strong solutions of sprays and other local treatment, does not in the least affect the real cause of the disease.

Your blood is saturated with Catarrh germs, and these will continue their irritating attacks as long as they remain in the blood.

The only sensible treatment, therefore, is the one which will rout the disease germs from the blood.

This is why the most satisfactory remedy for Catarrh is S. S. S., the famous old reliable blood purifier. S. S. S. has been used successfully for Catarrh for more than fifty years, and it is the one remedy that attacks the source of the disease, cleansing the blood thoroughly, and eliminating from it every trace of disease germs.

If you want a remedy that goes direct to the seat of the disease, begin to take S. S. S. to-day, and throw away your atomizers and other local treatment that cannot possibly reach your Catarrh. You will be delighted after giving this remedy a trial, and will soon find yourself on the road to a complete recovery. S. S. S. is sold by druggists everywhere.

Not An Age For Weaklings-- Nation Demands Men of Blood and Iron

Physician Says Iron Is Absolutely Essential to Greatest Development of Physical and Mental Power

It Is The Iron-Blooded Men Who Master The Racking Jobs-- While The Hand of Fate Ruthlessly Pushes Aside The Weaklings Whose Blood Is Starving For Want Of Iron

How Organic Iron—Nuxated Iron—Helps Put Renewed Vim and Energy Into the Veins of the Weak, Run-down, Infirm and Aged Often Increases Their Strength in Two Weeks' Time

This is not an age for weaklings—war-time men of living have raised the physical standards of the nation. So many modern men and women have more iron in their blood to-day as a result of eating coarse and hearty foods and living in the open that their vigorous health and untiring energy are in sharp contrast to the weak, run-down condition of those whose blood is literally starving for want of iron. To possess the power, energy and endurance that win we must keep the blood rich in strength-giving iron and unless sufficient iron is obtained from our foods it must be supplied in some form which is easily absorbed and assimilated by the system. For this purpose physicians below explain why they prescribe organic iron—Nuxated Iron—which by enriching the blood and creating thousands of new red blood cells often quickly transform the flabby flesh, toneless tissues and pallid cheeks of weak, anaemic men and women into a glow of health. It increases the strength of delicate, nervous, run-down folks in two weeks' time in many instances.

In commenting upon the probability of building up a stronger race of people by increasing the supply of iron in their blood, the late Dr. W. W. Keen, formerly Physician and Surgeon, Monmouth Memorial Hospital, New Jersey, says:

"Just as lack of proper foods for soldiers saps the strength of a nation, so does want of sufficient iron in the blood of men and women reduce their power to make them an easy prey to the thousands of disease germs constantly around us and always ready to attack the constitution of the weak and run-down. It is not the quantity of food you eat which makes the difference, but the amount which is assimilated and taken up by the blood.

"Iron is absolutely necessary to change food into living tissue, muscle and brain. Refined foods and modern methods of cooking have robbed us of much of the iron which Nature intended we should receive and there is no doubt in my mind that the greater percentage of strength-giving iron, having materially aided in building up a stronger race of people. But unless this iron is obtained from our food it must be supplied in some form that is easily assimilated if we want to possess power,

energy and endurance. For supplying this deficiency and increasing the red blood corpuscles, I know of nothing more effective than organic iron—Nuxated Iron. From a careful examination of the formula and my own tests of Nuxated Iron, I am convinced that it is a preparation which any physician can take him. I have prescribed it for patients with the utmost confidence of obtaining highly beneficial and satisfactory results. The fact that Nuxated Iron is today being used by over three million people annually as a tonic, strength and blood-builder, is in itself an evidence of tremendous public confidence and I am convinced that if others would take Nuxated Iron when they feel weak and run-down it would help make a nation of stronger, healthier men and women.

In commenting on the relation of strong nerves and physical endurance to the attainment of a successful career, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital, New York, and of the Westchester County Hospital, says: "Thousands are held back in life for want of sufficient iron in the blood. A weak body means a weakened brain, weak nerve forces means weakness in every mental and physical activity." "In my opinion the greatest curse that befalls the youth and strength of America of people of today is the alarming deficiency of iron in their blood. It easily assimilated, does not injure the teeth, makes them black, nor upset the stomach. The manufacturer guarantees successful and entirely satisfactory results to every purchaser

HEALTH ADDRESS

Health addressed the meeting on "Flies; Their Propagation and Control." J. Fredrik Virgin, Scout executive, in an address laid emphasis on the campaign for 1,500 Scouts and 50 troops in Harrisburg by Christmas. Out of this number 300 Scouts are to be in the second class and 100 in the first class. Executive Virgin also appealed for men of the right caliber to become scoutmasters and leaders.

Seven-Cent Street Car Fare on Scranton Lines

HERO'S MEMORY

Officers Write of Work Under Fire of Late Edward Weitmyer

The death of Edward Weitmyer, we know Harrisburger, on August 8, 1918, while in France with the Hospital Detachment of the One Hundred and Twelfth Regiment, Twenty-second Division, came within a short time after his injury, letters received by relatives from comrades, tell. He was struck over the head by a piece of shrapnel, one officer writes. At first his injury was not considered serious, but he died before it was dressed. The hospital detachment of which he was a member arrived at Plaines on the night of August 7, while the place was being heavily bombarded. All night long they worked under heavy shell fire, caring for the wounded, getting them on ambulances and taking them to the nearest hospital. At daybreak the enemy opened a bombardment which lasted a few hours the aid station, which was about a quarter of a mile from Plaines, was directly shelled and the hospital detachment was shortly thereafter. He was buried by his comrades and the chaplain the following day.

The highest tributes were paid to him by his lieutenant of his unit and the chaplain. The lieutenant wrote:

"Edward was one of my most valued men. During weeks of service and showed a devoted devotion to duty with a fearlessness and willingness that marks the true soldier. He rendered the highest assistance on July 14 when our battalion received a severe bombardment.

The sergeant of the hospital detachment wrote in behalf of the detachment: "We regard our deepest sympathy to the family of Edward Weitmyer. We were honored by the friendship and association of our comrade. He died on the front line. With his bag of shell-diggers in hand ready to bind the wounds of his comrades, he received a mortal wound himself. He was buried by his friends and comrades. Services were conducted by the chaplain.

A letter received a few days ago from a comrade, states that Edward was rendered first-aid to a wounded comrade, and received about thirty yards from him. "He was wounded by shrapnel," the comrade writes, "but as the wounds were slight, he was supposed to have a chance of recovering. He was the only one of the bursting shell was the cause of his death.

"We are soon to return to the States, but the heroes are the ones who will not return with us. We hope Pennsylvania will not forget that. The ones who lie buried here in France have made it possible for the rest of us to return. How much we are indebted to them we will never be able to realize, but we certainly will always honor them and cherish their memory."

House Passes Bill to Regulate Dance Halls

The House of Representatives today passed without any discussion the Walker bill, providing that all public dance halls and ball rooms shall be licensed and inspected. The bill, passed by a vote of 365-10, in first, second and third class cities of the State. The bill provides that all public dances shall end at 1 o'clock in the morning and that no person over sixteen may attend a dance after 9 p. m. The bill reorganizes the State Police Department and was postponed.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief For Acid Indigestion

So-called stomach troubles, such as indigestion, gas, sourness, stomach-aches and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of stomach acidity is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling, sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble is entirely in the stomach, and can be obtained from an antidote which neutralizes the acid, and makes it bland and harmless, a teaspoonful of which, when taken a few times a day, corrects the acid stomach, should be taken in a quarter of a glass of hot or cold water, after eating or whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acid, in a few moments and is a perfectly harmless and inexpensive remedy to use.

An antidote, such as bisulphated magnesium which can be obtained from an antidote in either powder or tablet form, enables the stomach to do its work properly without the aid of artificial digestives. Magnesia comes in several forms, so be certain to ask for and take only Bisulphated Magnesia, which is especially prepared for the above purpose. G. A. Gorgas.
