

GERMAN PEACE DELEGATES WILL ARRIVE LATE

Will Not Reach Versailles Before May 1, Allies Are Advised

Paris, April 24.—The German government has officially advised the allied and associated governments that the German plenipotentiaries would not leave Berlin before April 28 and that they would reach Versailles May 1, at the earliest.

Drink Habit Surrenders to TESCUM

Tescum Powders for breaking up the drink habit destroying all taste for whisky, ale, beer or other alcoholic stimulants, as thousands of wives and mothers can testify. It is a simple home treatment that can be given secretly and is sold under a steel-bound money-refund guarantee by J. Nelson Clark and other druggists.

to the Exchange Telegraph from Amsterdam asserts that the German peace delegates have been instructed to propose at Versailles a plan for a League of Nations to replace the plan adopted by the peace conference in Paris. The dispatch adds that the German plan was drafted mainly by Count Von Bernstorff, former ambassador to the United States, Mathias Erzberger, president of the German armistice commission, Professor Walther M. A. Schuecking, and Carl Kaatsky, one of the Socialist leaders.

Newspapermen Make Plans to "Cover" Peace Treaty

Paris, April 24.—American newspaper correspondents in Paris, at a meeting to-day to consider the plans prepared by the peace conference for the meetings of the allied and German delegates at Versailles, has decided to demand the right to talk with the spokesmen for the German delegation.

THE ONLY WAY
Wife—And knowing my sentiments on the subject, did that odious Mr. Binks insult you by offering you a drink?
Hubby—That's what Mr. Binks did.
Wife—And how did you resent it?
Hubby—I swallowed the insult!

RED CROSS AIDS EXILED GREEKS

Thousands of Them Were Driven From Asia Minor Early in War

Saloniki, April 23.—High up on the hills of this bustling Macedonian city is a picturesque settlement where 2,000 Greek refugees from Asia Minor by the massacres of 1914, make their homes. Hundreds of other Greeks who were interned by the Bulgarians in Dobruja during the war have joined them recently. The houses in this refugee camp were constructed by the Greek government. A space equivalent to a large New York furnished room is allotted to a family of from five to eight.

Aided By Red Cross
As the Associated Press correspondent was visiting the village, two ox-carts loaded with Greek refugees who had been driven by the Turks from the villages along the Sea of Marmora in 1912 and 1914, and who during the present year were expelled from Macedonia by the Bulgars, made their way slowly up the steep mountain road. The refugees had just come from Dobruja, to the south of Rumania, where they were practically exiled by the American Red Cross, which had relief posts along the line leading from Bulgaria into Macedonia. Many were little more than one to five years old. The wonder was how these little ones, sickly and undernourished, were able to survive the long trip by train, motor-truck and ox-cart.

The faces of these returning refugees were an inexpressibly sad and harassed look. For five years they had been driven hither and yon by the Bulgars and had never known what it was during that time to have a roof and shelter. Under the Bulgars they were forced to live in the open fields or in dugouts or stables. Eighteen hours a day at hard labor under constant intimidation, was the lot of some of them. Three-fifths of a pound of black bread a day was the pitiful recompense they received from the Bulgars. Often those too weak to work were beaten by their ruthless masters.

Many Starved to Death
One refugee declared to the correspondent that at one time there were more than sixty deaths a day among the refugee colony in Dobruja from malnutrition, exhaustion and exposure. In certain sections, he said, the Greeks were forced to live largely on the rinds of watermelons which the Bulgarian soldiers threw in the streets.

The older residents of this refugee "suburb" in Saloniki, most of whom had fled from different parts of Asia Minor during the wholesale massacres there in 1914, have bitter experiences to relate about their treatment by the Turks. Some of these people lived in the city of Phocis, where the whole Christian population either had been driven out or were killed by the Turks. The women wept as they told about the outrages of the Moslems. The worst story was that told by an intelligent peasant woman, who declared that a butcher shop opposite her home in Phocis, she saw the Turks take a young girl who was considered the most attractive in town and cut her body into pieces. They hung the pieces on meat hooks and offered them for public sale, she said to show the Turks' contempt for Greek Christians.

What most impresses the eye of the visitor in speaking with these unfortunate people is their sad, wan and furrowed faces. They have been driven about by the invading foe until they have reached the point almost of despair and distraction.

Famo Stops Seborrhea and Grows Healthy Hair

Ask you to put FAMO to the most exacting test. Have a member of your family examine your scalp before you start the use of FAMO. Apply FAMO daily for one month. Have your scalp examined again. If they do not report the growth of new hair, return the FAMO bottle to where you purchased it and you will receive your money back. FAMO DOES grow new hair luxuriantly. It makes the hair fluffy and soft. FAMO intensifies a natural tendency to waviness and retards grayness. It contains no harmful alcohol to dry the scalp and produce gray hair. Every woman should use FAMO regularly. Its use is a daily habit you will enjoy. But not only does FAMO beautify the hair. FAMO kills the deadly seborrhea microbe which is the cause of dandruff. It stops all itching of the scalp and nourishes and feeds the hair roots. It penetrates the scalp without massage and gives life and sheen to the hair. FAMO was evolved by scientists in one of the famous laboratories of Detroit.

Three years were spent in perfecting it before it was offered to the public. The ingredients in FAMO have never before been used on the head. But they have been well known to medical science for many years. They work differently from any other hair preparation. FAMO stands alone. If your hair is thin and lacks lustre and the dandruff scale causes constant irritation of the scalp, you should start the use of FAMO at once. It destroys the dandruff bacilli. FAMO is sold at all toilet goods counters in two sizes—35 cents and \$1. The dollar bottle is extra large and contains four times as much as the smaller size. Applications of FAMO may be had at the better barber shops and hair dressing establishments. Seborrhea is the medical name for a morbidly increased flow from the sebaceous glands of the scalp. The seborrhea eruptions forms in scales and flakes and is commonly known as dandruff. Mfd. by The Famo Co., Detroit, Mich.
