POST REPLIES TO BURLESON

Director of Publishers' Advisory Board Issues Statement

New York, April 25 .- Replying in a statement last night to the charge of Postmaster General Burleson that he is the victim of an "organized propaganda," Charles Johnson Post, director of the Publishers' Advisory Board, declared that it was not the publishers of the country who needed defense but the postmaster general himself. He asserted that demoralization of the postal service was a fact which every business man and American home was able to judge out of their own experience.

"The amazing official statement by Postmaster General Burleson in his own defense, following his retusar to transmit the news dispatch of the New York World because such dis-patch reflected upon his incapacity, is a challenge to every serious thinkng American—even though he re-icinded such order the following lays," said Mr. Post.
"Whether the postal service is good

days," said Mr. Post.

"Whether the postal service is good or bad, is not a matter of argument or of Mr. Burleson's personal opinion. The public knows from its own experiences, suffered day by day from the camps in France to the commerce of Frisco, and as evidenced by the impartial investigations and the resolutions of the most reliable business organizations of the country.

"What Mr. Burleson calls organized propaganda is the expression of sendiment of hundreds and hundreds of responsible business organizations with their many thousands of business members, chamber of commerce, educational institution. Labor organizations, religious organizations and cultural organizations that have formally condemned the various inefficient postal methods and principles which he champions.

"He specifically upholds the vicious and un-American postal zone law with its unfair postage increases against distant American communities, any alleges that the publishers of the country, newspapers and periodicals, are in a conspiracy to ruin him. Those whom Postmaster General Burleson is attacking by means of the zone law are not publishers, but they are the reading men and women, the reading homes of this Nation. For by this postal zone law domen, the reading homes of this Nation. For by this postal zone law he demands that any periodical shall cost more in postage to an American reader because of and in proportion to that reader's accidental remoteness from any point of publication.

Special Amusement Tax to Be Levied on Germans Berlin, April 25.—German pleasure

seekers will be called upon to pay considerable part of the cost of the war through a special amusement tax which will form an important tax which will form an important part of the government's new financial policy. The tax will apply to admissions to theaters, concerts, the movies and dances. Starting at ten per cent. on the cheaper tickets it rises to thirty per cent. on the price of better seats.

The passion for amusement after long years of war is so great that the tax is not expected to discourage attendance at theaters.

attendance at theaters.

Gambling is in great favor in Germany just now, and the playing card tax which in ordinary times would be considered prohibitive is expected to have practically no effect on sales of cards.

Barristers Alarmed Over Bill Admitting Women to Practice

London, April 25 .- British conservatism sometimes finds strange ob-stacles in the path of progress. One Has Entered Into no Alliance Will Establish Palatial Quarf these threatens the proposal now before Parliment, and strongly supported by a former Lord Chancellor, ord Buckmaster, for the admission

the administration of the law. There are four of these Inns, each of the great powers."

There are four of these lnns, each maintains a large mess. Every student must be enrolled in one, and must dine there a fixed minimum of evenings before he may appear in cour; in wig and gown.

The admission of women would ruffe the old traditions, and bring in a new and unwelcome atmosphere, say the objectors. The messes are subdivided into parties of four who combine on wine rations, and they ask how could the other sex fit into this arrangement? No racial lines are drawn in the Temple. Many natives of Africa, of India, and all the races of the Orient and other faraway lands, are admitted and sit harmoniously at the tables with the British members and candidates of the court. But the suggestion of throwing down the barrier of sex seems to the barristers an alarming innovation.
