

PALMER EXPECTS TO ENFORCE THE PROHIBITION LAW

Says Manufacture of Beer After May 1 Violates the Law

Philadelphia, April 25.—Attorney General A. Mitchell Palmer said here last night that the Department of Justice expects to enforce war-time prohibition very strictly. After May 1, he said, the manufacture of beer violates the law regardless of its alcoholic content. That is the contention of the department, Mr. Palmer said, and motion against brewers will result if beer is manufactured after that date.

The Attorney General said he expects the brewers to stand by the decision that will result from the litigation now going on in New York and has asked them to notify the brewers throughout the country to that effect.

New York, April 25.—The government proposes a literal enforcement of the war-time prohibition act, including a ban on production and sale of all beers and wines, whether or not they are intoxicating. The Department of Justice announces through a special representative in the Federal court here, that it will enforce the prohibition act. The attorney advised Judge A. N. Hand, who heard arguments on the government's motion to dismiss the

NEW VETERANS WILL MARCH ON MEMORIAL DAY

Veterans of the world war have been invited by the local posts of the Grand Army of the Republic to march with them in the Memorial Day parade. At a meeting of the three local posts and of the General John F. Hartman Camp, Sons of Veterans, held in the G. A. R. hall last evening plans were laid for the parade to be held Saturday, May 22. John A. Runkle, of Post 116, was named as chairman; Charles H. Honch, of Post 117, as secretary. The parade will be the grand marshal. A second meeting will be held next Thursday evening.

suit brought on behalf of the national brewing interests by the Jacob Hoffmann Brewing Company to restrain the Federal authorities from interfering with its production of 2% per cent. beer, that the Department of Justice did not know and did not care whether beer of the strength indicated was intoxicating. The law prohibited sale after June 30 of distilled beverages as well as manufacture after April 20 and sale after June 30 of "beer, wine and other intoxicating malt or vinous liquors for beverage purposes," pending the demobilization of the military forces, he said. The words "beer" and "wine" were not qualified, in the opinion of the government, he added, and the apparent congressional intention to stop the "waste" of grain and fruits in the production in any strength would be enforced.

BULLET REMAINS IN MILLS' BRAIN

Trial of Youths For Shooting Gettysburg Groceryman Is Listed For April Court

Gettysburg, Pa., April 25.—The four cases against John Miller and the three against Fred Moore, all growing out of the shooting of Abraham Mills on the night of February 22, will likely be disposed of at the regular April term of criminal court which begins next Monday. Moore is charged with one count less than Miller for the reason that Miller has the charge of breaking jail against him, following his escape from the county jail for a period of four hours several weeks ago. Up until now it was thought the cases would be continued to the August court, but the decision of Mr. Mills to have the X-ray pictures taken, clearing away the uncertainty of where the bullet is lodged, with its corresponding seriousness on the wounded man, has caused the officials to allow the case to go before the court. Mr. Mills was taken to the Carlisle hospital yesterday where nine pictures were taken of his injuries, and these show the location of the bullet to be in the posterior portion of the left hemisphere of the brain. Its location is somewhat of a surprise, as it was not thought probable that the bullet could enter his left temple and go clear to the back of his head, but that is what happened. As the bullet rests in that position in the man's head and brain it may, of course, cause serious results, but time alone will determine the degree of seriousness.

His shovel was held between the car step and the street and arm of John Kepner, near Mansville, was overcome by smoke and it is supposed he fell into the fire and was burned to death. He was dead when discovered. Funeral services were held Thursday afternoon with burial at Mansville.

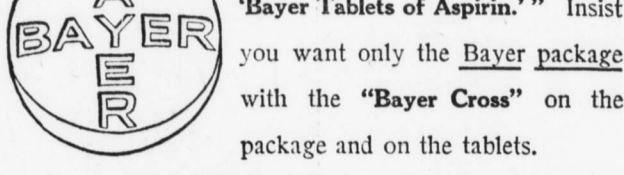

AGED MAN BURNED TO DEATH New Bloomfield, Pa., April 25.—On Wednesday morning, James Barclay, an aged resident of Mansville, while burning brush on the farm of John Kepner, near Mansville, was overcome by smoke and it is supposed he fell into the fire and was burned to death. He was dead when discovered. Funeral services were held Thursday afternoon with burial at Mansville.

HOW THE PEOPLE VIEW THE NEW PEACE LEAGUE

The out-and-out opponents of the League of Nations covenant apparently have not been won over by the amendments adopted in Paris to meet their objections. The New York Tribune (Rep.) finds the "denatured covenant" powerless for either good or evil, while the New York Evening Sun (Ind.) goes further and declares that "it is both an all-around invasion of sovereignty and at the same time impotent for the enforcement of peace." In many quarters, however, it is thought that the recognition of the Monroe Doctrine and other changes "will win for it many votes and may prove sufficient to secure its ratification" by the Senate, to quote the Republican Philadelphia Press. It adds that the credit for these changes is due to the constructive criticism of such Republicans as Mr. Taft, Mr. Knox, Mr. Lodge and Mr. Root.

Be sure and read THE LITERARY DIGEST this week. All angles of public opinion on the League of Nations covenant are presented in the leading article. Other subjects that will interest the American people are:
