What is a Dub? In the parlance of the submerged tenth it is a man who suspects one who does his work carelessly or indifferently—you hear of people "dubbing" along at some given task. Probably the best synonym for dub is what is commonly known as a "poor fish."

A Scene from "Turn to the Right" Coming to the Orpheum

"Turn to the Right" a play of mirth and morals which Winchell Smith and John L. Golden will present at the Orpheum next Thursday, Friday and Saturday. Has been well advertised locally by persons who witnessed it during its long runs in New York and Chicago last year.

One of the new season's notably fine offerings is promised for the Orpheum Wednesday matinee and night when David Belasco will present the Winchell Smith and Victor Mapes comedy success, "The Boomerang." Described as a most charming comedy, breathing the spirit of youth at every turn, this popular Belasco success centers a young physician who applies his knowledge of modern science successfully to the treatment of a youth suffering from an affair of the heart.
