TECH'S CROWDED HOUR SNOODLES

By Hungferord

With a ball game on the island, Lebanon High being opponent, and the famous relay race at U. of P., the premier school of Harrisburg had its head full of activity to-day. Carson Long was scheduled to show up in baseball but fell under quarantine, and the last moment Lebanon was secured. Harrisburg should turn out in multitude and encourage Tech baseball which is being revived after ten years' idleness. These two schools are always rivals and the game to-day will be hard fought. Germer, Lingie and Fortna are in line for the starting position. Emanuel, Bell, Kohlman, Hinkle and other athletes of the famous school will make up the home team. Tech baseball will show a number of crack ballplayers in the persons of Snyder, Pitcher, Trout, backstop, and Red Miller, illustrious in basketball and football, will hold down first. The field is in line, due to the Park Department and V. Grant Ferrer. Fans are promised high-class baseball. Another squad of Tech huskies will be traveling to Philly along with Steelton High. The group includes: Capt. Carl Beck, Hoffmeyer, Garrett, Malick, and Foy. The home team will run in that order. Malick is to anchor man. Here is the class which Tech has been placed in: Class 1—1. Harrisburg Technical; 2. East Orange; 3. DeWitt Clinton; 4. Philadelphia Central; 5. Stuyvesant; 6. McKinley Manual; 7. Albany; 8. West Philadelphia; 9. ...

Tom Marshall Goes on Seal Shoot With Sailor 'Jocko'

"Where and how do they get them? This is a query mentally and publicly launched as we pass hundreds of the gentler, wearing seal skin coats which are a real evidence of thrift. Your inquiry I am going to slip into the "none of my business" category. Where and how the seal are originally secured and the part they have taken in round-up one of the most expert trappers in America, is the object of this article. Every trigger tickler, who has been in the game any length of time, has heard of Jack Fanning of New York. Chief Full Seal is his tribal name in the aggregation of expert shots. The Okoboji Indians, Fanning was also a member of the unincorporated Al-American team, when they were in proportion, the International Races in 1911. "Jocko the Sailor" is one of California's native sons and has held all shooting honors in his home state. He is now recognized authority on guns, ammunition and the correct methods of shooting, a professional shot at the present time. A born shooting instructor. For many years Jack sailed out of the port of San Francisco, to the sealing grounds, where they are biloff islands, discovered in 1786 and transferred by Russia to the United States in 1867. During the interim 1870-1880 the Arctic seal herd was at its maximum, the Pribiloff herd was conservatively estimated at 2,500,000 animals. The Commander of the off-shore island herd at one-half that number. Since that time both herds have been materially depleted. Jack claims his unusual accuracy with a scatter gun is entirely due to his extended seal shooting experience. While seals are not blessed with wings, they are with "foppers," which enables them to "split the water" while in the choppy seas and undulating swells regulate the leading of game and "inserting" of daylight ahead of the quarry, which is sound requisite in wing shooting. Fanning says every shot was placed after an instant mental calculation of velocity and distance of the quarry. The work was freighted with danger and excitement. Accuracy, good eye, experience, level head and courage were necessary in killing the slippery animals from a moving boat on a rocky sea, as a seal's head above water. Every shot, if possible, was made to count as a bonus of \$2 to \$6 was paid to the occupants of each boat on every seal killed in addition to regular salary. A sailing cruise, usually extended over a period of ten months, netting an annual catch of 2,500 to 3,000 skins. The American sealers were and are brown bear, lions, walrus and fox skins. A seal shooter was equipped with a small four cannon, loaded with 1/2 dram of black powder and a 38 number one buck shot, this gun was utilized for "post shooting" in the rookeries, with this charge of buckshot hurtled into a colony of seal many were killed, others stunned and immediately dispatched, by the small gauge auxiliary guns, rifles and buck shot loaded scatter guns. This method of skin procurement was later known as pelagic sealing, which was taboed by the United States government. Canadian sealing vessels indulging in a little pelagic sealing, were seized by Uncle Sam in 1888, which complications seriously threatened international trouble with Johnnie Bull, to be avoided by a treaty in 1892, which put a close water on seal hunting during the months of May-June and July and establishing a protected area of sixty miles around the islands.

Forney Grammar School Girls Know What Is Good Sport

Forney Grammar school, many times winner of the grammar school track and field meets over on the island, has now developed a champion longball team, composed of girls in Miss Zerbe's room. Here they are, ready for action in the big lot at Seventeenth and Chestnut streets. The scene of many diamond struggles. Evelyn Thompson, pitcher and catcher of the team, has many a "kid" on the Hill envious of the way she can hit the sphere and wind the bat. It's a real overhead toss that isn't enough to handle, and more difficult to hit. The girls find time to work off their pent-up energies in this greatest of outdoor sports, and think that they have plenty of time later to put on their dignity, should any of their elders think playing ball is not dignified, as a sport for lassies. Possibly a ball game among the girls might be added to the island sports next month, when the city grammar schools meet for the city title. If such is the case, Captain Thompson and her colleagues are sure to be in the limelight. The members of the team are: Front row, Evelyn Thompson, pitcher and catcher of the team, has many a "kid" on the Hill envious of the way she can hit the sphere and wind the bat. The following players are listed among the candidates: Walker, Seighman, McKay, Murray, Be-shore, Free, T. Taylor, E. Walker, E. Taylor Ray, Flatbush and Craig-head. All of these players are requested to report on the island Monday evening at 6 o'clock for a game with Troop 18. 552 MILLION IS NOW TOTAL IN LOAN CAMPAIGN

One-Ninth of the Full Amount Was Raised in Four Days

Washington, April 26.—Reports to the Treasury Department from all federal reserve districts to-day showed official subscriptions of \$55,939,700 to the Victory Liberty Loan. This is approximately one-ninth of the minimum amount of \$4,500,000,000 sought. While the total for the fifth day of the campaign showed only 12.2 per cent. of the loan in hand, treasury officials pointed out that these figures covered for the most part only subscriptions received up to the close of business on the fourth day. The total is only about half the pro-rata amount for the period, but compares with 10.4 per cent. of the fourth Liberty loan subscribed on the corresponding day in that campaign. The St. Louis district on the basis of subscriptions officially reported to the treasury was leading the country to-night with 26.4 per cent. of its allotment raised. The Boston district was second. Subscriptions by districts in the order of their percentage standing follows: St. Louis, \$51,560,650, 26.4 per cent.; Boston, \$9,749,950, 18.5; Chicago, \$108,197,250, 16.7; Richmond, \$27,150,400, 12.9; New York, \$56,000,000, 11.5; Philadelphia, \$9,629,250, 10.5; Cleveland, \$42,291,350, 9.3; Kansas City, \$15,508,350, 7.9; San Francisco, \$15,558,700, 5.1; Minneapolis, \$17,613,900, 5.0; Dallas, \$4,716,350, 4.9; Atlanta, \$2,966,650, 2 per cent. Eighty-two committees in the New England district have been awarded honor flags, sixty of them being in Vermont. About one hundred and fifty miles below the Mexican border, somewhere along the coast of Southern California, the Navy's Victory ship, the U. S. S. Crane, was reported headed from Panama and the home port of New York.

Boxing Commission Bill Is Changed

Under amendments made in the senate to the bill to create the State Boxing Commission, the authority of the State commission is made absolute to remove any municipal ordinance which is now on the third reading calendar, and is in better shape as far as the passage goes than at similar bill in years. Bills for State control of boxing have appeared regularly for a decade and never gotten anywhere. The most important of the amendments provided for the city, borough, town or township shall pass any ordinance inconsistent with the provisions of this act and all such ordinances now in force in any such city, borough, town or township are hereby declared void. The requirement for fees for licenses is cut out and unincorporated clubs are given the same right to hold matches as others operating under charters. The commission is required to give hearings before revoking licenses. Another change cuts down the age of persons authorized to attend matches to 14 years. The growth of boxing in the Army and because of the war has put the bill in a most favorable position, it is said at the Capitol.

Gettysburg Tackles F. & M. Trained by Jim Sheppard

Jim Sheppard, famous outfielder of the big leagues, is credited with developing a fine ball team for Franklin and Marshall which invades Gettysburg to-day. The infield, particularly, is fast and Captain Trib, the only veteran on the team, has been doing Hal Chase stunts around first base. The best slinger thus far, is Albright who is scheduled to work to-day. Sheppard has had his candidates working a mile and a half and it will be a job if they do not overcome the Battlefield bunch.

Snake Found Mothering Lot of Kittens in Woods

Highmount, April 26.—While several boys were hunting for arbutus on the York county hills they came across a nest of kittens and decided to look after them. After loitering around for about a half hour they saw a copperhead snake make for the spot where the kittens were and found that the snake was on top of them keeping them warm. After a battle the snake was killed and the kittens taken home. It believed the snake "beat away" the mother cat, as the kittens were nearly starved.

ASK TOYS FOR MONT ALTO KIDS

Col. Edward Martin Asks the Boys and Girls of State to Give Something Colonel Edward Martin, State Commissioner of Health, to-day introduced sixty-five boys and seventy girls, patients at the State Tuberculosis Sanatorium at Mont Alto, to the boys and girls of Pennsylvania. The Commissioner told of the game fight these children are making for health at Mont Alto and how the State is doing all it can to help them, but that at Mont Alto there are big playgrounds and big playgrounds, but there are no toys, no playthings, only a few boys and girls' books in the library for the children. These books have been read and read again, until they are almost falling apart. Colonel Martin wants to establish an outdoor playground which will not take much to equip and he wants the boys and girls to help to provide some of their toys and books. He wants express wagons, roller coasters, roller skates, baseball bats, and all the things that appeal to boys and for the girls he wants ribbons, books, knitting needles, yarns and things like that. To equip an outdoor playground he needs \$700. Mrs. J. Willis Martin will represent the Department of Health in Philadelphia and toys, books and money may be sent to the emergency headquarters at Seventeenth and Walnut streets, Philadelphia, while at Pittsburgh Mrs. Enoch Rauh will designate a place where gifts may be sent. For Central Pennsylvania the Department of Health offices in the Capitol will give information.
