Baltimore, April 29.—The Methodist Centenary world-wide program for Christian reconstruction, considered the most far reaching ever adopted by a modern protestant church, to-day brought together in convention clergymen and laynen high in the councils of the church for the three large Baltimore conference districts. Nearly 1,000 delegates representing 138 churches assembled to perfect plans for a vigorous prosecution of the grat financial drive in Methodism for \$105,000,000 for world-wide relief and educational endeavor.

The prisoners will be released gradually as Germany contributes to the work of reconstruction exacted by the treaty and in proportion to this contribution.

The newspaper says that details concerning the future status of the Kiel canal have not been settled, but that an agreement has been reached on the principle of internationalization.
