

**CALLED INTO COURT**  
C. M. Forney, druggist, will be called into court next Monday for selling adulterated food. It is charged that Forney sold a canning compound containing boracic acid.

Joseph P. Brenner, who was convicted on a charge of passing a bad check for \$1,000 will also be sentenced at the coming session. A motion for a new trial was overruled by the court.

**"DANDY!" EXCLAIMS GRATEFUL CLERK**

Harry H. Sallade, 148 North Hart street, Philadelphia, 16 years with a leading department store, where he is a salesman, says: "Tanlac has made a new man out of me. I had gastritis, stomach trouble and nervousness. I heard where Tanlac helped a case like mine and I bought some. I found it a good thing. I got better steadily. I've taken six bottles. My nerves and stomach are stronger and I've a splendid appetite. Tanlac is a dandy!"

The genuine J. I. Gore Co. Tanlac is sold here by Gorgas, George's, Kramer's and Steever's, and other leading druggists in every community.

**BOMB MAILED TO OVERMAN, PROBER OF HUN AGENTS**

North Carolina Postmaster Holds Package and Advises Washington Officials

Washington, May 1.—With the great arm of the postal service reaching out over the country to pick up additional bombs mailed from New York to men high in official and business life, only one, so far as officials here were advised at noon to-day, got through the mails during the night.

This was addressed to Senator Overman, of North Carolina, who, as chairman of the special committee investigating disloyal propaganda, aroused the enmity of I. W. W. and other organizations.

It was held up by the postmaster at Salisbury, the senator's home town. The package bore a New York postmark, carried a mailing label of Gimbel Brothers, and in every respect was similar to the sixteen bombs seized in New York.

Orders went yesterday to all postal employes in the United States to be on the watch for suspicious packages and this, together with widespread publicity, is counted on to prevent delivery of any of the bomb parcels that may be in the mails.

**CALL ON BURLESON TO QUIT**  
Cleveland, Ohio, May 1.—A resolution demanding the resignation of Postmaster General Burleson was adopted last night by the Cleveland Federation of Labor. A copy was sent to Mr. Burleson. Other resolutions adopted call for the withdrawal of American troops from Russia and a return to central time in Cleveland.

**CARING FOR THE WOUNDED AFTER BATTLE IN STREETS OF BERLIN**

Street fighting in Berlin between government troops and the Spartans shows Red Cross nurses binding the wounds of two soldiers who were hit by bullets while fighting in the Frankfurter Allee behind an improvised barricade. Trucks were overturned, merchandise was piled high in the streets, and around newspaper offices, where much of the fighting took place, rolls of print paper were used to form barricades.

**NAVAL GUARD IS TO KEEP EYE ON SELFISH POWERS**

Daniels Says Nations Bent on Conquest Must Be Kept Under Surveillance

London, May 1.—A large naval international police force will be necessary under the League of Nations plan immediately after peace is declared, in the opinion of Joseph W. Daniels, American Secretary of the Navy, and one of the objects of his trip abroad is to discuss with the admiralties of Italy, France and England some details as to this force, particularly the types of vessels desirable.

"The desire of conquest may still linger in the hearts of some nations after peace," said Secretary Daniels, "and such nations must be shown that it would be unprofitable to attempt to accomplish these desires."

**DOCTRICH WINS HONORS**  
The Doctrich store claims first honors in going over the top as a 100 per cent store in the Victory Liberty Loan campaign. Before noon yesterday every employe in the store had subscribed for one or more of the Victory bonds.

Printers in Japan receive 67 1/2 cents a day. Miners in England are asking for an increase of thirty per cent in their wages.

**NO NEED TO BE THIN, SCRAWNY OR SALLOW**

If you are thin and want to be plump; if you have wrinkles in your face that you are not proud of; if the skin is yellow or subject to pimples or blackheads, take Mio-na stomach tablets for two weeks and notice the change.

The majority of the thin people are thin because the stomach does not perform its duties properly. It is not secreting sufficient of the natural digestive juices and in consequence does not extract from the food enough nutritive matter to nourish every part of the body.

Mio-na stomach tablets are intended to build up the stomach so that it will act properly and extract from the food the elements necessary to form flesh.

If you are thin try two weeks treatment of Mio-na stomach tablets—they are small, easily swallowed and are sold on the guarantee of money back if they do not overcome chronic indigestion, acute or chronic, stop stomach disturbances, belching, heartburn, sour stomach, acid any after dinner distress.

For sale by H. C. Kennedy and all leading druggists.

**REDS EVACUATE PETROGRAD; GET BLOW FROM FOE**

Bolshevik Troops Driven by Allied Pressure to New Positions on Omega Bank

Helsingfors, May 1.—Petrograd is being evacuated by the Bolshevik troops from reliable sources say. Many of the inhabitants are being sent away and the Bolshevik government is taking rigorous measures to prevent the news of the happening at Olenetz from reaching the people.

London, May 1.—Along the Mursansk railway the Bolshevik troops under allied pressure have withdrawn to new positions 20 miles west of Petrazavodsk on the western bank of Lake Onega.

A Russian wireless message respecting the withdrawal says that the Bolsheviks have carried out an advance on the front south of Archangel, and that on the eastern front the Siberians have driven back 25 miles in the region east of Orenburg.

**Peter Magaro Answered An Intuition to Keep Bolsheviks Out of U. S.**

Peter Magaro sat in his office at the Regent Theater this morning talking to a reporter who happened in. The conversation turned on the nation-wide plot to kill prominent men by the bomb method.

"Who are these fellows sending out these bombs?"

"They're the same fellows who, if they walked past your theater and saw crowds thronging through the doors, would conclude they and not you should own the theater and gather in the shekels," was the answer. "Not that there would be any sense to their notion, but just because their absolutely foolish conviction that no man should succeed as against his shiftless neighbors."

"That reminds me," said Magaro, "that I must hustle out and get some more Liberty Bonds." He saw the direct answer to the suppression of Bolshevism and responded immediately.

**Performed 93 Successful Operations in Month in U. S. Hospital in France**

Ninety-three successful operations in one month is the record made during the winter by Dr. Charlotte Fairbanks, chief surgeon of the American Women's Hospital at Luzancy, France. She has not broken her own record yet but has kept close to it ever since. "For," she says, "so many doctors were killed during the war that a surgeon is in demand." Although all the women doctors in France are pressed with work, Dr. Fairbanks realizes the needs in other countries, and in a letter recently received from her at the headquarters of the American Women's Hospitals in New York, she emphasized the necessity of sending physicians, nurses, ambulances and medical equipment to Serbia. The organization is now raising a fund of \$250,000 to send a complete unit to Serbia.

**JAPAN RECEIVES KIAO CHAU AND THE PENINSULA**

Will Return Shantung to China; Hope Remains For Italy's Return

Paris, May 1.—The agreement regarding the Shantung peninsula and Kiao Chau, which has been reached between the Council of Three and the Japanese delegates, provides for their transfer without reserve to Japan, which voluntarily engages to hand the Shantung peninsula back to China.

It is added that Japan's other agreements with China will not be affected. It will be left to the Chinese and Japanese governments to agree upon the details of the carrying out of the treaty of 1915 and the agreements made in 1918.

**Italians May Come Back**  
There is a slight rift in the Italian cloud, which gives hope of the clearing of the difficulties that have arisen in the Peace Conference over the resumption of relations have not come thus far from either direction, but there are intimations from Rome that overtures from Paris would not be unacceptable, and would receive every attention.

The prevailing sentiment among the delegates, including several of the American delegation, is against soliciting a return of the Italian representatives, and it was at first believed that President Wilson shared this view. Those nearest the President, however, assert that if Italy is disposed to relinquish Fiume and accept the compromise the President suggested, he could doubtless, in the interest of harmony, make such friendly suggestions as would permit the resumption of

**DISCUSS PLANS FOR LAUNCHING NATIONS LEAGUE**

Colonel House Gives Luncheon to Eric Drummond and Others

Paris, May 1.—Plans for launching the League of Nations was pretty definitely outlined at a luncheon yesterday to Sir James Eric Drummond, the secretary general of the league; Lord Robert Cecil and others.

The plans are divided into three main stages: First, preparatory details, which will be worked out at headquarters to be established at London during the coming summer; second, the inaugural meeting of the league at Washington next October under the presidency of Woodrow Wilson; third, the permanent establishment of the league at Geneva next fall or winter.

relations by the Italians without any sacrifice of dignity or self-esteem.

**Official Attitude Softens**  
These personal susceptibilities are felt to be more of an obstacle at present than the territorial merits of the case. While popular sentiment in Italy still insists on holding Fiume, the recent official attitude has been less insistent and apparently tends toward acceptance of one of the various plans proposed by the Council of Three, whereby Fiume would be internationalized and some Dalmatian outposts given to Italy.

It is the declared purpose of the Council, as well as President Wilson, not to yield on Fiume, even if the peace treaty is signed without Italy's participation. But, should the recent official tendencies at Rome take the definite form of acceptance of a compromise, the President's friends say they are sure that no

feeling of pride will restrain him from taking steps which will fully restore the Italian delegation to its former agreeable status in the conference.

**Pure, Maine Grown, Fancy SEED POTATOES**

They Grow Better—They Yield Better

My Seed Potatoes are grown especially for me in the State of Maine by one of the most widely-known Seed Potato specialists in the country. Every year we receive many carloads of this high-yielding stock direct from his Seed Potato Farms in sealed cars. Not a hand touches them until they reach us. By actual test made by many potato growers in every section of Pennsylvania, these high-yielding Seed Potatoes have produced from two to three times as many bushels to the acre or baskets to the row as home-grown stock will produce under the same conditions.

WE PAY MORE FOR THEM than ordinary planting potatoes would cost—they are worth more—and it will PAY YOU WELL, as it does hundreds of others in bigger crops, to plant

**Shell's High Yielding Seed Potatoes**

Mr. George Smith, Harrisburg, Pa., market gardener, says: "Never again will I plant my own potatoes. I planted what I got from you alongside of my own of the same variety and gave them the same attention, yet the plants of yours were much stronger and healthier, and produced THREE times as many potatoes."

Denison Bros., Dauphin, said: "We honestly believed that our own potatoes, very carefully selected, would yield as many bushels to the acre as your Maine seed potatoes, and two years ago we planted them side by side to prove them—we must acknowledge yours produced two bushels to every one bushel our own produced. Now we plant all yours."

George Davis, market gardener, says: "I am convinced by actual test that it pays to pay the price and plant your MAINE GROWN SEED POTATOES. Planted side by side, in the same field on the same day, cultivated and sprayed in the same way, yours produced nine baskets to the row and mine only three."

Don't save at the wrong end, when to do so means a loss—Plant Shell's Bigger Crop Maine Grown Seed Potatoes and double your crop.
