

MOB TAKES TOLL OF 3,224 IN 30 YEARS IN NATION

South Has Largest Number of Victims With 2,834; "One Crime" Grows Less

By Associated Press. New York, May 2.—In the last 30 years 3,224 persons have been put to death by mobs, according to a report made public to-day by the National Association for the Advancement of Colored People.

For the thirty years period from 1889 through 1918, the South has had 2,834 victims, the South 2,834, the West 156 and Alaska and other localities fifteen.

"Fifty colored women and 11 white women were lynched in 14 States," the report says. "Thirteen of the 14 States in which women fell victims to mobs were Southern States, Nebraska being the only State outside the South which lynched women. The North and West together have lynched 21 young persons during the last five years period, whereas during the same time 204 persons were lynched in the South."

Regarding President Wilson's appeal to State governors and civil officers to prevent lynching, the report says: "Despite President Wilson's earnest appeal, made under such extraordinary circumstances, lynching continued during the remaining period of the war with unabated fury. Sixty-three negroes—five of whom were women—and four white men fell victims to mob ruthlessness during 1918, and in no case was any member of the mobs convicted in any court and in only two instances were trials held. In both of these instances the mob members were acquitted."

In conclusion the report says: "It is apparent that lynchings of negroes for other causes than the so-called 'one crime' have for the whole period been a large majority of all lynchings, and that for the last five years less than one in five of the colored victims have been accused of 'attacks upon women.'"

It is understood that the Chinese representatives will express their dissatisfaction with the decision.

Five Peace Chapters Finished

The Treaty of Peace comprises from fifteen to twenty chapters, according to Marcel Hutin, of the Echo De Paris. The preamble is contained in the first chapter, setting forth the reasons why the various contracting parties entered the war and mentioning the necessity for the League of Nations.

The second chapter deals with the German frontiers, and the third contains all clauses which concern alterations of frontiers resulting in changes in the sovereignty of territory. The fourth sets forth the military, naval and aerial clauses, and the fifth takes up the disposition of the German colonies, it is said.

Concludes With Guarantees

The other chapters are not yet finished, but they will concern reparations, economic and financial questions and will deal with the international labor legislation treaty. The treaty concludes with a chapter concerning the guarantees for the execution of the treaty conditions by Germany.

M. Hutin adds that there is every reason to believe the German delegation really has full powers and will end the negotiations by signing the preliminaries of the treaty.
