They Grow Better-They Yield Better

My Seed Potatoes are grown especially for me in the State of Maine by one of the most widely-known Seed Potato specialists in the country. Every year we receive many carloads of this high-yielding stock direct from his Seed Potato Farms in sealed cars. Not a hand touches them until they reach us. By actual test made by many potato growers in every section of Pennsylvania, these high-yielding Seed Potatoes have produced from two to three times as many bushels to the acre or baskets to the row as home-grown stock will produce under the same conditions.
