FARMERS FAVOR WORLD LEAGUE

League to Enforce Peace Declares 193 Agricultural **Bodies Endorse It**

New York, May 5 .- A list of 193 agricultural organizations, national, state and local, which have adopted resolutions favoring the entrance of the United States into a League of Nations was made public to-day by Nations was made public to-day by the League to Enforce Peace. The League also announced that fifty-five prominent agriculturists, representing every state in the Union, have joined the organization as national officers and members of its national committee and are mobilizing the farmers of the country for a drive on the United States Senate when the League of Nations treaty is presented for ratification.

On the strength of this evidence the report, which is presented by Professor Walter J. Campbell, the league's rural extension secretary, concludes that an overwhelming majority of the 12,000,000 farmers of the country favor, not only the ideal of a league but the league externed.

he country favor, not only the idea of a league, but the league covenant

Borough Council to

Meet This Evening

The regular session of the borough council will be held this evening. At this meeting the petition for the Municipal League asking for street improvements, will be presented. The petition asks for the relaying of the blocks in Front street and for the thorough repair of all other paved streets.

There is no wa vacancy in the council caused by the death of Council Remers' National Grange, and the Non-Farmers' National Grange, and the Non-

campaign are: Oliver Wilson, master of the National Grange; C. S. Barrett of the Farmers' Educational and Co-operative Union of America; Dr. H. L. Russell, dean of the College of Agriculture, University of Wisconsin; Clarence Poe of Raleigh, N. C.; E. T. Meredith of Des Moines, Iowa: Foster Dwight Coburn, of Topeka, Kansas; Chester H. Gray, president Missouri Farm Bureau Association; Dr. Thomas F. Hunt of the University of Califo.nia; C. W. Thompson of the Bureau Markets, U. S. Department of Agriculture; Dr. Eugene Davenport, dean of the Agri-

THE SHOWDOWN IS COMING

Men and women of Harrisburg who to-morrow do not display Victory Bond buttons on their coat lapels will be "telling the world" that they do not own Victory Bonds.

To-morrow is Victory Bond Button Day in Harrisburg.
There are men and women in this city who own Victory Bonds who are not wearing their buttons—but there are more men and women in Harrisburg who are not wearing the buttons because they do not have the bonds. Secretary J. Clyde Myton, of Victory Loan headquarters, this morning in one minute in Market street counted twenty-two men who did not have buttons to two street counted twenty-two mer

men who did.
"That's a remarkably rotten showing," said headquarters of-

Postmaster Sites, homes chair man for the city, has issued this

statement:
"We might as well have "We might as well have a showdown on this thing. We might as well know who has bonds and who hasn't. Therefore, I suggest that all bond owners to-morrow wear their Victory Loan buttons.

"The man or woman who on Tuesday, May 6, 1919, does not wear a Victory Bond button will be advertising to the world the fact that he doesn't own Victory Bonds."

So to-morrow is "Showdown Day."

FRENCH CABINET PLEASED WITH PEACE TREATY

The Temps Says Belgium Receives a New Prop-

By Associated Press.

Paris, May 5.—The Temps says that the entire French cabinet is favorably impressed by the report on the peace treaty, and adds that Paul Hymans, the Belgian foreign minister and peace delegate, left yesterday for Brussels with two propositions to be considered by the Belgian government. These concern the priority of Belgium's claim to the amount of 2,600,000,000 francs against Germany's first reparation payment, and the clearing up of Belgium's war debt without reserve and with the elimination of the conditions which previously attached to this.

The Belgian caunet will take these

The New Junior High Schools

By DR. F. E. DOWNES

With the opening of schools in September next, Harrisburg will occupy for the first time two of the three intermediate or junior high schools, which were projected as the result of the Van Sickle survey of 1916. Ultimately a third such school is expected to be provided in the central section of the city.

The many questions that are continually being asked relative to the schools would seem to indicate that the public generally is not well informed concerning them, either as to the magnitude of the project itself, or as to the vital and far reaching importance of the schools to the educational interests of the community. For his reason it seems proper to answer through the public press some of the questions that arise most frequently. Probably the most important of these are the following.

Why was it necessary to provide additional facilities at this time? For many years the Central High School has been over-crowded. At present, and for several years past, double sessions have been necessary. This school, now accommodating at times during the year about 1,050 students, was constructed to accommodate only 500 to 550 students. For the past two years it has been necessary to send all grammar school graduates to the Technical High School. This has resulted in the crowding of that school also to normal metry.

What are itermediate or junior high school system is known throughout the country? The seventh, eight and selection of the seventh, eight and selection of the seventh, eight and selection of the seventh eight and the last six as the high school system. The new system is known throughout the country? The country as the 6-3-3 plan of school organization, as distinguished from the former 8-4 plan. The first six grades by the new plan will be known as the elementary grades and the last six as the high school system. The new system is known throughout the country? The country as the 6-3-3 plan of school organization, as distinguished from the former 8-4 plan. The first six grades by the new plan will be required i

the last six as the high school grades, the latter being divided into three years in the intermediate or junior high school and three years in the senior high school.

What are the advantages of this classification? There are many adaptive of the senior high school.

ed below. Pupils in such schools have the advantages that come from departmental instruction, early differentiation of courses of study, increased variety of opportunity as to subjects taught, and the stimulus and inspiration that come through association with many teachers and pupils of one's own age.

What is meant by departmental instruction and what are its advantages? Departmental instruction means teaching in some definite department of work, such as the department of English, etc. By this plan the teacher, instead of teaching means better teaching, because the teacher can become an expert in teaching means better teaching, because the teacher can become an expert in teaching of one subject, whereas in the teaching of many subjects she is apt to be a real expert in none. It means better equipment, for the reason that the few rooms in which any subject is taught can be fully equipped at less money than it now takes to equip many rooms inadequately. It means improved physical conditions through opportunities afforded for physical education. It means in the junior school, a gradual transition from elementary to high school

A SPECIAL MEETING of the stock-holders of the Belmont Motors Corporation will be held at the office of the Company, 29 North Second Street, Harrisburg, Pa., Rooms 8 and 9, on May 12, 1919, at 1 o'clock P. M., for the purpose of re-confirming the action taken by the stockholders at the annual meeting held in 1918 in the amendment of the charter, and such other business as may be presented.

J. H. BKENNEMAN,
Secretary and Treasurer.

THE annual meeting of the Stock holders of the Blubaker Coal Co. will be held at the office of The W. O Hickok Mfs. Co., on May 5, 1919, a 12:00 o clock noon,

ROSS A. HICKOK,
Secretary,
